PROMPT DELIVERY.

"Two weeks won't do. I've got to have it right away."

"Sorry to disappoint you, Mr. Buseman, but the shop is jam full of work. Don't think you can get it quicker in town. Every other tailor just as busy as we are."

"Too bad, Mr. Stitcher, but I can't wait."

In the "Semi-ready" Wardrobe a few minutes later:—

"Yes, sir, this suit will go up on the six o'clock delivery to-night. Glad you like it. It is a fine fit. Just $18."

Buseman, *sotto voce*: "Yes, and it's just as good as Stitcher wanted $26 for, and wait two weeks.

"Semi-ready" delivered same day as ordered.
$20, $18, $15 and $12 per suit.
Money back if dissatisfied.

MINES AND MINING STOCKS

Outlook for Mining in British Columbia Appears Now to Be Rather Bright.

PROPERTIES OF WAR EAGLE.

Sales of and Quotations on Mining Stocks at Toronto and Montreal Yesterday.

Editor World: Can you inform me thru the medium of your valuable paper, what mines or mining properties constitute the War Eagle Consolidated Company, and oblige. Shareholder.

The War Eagle holdings comprise the following properties in Rossland Camp: The War Eagle, "Mugwump," "Moneta," "Pilgrim," "Rossland Red Mountain" and "Crown Point." The first five are all situated in a block, the control of the four less known of the quintet having been secured in order to avoid possible litigation over following the War Eagle ore chutes.

The War Eagle Company owns also the Richmond group of silver-lead properties in the Slocan, B.C. The group boasts the Slocan Star vein, and comprises the following claims: Richmond, Starview, Watson, Eureka and Summit.

Thinks Well of B. C. Mines.

Grand Forks, B.C., Oct. 24, 1900.—John Morrow, travelling passenger agent of the C.P.R., Hawkesbury, Ont., is making a tour of the Boundary country, after visiting Rossland. Mr. Morrow is greatly impressed with the magnitude of the development work in the various camps. He predicts that there will be an influx of eastern capital as soon as the leading mines demonstrate the mineral wealth of the district by declaring dividends. Investors are now awaiting the result with no little expectancy. Any doubts he may have entertained respecting the future of the Boundary have been dispelled, as a result of his visit. Mr. Morrow inspected the Granby smelter, under the direction of Superintendent Hodges and A. C. Flummer, the assistant general manager. He felt, the assistant general manager. He considered the plant complete in every respect. He was especially struck with the economy effected by the various labor-saving appliances, and will return east convinced that the Granby smelter has solved the question of the successful and profitable treatment of the low grade ores of the Boundary.

Mr. Morrow recently accompanied the naval special, which conveyed from Halifax to Vancouver the officers and 450 sailors drafted to H.M.S. Phaeton at Esquimalt. Harkin.

Eben Holden.

The Poole Publishing Company of Toronto issued yesterday a Canadian edition of Eben Holden, which is said to be the book of the year, and the sales of which in a few weeks have reached 75,000, and are increasing by thousands weekly. The story, which is written in Irving Bachelle's happiest vein, is a beautiful and refreshing one, while its humorous sayings, character drawing, serene philosophy of life and sympathetic touches in describing nature are undoubtedly, in a large measure, responsible for its unparalleled success. It contains a word painting of a battle scene which is one of the most vivid ever penned, and which has been compared to Victor Hugo's description of Waterloo. It is a book of sheer, honest merit and destined to win great popularity, and will prove a treasure to book lovers. Copies may be had at all book stores.

Wabash Railroad Company.

If you are contemplating a trip South or West for the winter, please consider the merits of the Wabash, the short and true route from Canada to Old Mexico, with its wealth of antiquities and grand natural scenery. Texas and California, the lands of sunshine and flowers. Passengers leaving Toronto and West via evening trains reach St. Louis next day at 2 p.m.; Kansas City same evening, 9.30; far-away Texas and Colorado points next day. Special low rate excursions during November and December. Full particulars at R.R. Ticket Offices or J. A. Richardson, District Passenger Agent, northeast corner King and Yonge-streets, Toronto. 246

One of the greatest blessings to parents is Mother Graves' Worm Exterminator, it effectually dispels worms and gives health in marvelous manner to the little ones. ed

BIG WOOL FIRM FAILS.

Browne & Sons and the Phoenix Mills Company of Philadelphia in Trouble.

