GRAND CHRISTMAS DISPLAY OF POTTERY, BRIC-A-BRAC, FURNITURE, ETC.

People who have the reputation of always giving the right thing at Christmas usually make their selections early while stocks are fresh and assortments at their best.

A visit to this store just now will prove a revelation to those who have not lately called. Huge consignments of beautiful and exclusive things in Pottery, Brassware, Fancy Furniture, etc., purchased this summer in the art centres of Europe by our representative, have been opened up and are now on sale, tastefully displayed on our First Floor.

In addition we show a host of new things in Fancy Furniture from leading Canadian and American makers. The small prices marked on very many articles are likely to astonish you. They are only made possible by our custom of purchasing direct from the makers.

The list below may prove usefully suggestive to those undecided as to what to give:

Dutch Pottery, 35c to $20

To see our collection of Hollandaise Pottery you would think that every conceivable shape and size was represented. Here are flower tubes in green, yellow and mauve, at 30c; dainty little jardinieres at 50c, oddly-shaped candlesticks and vases innumerable at from 50c to $20.00, besides ash trays, urns, flower boxes, rose jars, tripod jardinieres, plaques, etc., in a wealth of decorative effect, ranging from simple stencilled patterns to wonderful combinations of color and design.

Christmas gifts, both tasteful and inexpensive, can easily be chosen from this collection.

Pewter and Brass Steins, $5.00 to $10.00

We have a good selection of Steins, both in Pewter and Brass. The former are antiques, ornamented with heraldic devices and grotesque figures. Those in brass are embossed with figures of Roman warriors and hunters. These jugs make very effective ornaments for shelves or mantlepieces in dens and libraries.

Pompadour Notions

Charming conceits in small decorative pieces of furniture, entirely covered with silk or velours, ornamented with gold braids, etc. Included are Glove Chests, Work Baskets, Fancy Trays, Music Stands, Photo Frames, Fancy Tables.

Handsome goods in solid brass. The bowls are of Indian manufacture, decorated with embossed representations of Eastern war and hunting scenes. We have them in six different sizes. Considering the amount of labor that must have been expended in their production, the prices are marvellously low.

The ware has a delightfully old-fashioned appearance and somewhat resembles the famous Dresden China. We show Rose Jars, Pot-pourri Jars, Powder Boxes, Candlesticks, Fruit Dishes, etc., all decorated with dainty hand-painted medallions. Prices range from $1.50 to $10.50.

Nancy Decorative Glassware, $3.75 to $20

There is an air distinctively French about this beautiful ware—Vases, Flower Bowls, Ornamental Bottles, Jars, etc., in graceful shapes, ornamented with floral and crystalline designs, in dull shades of purple, green and pink. Every article bears the name of the artist-maker, "Galle." Prices range from $3.75 to $20.00.

A distinguishing characteristic of this famous make is the exquisitely soft tones of the coloring and the realistic modellings of fruit and leaves with which many of the pieces are decorated. Here are Jardinieres, Vases, Fern Pots, Rose Bowls, Jars, etc.

Prices begin at $3.00 for a charmingly designed jug and end at $14.00 for a beautiful jardiniere in green and dull gold.

BY WIRELESS TELEGRAPHY TORONTO TO OUTSIDE WORLD

Dominion DeForest Company Now Building High Power Station at the Junction.

Toronto is soon to be in communication with the principal cities of Canada and the United States. The Dominion DeForest Wireless Telegraph Co., Limited, of Montreal, are now building a high power station at Toronto Junction, and it is the purpose of the company to push this station to completion and be ready for commercial business by the new year. It will then be possible to send messages and receive to and from New York, Atlantic City, Philadelphia, Boston, Cape Hatteras, Keywest, Buffalo, Cleveland, Chicago, St. Louis, Denver and many more stations now doing business in the United States, and Canada. To the layman this may seem impossible, but to the man that knows the DeForest system and its workings no distance seems too far. As proof here is some late long distance work by the DeForest system:

From New York to Montreal, 400 miles.

From New York to Cleveland, 600 miles.

From New York to Chicago, 900 miles.

From New York to St. Louis, 1400 miles.

From New York to Kansas City, 1500 miles.

