POWER OF TRUSTS FOR EVIL ENLARGED BY THE TARIFF

Prof. Flux of McGill University Addresses American Economic Association at Providence.

Providence, R.I., Dec. 28.—Prof. A. W. Flux of McGill University, Montreal, spoke on "Trusts and the Tariff" before the American Economic Association. He said, in part: "It should not be claimed that all trusts are creatures of the tariff. But it may be claimed that the extent to which trusts can fix prices for their own goods and to the essential disadvantage of the communities in which they operate is dependent on the existence of the tariff. Thus we may find reason in the claim that the tariff exists in free trade England their power for evil is comparatively small, but far from unimportant. Under the protective shelter of the tariff a trust may make a large difference between its prices for the home market and for foreign markets. Where freights are more important than duties this difference may exist because natural conditions favor its existence. Where freights are low, the difference cannot be large, unless duties are heavy. It is thus that the English, who as much addicted to making special prices for export as any people, are in the absence of duties on most commodities restrained from maintaining extravagant differences in their quotations for home consumption and for export. The influence of powerful trusts in securing the maintenance of import duties, when the industry concerned has attained sufficient strength to compete on even advantageous terms with foreign producers, finds much illustration in the actual facts of today and in the United States. In the case of the iron and steel industries, in which a gigantic trust dominates the situation, the special efficiency of American industrial methods finds its most conspicuous illustration."

STRENGTH FREE TO MEN

How to Regain it Without Cost Until Cured

Strength of body—strength of mind! Who would not possess it if they could? It is nature's greatest gift—our most valuable possession. Without this strength life is a failure, with it everything is possible. Almost every man was made strong, but few have been taught how to preserve this strength. Many, through ignorance, have wasted it recklessly or used it up excessively, leaving the body exhausted, the nerves shaken, the eyes dull and the mind slow to act. There are thousands of these weak, puny, broken-down men dragging on from day to day who might be as strong and vigorous as ever they were if they would only turn to the right source. Electricity cures these weaknesses. It gives you back the very element you have lost. It puts new life into the veins and renews the vigor of youth. For 40 years I have been curing men, and so certain am I now of what my method will do that I will give to any man who will furnish you with the Belt to use, in many cases not over \$5.00. If you are not cured or satisfied, return the Belt to me and that ends it. As I am the originator of this method of treatment and have made it a great success, there are many imitations of my Belt; but my great knowledge, based on 40 years' experience, is mine alone. My advice is given free with the Belt.

This offer is made especially to men who lack strength and vitality, who have drains, losses, impotency, varicocele, etc., but I also give my Belt on the same terms to sufferers from Rheumatism, Lame Back, Sciatica, Kidney, Liver and Stomach Troubles. Call or write for a Belt to-day; or, if you want to look into the matter further, I have two of the best books ever written on Electricity and its medical uses, which I send free, sealed, by mail.

SHORTAGE OF FREIGHT CARS SHOWN IN STAPLE SHIPMENT

Great Declines Recorded by U.S. Department in Live Stock and Grain Movements.

Washington, Dec. 28.—The car shortage problem has had its influence upon the movement of internal commerce during the past month, according to a statement issued to-day by the bureau of statistics of the department of commerce and labor.

A marked decline is shown in movements of certain important staples when compared with November of last year. The live stock receipts at seven interior primary markets during November showed a falling off of about 300,000 head. Shipments of packing-house products from Chicago during November declined 77,849,000 pounds, compared with the same period in 1905. The most noticeable decline is shown in receipts of grain, the figures for fifteen interior markets during November showing a falling off of over 17,500,000 bushels from November, 1905. No shipments of anthracite coal from eastern producing regions totaled 5,182,158 tons, compared with 5,421,584 in November, 1905.

ORDERS FOR ROLLING STOCK.

New York, Dec. 28.—Large contracts are now being placed here for cars for some of the leading eastern railroads. The Erie orders will entail an outlay of nearly \$7,000,000.

PRUSSIAN AND FRENCH LAWS

Comparison by Vatican—Briand Measure Ignores Hierarchy.

Rome, Dec. 28.—An official note issued by the Vatican to-day says: "The comparison between the Prussian cultural law of 1875 and that of the Clemenceau cabinet as made in the French senate was entirely wrong. The Prussian law, although hard and unjust towards the church, explicitly recognizes the Catholic hierarchy as the foundation of the church, while the fundamental principle of the church and state separation law and of M. Briand's bill is to ignore the hierarchy and to impede in an unjustified manner the ordinary practice of religion."

Montreal, Dec. 28.—Judge Taschereau has dismissed the action of S. A. Stephens against the American Locomotive Company for \$20,000 commission to satisfy which two new locomotives in transit were seized in this city. LIFE MAGNATES INDICTED FALSE RETURNS CHARGED

Grand Jury Finds Defendants Were Influenced by Desire to Benefit Policyholders.

New York, Dec. 28.—George W. Perkins, former vice-president of the New York Insurance Company, and now a member of the firm of J. P. Morgan & Co., and Charles S. Fairchild, former secretary of the treasury and a trustee of the New York Life Insurance Company, were indicted to-day by the grand jury, charged with forgery in the third degree.

The indictments were based on what is known as the Prussian bond transaction, in which it is charged that a false statement was made by the New York Life Insurance Company in order to satisfy the government of Prussia as to the securities held by the company. Mr. Perkins appeared in court and gave bail in the sum of \$10,000. Mr. Fairchild is in Europe. One of the transactions investigated by the grand jury in this connection, and the one on which the indictments were based, was what was alleged to be a dummy sale of 10,000 shares of Chicago & Northwestern preferred stock, and 5000 shares of St. Paul stock to the New York Security & Trust Co., as far as appeared on the books of the New York Life Insurance Company, was a complete sale of the securities. The New York Security & Trust Co., however, recorded it as a loan. Later these shares were sold by the New York Security & Trust Co. with a profit to the life insurance company of \$135,000.

This alleged false statement of sale had for its object compliance with the rules of the Prussian government, that a life insurance company doing business in that country shall not include bonds in such assets. Mr. Perkins was arraigned in the court of general sessions and entered a plea of not guilty to the indictments, reserving the right to withdraw the plea at a later date. He was given until Jan. 21 to file demurrers. Bail was furnished by J. P. Morgan Jr., and Cleveland H. Lodge.

The jury reported six indictments against each of the accused men. According to the indictment, the defendants, in connection with the affairs of the New York Life Insurance Company, that accepting the law of these cases as advised by the district attorney, they had conspired to find the indictment this day filed. The grand jury, however, desire to record their conviction that in doing the acts charged the defendants were influenced by a desire to benefit the policyholders of the New York Life Insurance Company; that the defendants themselves neither drew nor could in any way personally profit from the acts done, and that the evidence conclusively showed that a large pecuniary benefit was derived by policyholders as a consequence of those acts.