Philadelphia, Nov. 2.—Judge McPherson, in the United States District Court, upon the request of creditors of William Browne & Sons, and the Phoenix Mills Company, has appointed as receivers for the firms Thomas Walstenholme and Frank H. Keene. Further argument will be heard as to the appointment of a third receiver. The two concerns, which are practically the same, are manufacturers of worsted yarns, and their combined liabilities are placed at $2,140,000. Depression in business and the borrowing of $1,000,000 on wool pledged with them is said to have caused their failure. In the petition it was stated that the alleged bankrupts admitted their inability to meet their indebtedness.

WHAT CAUSES DEAFNESS.

The Principal Cause is Curable but Generally Over-Looked.

Many things may cause deafness, and very often it is difficult to trace a cause. Some people inherit deafness. Acute diseases like scarlet fever sometimes cause deafness. But by far the most common cause of loss of hearing is catarrh of the head and throat.

A prominent specialist on ear troubles gives as his opinion that nine out of ten cases of deafness are traceable to throat trouble; this is probably overstated, but it is certainly true that more than half of all cases of poor hearing were caused by catarrh.

The catarrhal secretion in the nose and throat finds its way into the Eustachian tube, and, by clogging it up, very soon affects the hearing, and the hardening of the secretion makes the loss of hearing permanent, unless the catarrh which caused the trouble is cured.

Those who are hard of hearing may think this a little far-fetched, but any one at all observant must have noticed how a hard cold in the head will affect the hearing and that catarrh if long neglected will certainly impair the sense of hearing and ultimately cause deafness.

If the nose and throat are kept clear and free from the unhealthy secretions of catarrh, the hearing will at once greatly improve, and anyone suffering from deafness and catarrh can satisfy themselves on this point by using a fifty cent box of Stuart's Catarrh Tablets, a new catarrh cure, which in the past year has won the approval of thousands of catarrh sufferers as well as physicians, because it is in convenient form to use, contains no cocaine or opiate and is as safe and pleasant for children as for their elders.

Stuart's Catarrh Tablets is a wholesome combination of Blood root, Guaiacol, Eucalyptol and similar antiseptics, and they cure catarrh and catarrhal deafness by action upon the blood and mucous membrane of the nose and throat.

As one physician aptly expresses it: "You do not have to draw upon the imagination to discover whether you are getting benefit from Stuart's Catarrh Tablets; improvement and relief are apparent from the first tablet taken.

All druggists sell and recommend them. They cost but fifty cents for full-sized package, and any catarrh sufferer who has wasted time and money on sprays, salves and powders will appreciate to the full the merit of Stuart's Catarrh Tablets. 246

TO HELP WORTHY STUDENTS.

Frank Williams, Late of Johnston, Pa., Leaves $300,000 to Lehigh University.

Bethlehem, Pa., Nov. 2.—The will of Frank Williams, late of Johnstown, makes a bequest of $300,000 to the Lehigh University for the benefit of worthy students. The will provides that the income be loaned to students at the university who are unable to pay their way thru college. Their notes are to be taken for the amount borrowed, and the money when returned is to again be placed in the fund.

Every Colliery Working.

Hazleton, Pa., Nov. 2.—Every colliery in the Hazleton region is in operation to-day.

ALMOST 100,000 BOTTLES

OF DR. CHASE'S SYRUP OF LINSEED AND TURPENTINE

SOLD LAST YEAR IN CANADA ALONE.

The Most Popular and Most Thoroughly Satisfactory Family Remedy for Affections of the Throat and Lungs That Was Ever Devised.

These figures are quoted, in order that you may form some idea of how many thousands of homes there are in Canada where Dr. Chase's Syrup of Linseed and Turpentine is considered indispensable as a certain cure for coughs and colds, and safeguard against Consumption and Pneumonia.

Unlike the mixtures so frequently offered by druggists for coughs and colds, Dr. Chase's Syrup of Linseed and Turpentine is a thoroughly scientific preparation, and one which would cost three or four times as much, if prepared in small quantities, in a drug store. It contains many of the most effective remedial agents for irritations and inflammations of the throat, bronchial tubes and lungs, that nature has provided, and is surprisingly prompt in curing the most severe and deep-seated coughs and colds.

Mothers have unbounded confidence in this great prescription of the famous Recipe Book author, because it has so often saved their little ones from croup, bronchitis and severe chest colds. Children like it, and as it does not contain morphia or other dangerous drugs, it can be used by young and old alike with perfect safety, and with absolute assurance of benefit being derived.

Mr. J. R. Robinson, 37 Bishop-street, Toronto, says: "Dr. Chase's Syrup of Linseed and Turpentine absolutely cured two of my children of croup. Both my wife and myself have utmost confidence in it. This remedy is no stranger in our home, having frequently been used before with the greatest success."