M. H. Crego, special contracting agent, stopping at the Arlington Hotel, is here looking after the company's interests, and would be pleased to meet anyone and have a friendly talk on this the most wonderful commercial invention of this or any age.

This company proposes to build, and operate stations at all important points, in the Dominion of Canada, and do a general telegraphic business between their own stations, as well as between stations in the United States, or elsewhere, owned or controlled by the American DeForest Wireless Telegraph Company, or any of their subsidiary companies. It will also build and operate stations, on both the Atlantic and Pacific Coasts, for transmission of messages abroad, and will work in harmony, with like stations, built by foreign DeForest companies. It will erect and operate stations along all of the important rivers, gulfs, and lakes, as well as on the sea coast, and will equip vessels with wireless telegraph instruments, keeping them in touch with their home office, until their destination has been reached.

U. S. Operates Paying Wireless.

The United States government owns the only long distance commercial system in the world (DeForest system used.)—Runs 107 miles from Nome to St. Michael.

The Evening Mail, Oct. 31, had the following despatch from Washington:

Gen. A. W. Greely, chief signal officer of the army, in his annual report, speaking of the wireless work in Alaska between Nome and St. Michael, says:

"This is the only long wireless telegraph system in the world, it is believed, that is regularly operated as a part of a telegraph system handling commercial business.

"On Aug. 6, 1905, it completed a year of uninterrupted service over its course of 107 miles. It has handled daily the entire telegraphic business of Nome and the Seward Peninsula, which average several thousand words daily, and no errors traced to this system. The commercial business has netted over $100,000 for the year, and it is estimated $200,000 for next year. Its use has already resulted in great benefit to the business interests of Alaska. During the year 134,630 messages were handled, both government and commercial.

"In a single hour there have been transmitted over this section 2000 words without error or repetition. Capt. Wildman was retained at Nome thruout an Arctic winter to insure continuity of operation, and the successful training of the enlisted force."

Gen. Greely says that upon an hour's notice the Signal Corps can furnish all equipment necessary for one thousand miles of communication.

May Bring You a Way to Get Well. Will You Try It?

A stamp will send us this coupon. And the coupon will bring you an order for a full-size bottle of Liquozone, if you have not tried it.

The very fact of this offer should convince you that Liquozone is a remarkable remedy. Don't you know that if Liquozone did not succeed such an offer would be impossible? Don't you realize that this product must do what other remedies fail to accomplish?

Then please let its help come to you.

What Liquozone Is.

The virtues of Liquozone are derived solely from gases. The formula is sent to each user. The process of making requires large apparatus, and from 8 to 14 days' time. It is directed by chemists of the highest class. The object is to so fix and combine the gases as to carry into the system a powerful tonic-germicide.

Contact with Liquozone kills any form of disease germ, because germs are of vegetable origin. Yet to the body Liquozone is not only harmless, but helpful in the extreme. That is its main distinction. Common germicides are poisons when taken internally. That is why medicine has been so helpless in a germ disease. Liquozone is exhilarating, vitalizing, purifying; yet no disease germ can exist in it.

The virtues of Liquozone are derived solely from gases. They are generated from the best producers of oxygen, sulphur dioxide and other germicidal gases. The process of making requires large apparatus, and from 8 to 14 days' time. The object is to so fix the gases, and to combine them, as to carry into the system a powerful tonic-germicide.

We purchased the American rights to Liquozone after thousands of tests had been made with it. Its power had been proved, again and again, in the most difficult germ diseases. Then we offered to supply the first bottle free in every disease that required it. And over one million dollars have been spent to announce and fulfil this offer.

The result is that 11,000,000 bottles have been used, mostly in the past two years. To-day there are countless cured ones, scattered everywhere, to tell what Liquozone has done.

But so many others need it that this offer is published still. In the last few years, science has traced scores of diseases to germ attacks. Old remedies do not apply to them. We wish to show those sick ones—at our cost—what Liquozone can do.

Where It Applies.

These are the diseases in which Liquozone has been most employed. In these it has earned its widest reputation. In all of these troubles we supply the first bottle free. And in all—no matter how difficult—we offer each user a two months' further test without the risk of a penny.

WARDEN BAIRD WAS DINED MANY COUNTY DIGNITARIES

Festive Affair at the Clyde Hotel, When the Warden Was Caned for Retiring.

