

BOSS 5070

1900, $\alpha = 19^{\text{h}} 17^{\text{m}} 12$, $\delta = +40^{\circ} 20'$, mag. 5.62, type A.

This star was announced as a spectroscopic binary by Adams in the *Publications of the Astronomical Society of the Pacific*, vol. 26, page 261. From the measures, the period is evidently short. The *K* line of calcium does not share in the large oscillations of the other lines. Sufficient plates for an orbit have been secured at Allegheny and the star is dropped from our list.

Our measures follow.