Mrs. G. H. Reid, North Augusta, Ont., says: "The greatest seller in my store today is Dr. Chase's Syrup of Linseed and Turpentine. To the virtues and results of it I can truthfully say the following: Being troubled with bronchitis and asthma for a long time, have tried several remedies, but all failed to touch the spot, until I tried Dr. Chase's Syrup of Linseed and Turpentine. I got relief from the first bottle. I can highly recommend it to all humanity suffering from throat or lung troubles. And you are at liberty to use this testimony as you see fit."

Dr. Chase's Syrup of Linseed and Turpentine is the standby in Canadian homes. It has, by far, the largest sale of any similar preparation, and has won this immense popularity because it not only relieves promptly, but absolutely cures coughs and colds, and guards the way to the lungs from the attack of consumption, pneumonia and complicated lung troubles. 25 cents a bottle, family size (three times as much) 60 cents, at all dealers, or Edmanson, Bates & Co., Toronto.

SUSPENSE IS NEARLY OVER

Business in the U. S. Has Been Longing for a Free Field in Which to Leap Forward.

THE IRON INDUSTRY TO BOOM UP.

Full Forces Employed in the New England Factories—The Demand for Cotton.

New York, Nov. 2.—Dun's review to-morrow will say: The period of suspense is nearly over. Business has been longing for a free field in which to leap forward, but restricted buying largely to wants for immediate consumption. There is everywhere confidence in better things if national honor is sustained by the ballot of Tuesday. Some evidence appears of willingness to take speculative chances in the movement of a few standard goods, notably of iron and steel. The actual resumption of operations in the anthracite coal fields has added largely to the working force, and closing down of a few small steel plants is only in the nature of concentrating operations at more advantageous points, and has not much reduced the number of men employed.

Iron Industry Encouraging.

Encouraging signs multiply in the iron industry. Strength in bessemer and gray forge at Pittsburg shows that the recent increase in activity of finished forms has at last affected the market for raw material. Improvement in buying of pig is the more noticeable because of decrease in exports. Structural shapes continue in urgent request, plates advancing with active demand from shipbuilders and with talk of a pool to sustain the price. Bar iron would sell readily at former prices, but holders grow stubborn. Reports are current that American concerns have contracted for machine shops in Bremen and numerous bridges abroad, including some in Africa. Billets at Philadelphia cost $20, which does not look like reduction in steel rails. Buyers in these lines decided not to wait for the election to place contracts.

The New England Shoe Shops.

Full forces are employed at New England shoe shops, and heavy orders insure brisk work for the rest of the year. Prices have not advanced for the finished articles, with leather and hides. Textile operations are more vigorous, sales of wool at the three chief eastern markets exceeding all recent records, with a total of 7,804,500 pounds. This is largely for prompt consumption, and consequently makes poor comparison with the same week last year, when unprecedented speculation made the total 25,386,700 pounds, with many large transactions missed in the excitement of the Boston market. With the greater activity there appears a tendency towards firmer prices, and 100 grades on Nov. 1 averaged 19.55 cents, according to Coates Brothers of Philadelphia.

Cotton Has Recovered.

Cotton has recovered a little of the recent sharp decline attributed to reports that frost would surely do serious damage. The market does not show much fear of disaster, and there is more reason to believe that the slight advance was induced by better purchases of spinners, who were attracted after the fall of $7.80 a bale in less than three weeks. There was also some recovery in wheat, started by the statement that Argentine would not be able to export freely this year, because of injury to the growing crop. Corn did not join the advance to any extent, and provisions were generally quiet, except for a corner in October pork, which compelled traders on the short side to cover contracts at $20, when the month began with some concessions are made by importers of raw sugar.

Failures for the week were 198 in the United States, against 183 last year, and 23 in Canada, against 25 last year.

Bradstreet's Review.

New York, Nov. 2.—Bradstreet to-morrow will say: Unseasonably warm weather continues the leading directly unfavorable feature of distributive trade, because of the check given to retail distribution, and, therefore, to re-order business in most lines of dry goods, wearing apparel and shoes. Conservatism, in view of the near approach of the presidential election, is undoubtedly an element of considerable influence, particularly in stock speculation, but a conspicuous exception to this is found in the reawakening of demand and the advances in prices shown in the iron trade in widely separated sections. This is really one of the most important developments of work and is taken as indicating that not only confidence in election results is felt, but that consumers' stocks are down to minimum.

Speculation Slow.