The dining-room of the Clyde Hotel was the scene of a festive gathering last night, when Warden Alex Baird was on the occasion of his retirement from that position happily caned by his fellow colleagues.

Associated with the county council were W. C. Widdifield, Archie Campbell, M.P., Crown Attorney Drayton, T. H. Lennox, M.L.A.; A. McCowan, M.L.A.; Warden Gilmour, Governor Vanzant, W. J. Hill, Andrew Russell, Police Magistrate Ellis, ex-Warden Chester, Reeve Bryans of Etobicoke, ex-Warden Henry Duncan, Mayor Richardson of East Toronto, W. J. Stark, Fred Miller and others. Councillor James Ley proved an admirable chairman with Joseph Rogers and J. L. Gardhouse as vice-chairmen.

The toast list was a lengthy one, that of the "Dominion Parliament" being responded to by Archie Campbell, M.P. In the course of a spirited address Mr. Campbell declared that while the autonomy bill had ceased to excite discussion the one with reference to the increased indemnity, while in a measure justifiable, was in some of its phases objectionable, and must be repealed. Short sessions were altogether justifiable and the time occupied was a strain on the time of the member.

"The Local Legislature" brought replies from T. H. Lennox and A. McCowan. "Officials of York County" elicited replies from Warden J. T. Gilmour, County Crown Attorney Drayton, W. J. Hill, ex-M.L.A., Governor Vanzant and John A. Ramsden. "Transportation" was responded to by Traffic Manager Wilson of the Toronto and York Railway, and County Engineer Macdougall. "Agriculture" was associated with the names of Messrs Evans and Lundy.

"The Learned Professions" was responded to by W. C. Widdifield and James Baird. "The Ladies" brought eloquent replies from ex-Warden Slater and Archie McCallum.

FIELDS QUITS MUTUAL.

Albany Entertainer for Mutual Life Has Been Let Go.

New York, Dec. 1.—Andrew C. Fields, formerly head of the supply department of the Mutual Life Insurance Company, who maintained a house at Albany during several sessions of the state legislature, is no longer connected with that company. It is understood that Mr. Fields will not return to be examined by the insurance investigating committee.

A further effort will be made by the company to bring Mr. Fields back to New York to testify before the insurance investigation committee.

John Claflin, a director in the New York Life Insurance Company, to-day, denied the report that the directors of the company were about to ask for the resignation of John A. McCall, the president of the company.

CHORUS GIRL INJURED.

Very few people in the large audience at the Grand Opera House realized that one of the chorus girls was hurt so badly last night that she had to be taken to the Emergency Hospital before she recovered from her injuries.

While the chain was passing across the stage at a rapid rate, one of the girls suddenly parted hands. Margaret Johnston was carried off her feet and thrown against some scenery. She managed to get off the stage, but had to be taken to the hospital. She had been struck in the pit of the stomach, and it was some time before she was brought around. Then she was removed to the Vendome Hotel, where she is staying.

The next social evening of the 333 Club at Albert Williams' cafe will be on Dec. 6. There will be a dance.

CARBOLIC ACID POISONING.

Buffalo, N.Y., Dec. 1.—Thomas Dancey and wife were found dead to-day, and their 15-year-old daughter unconscious. The latter was revived, and will recover. Medical Examiner Danser said death was due to carbolic acid gas poisoning.

THE STORY OF A SUCCESSFUL MAN

He Found His Lost Health in Dodd's Kidney Pills.

Leading Business Man of Welland Gives His Experience with the Great Canadian Kidney Remedy.

Welland, Ont., Dec. 1.—(Special).—There is no better-known or more highly-respected man in Welland than Mr. J. J. Yokom. Born and brought up in the neighboring Township of Crowland, by his own industry and sterling honesty he has grown to be one of Welland's leading merchants. Consequently when Mr. Yokom comes out with a statement that he was cured of a serious illness by Dodd's Kidney Pills, everybody knows it must be so.

"For a year or more I had Kidney Trouble in all its worst symptoms," says Mr. Yokom. "My head was bad, I had no appetite and I lost weight fast. At times I was entirely incapacitated. I doctored with a physician of vast experience, but got no good results.

"I became dependent of ever being well again, when by good luck I chanced to try Dodd's Kidney Pills and from the first they seemed to suit my case. Five boxes cured me completely."