Speculation on the various exchanges here ruled rather slow. In wheat the moving feature has been the reiteration of stories of Argentine crop damage, which was instrumental in inducing some advance, much of which was lost later. In cotton fear of frost damage has been the moving factor, and here also some advance has been scored from the low point reached last week. Wool is showing increased activity, while prices are firm, in sympathy with the better tone of London and Melbourne advance.

Western live stock receipts for October were very heavy, but prices have held well, despite this.

A distinct and marked improvement in demand for both crude and finished iron and steel is noted. From Chicago, Pittsburg, Birmingham and Philadelphia come confirmations of the better inquiry for pig iron at a slight advance, except in the case of the southern product. This movement is regarded as significant in view of reported cutting of prices by English and Scotch makers. Altho the export demand for iron and steel has quieted of late, that for cotton is apparently undiminished, and this week will be the heaviest single day's export from New Orleans ever recorded.

DR. ARNOLD'S IMMENSE SUCCESS.

Evidence Increasing on All Sides Proving His Superb Mastery Over Disease.

SIMPLY AMAZING

The Way People in All Walks of Life Are Giving Testimony.

Diseases Which Had Previously Defied the Best Medical Skill, Yield Promptly After Treatment With Dr. Arnold's English Toxin Pills.

The success of Dr. Arnold's English Toxin pills for all germ diseases is now an established fact. To the whole of Canada has come the satisfying demonstration of the superiority of the anti-toxin theory and principle of cure. Thousands of men and women have come forward to tell what Dr. Arnold's famous Pills have done for them. Fresh triumphs are added with each new day until the whole Dominion marvels at the wonderful work being done in making sick people well. It is safe to say that this country has never seen or heard of so many cures in the same period of time. People have been humbugged so much and their ills made the playthings of the unprincipled, that the testimony which is continually coming in is the strongest proof of the wonderful healing properties of Dr. Arnold's English Pills. This noted scientist does not claim that his new method of treatment will cure everybody or every disease. He DOES claim, however, and adduces proof, that in a majority of cases his English Toxin Pills either cure or benefit the sufferer. Scores of reputable people have voluntarily given testimony of this fact, and in this city where have Dr. Arnold's English Toxin Pills have had an enormous sale, the evidence is to be seen on all sides.

DR. ARNOLD.

MORE PROOF TO-DAY.

This is Truly Marvelous.

"I suffered more than tongue or pen can describe, from kidney complaint and nervousness, during three years past. Relief seemed out of reach, though five physicians treated me. I had about given up hope of ever being cured, when, by a friend's advice, I began the use of Dr. Arnold's English Toxin Pills. At first the benefit was small, but I persevered, and soon I began to mend rapidly. I am now completely cured, and I here state emphatically that my cure was brought about by Dr. Arnold's English Toxin Pills, and by them alone."

Sincerely yours,
W. A. McLEAN,
254 Carlton-street, City.

General Debility Cured.

"I suffered for months with nervousness and general debility. I was utterly miserable, unable to sleep, and constantly in the most depressed spirits. My nerves were twitchy, I had splitting headaches, and was weak as a child. My family physician advised me to use Dr. Arnold's English Toxin Pills, and I am happy to state, cured me completely. I am now hale and hearty, strong and vigorous, sound in every muscle, nerve and limb, thanks to Dr. Arnold's English Toxin Pills."

W. F. LeFLAR,
Williamsford, Ont. (Merchant).

Dr. Arnold's English Toxin Pills are sold by all druggists, 75c a large box; 25c. a small box, or sent post paid on receipt of price, by The Arnold Chemical Company, Limited, Canada Life Building, 44 King-street west, Toronto

EX-MAYOR STRONG DEAD.

The Last Occupant of the Civic Chair of Old New York Passed Away Yesterday.

William L. Strong, who was the last Mayor of the old city of New York, died yesterday morning at his residence in that city.

Mrs. Strong, Major Putnam, Bradlee, Strong, his son, and Mrs. Albert P. Shattuck, his daughter, were with Mr. Strong at the time of his death.

Had Been Ill Six Weeks.

Mr. Strong had been in poor health for about six weeks. He ate supper as usual last night, and did not complain of any pain or weakness at that time. About 11 o'clock he retired to his bedroom, assisted by two nurses, who had been in attendance since the beginning of his illness. About an hour after he had gone to bed he awoke and told one of the nurses he was very weak. He asked to have his wife and son called. They soon came to the room.

Col. Strong grew a little better, and as his condition at that time did not seem alarming the physician was not sent for.

A little before 3 o'clock Mr. Strong seemed to have a decided change for the worse, and his physician was hastily summoned, but he did not arrive until after the patient's death.

Was Born in Ohio.

William L. Strong was born in Ohio March 22, 1827, and come to New York when a young man. He took an active interest in politics. At the time of his death Mr. Strong was a director of the Central National Bank and the Merchants' Association, vice-president and treasurer of the New York Security and Trust Company and trustee of the New York Life Insurance Company.

New Law Firm.

Toronto is to have another law firm. Mr. Harry Symons, Q.C., who was a partner in the old firm of Kingsmill, Symons, Saunders & Torrance, has been joined by Mr. Joseph Montgomery, a graduate of Toronto University, who has also been in the same office since his call to the bar, having had charge of the legal affairs in St. Thomas, Ont., of the Michigan Central Railway, which he has given up in view of the contemplated arrangements. The new firm will have offices in the Toronto Mortgage Company Chambers, Toronto-street, and ought to command a goodly share of any legal business going.

Sunday at Massey Hall.

To-morrow (Sunday) the Canadian Temperance League will open their 12th annual Gospel temperance campaign in Massey Hall. The speakers will be Revs. George Dewey and William Meikle. Professors Excell and Gabriel, the celebrated Gospel singers and hymn-writers, and well known to the Toronto people, will give a special song service. The chair will be occupied by the president of the League, Mr. J. S. Robertson. Meeting commences at 3 p.m. Doors open at 2 p.m.

For Europe.

A. F. Webster, general steamship agent, books the following passengers to sail today for Europe: Mr. George E. Broadfield, Mrs. Broadfield, Mr. E. J. Checkley, Mr. Elly Marks, Mr. A. Cohen, Mr. T. G. Cook, Mrs. Cook, Miss Cook, Mr. E. Seddon, Mr. Samuel Seddon, Mr. A. Pettit, Mrs. Pettit, Mr. William Townsley, Mrs. Townsley and three children.

CANADIAN BOYS HONORED.

Lord Mayor of Liverpool Entertained Two Dozen of Them at Luncheon on Thursday.

Liverpool, Nov. 2.—The Lord Mayor of Liverpool entertained yesterday at luncheon 24 invalided Canadians from South Africa, who are to sail for home on the Carthaginian. He expressed his regret that he had not been earlier informed as to the date of their departure, so that he might have assembled the principal people of the city to meet them.

Mumm's Extra Dry.

Attention is directed to the announcement of Messrs. Walter R. Wonham & Sons, Montreal, Canadian agents of G. H. Mumm & Co.'s Extra Dry Champagne. Messrs. Wonham & Sons desire to call attention to the fact that genuine "Extra Dry" has rose-colored metal capsules and the words G. H. Mumm & Co. stamped thereon, and the name Walter R. Wonham & Sons, Montreal, as sole agents for Canada, appears on the label. Lovers of fine champagne should see that they get the genuine article. Mr. J. S. Donaldson of East Front-street is Toronto agent.

INVESTMENT BARGAIN

Do Not Wait Until After the Election.

Send in your order now for shares in the Black Jack Zinc Syndicate, Limited— Capital Stock $100,000, divided into 400,000 shares of a par value of 25 cents each.

A BONUS OF 10,000 SHARES of common stock will be given to purchasers of 40,000 shares 12 per cent. cumulative preference stock—

Equal to 24 per cent. per Annum of Stock Selling at 12½ cents per Share.

Order at Once, as This Offer Will Not be Good After Nov. 7th.

SIX REASONS WHY YOU SHOULD BUY,

1st. Because of the increased uses of ZINC, some of which are as follows:
(a) In the first place ZINC is the complement of copper in electricity, and a vast quantity is consumed yearly in electrical works.

(b) It is used extensively in the cyanide process for recovering gold, ZINC being the re-agent that causes gold to separate from cyanide solutions.

(c) ZINC is largely used for ornamental purposes, such as monuments, statuary, etc.

(d) ZINC enters extensively into all brass manufactures, and 60 per cent. of the metal in shells and the coating of bullets is ZINC.

(e) ZINC in great quantities is used in the manufacture of galvanized iron for building purposes.

(f) ZINC is also used for making plates for engraving, and takes the place of the lithographic stone.

(g) The coating of galvanized wire fencing and telegraph wire is ZINC.

2nd. Because the various and increased uses of ZINC, together with the closing down through flooding by the sea of several of the great Belgian mines, that formerly supplied the world, LEAVE OPEN AN EXTENSIVE MARKET.

3rd. Because in the use of ZINC lies an important point, i.e., there is no scrap zinc. Once used, it never returns to the melting pot. Hence largely springs the perpetual demand.

4th. Because our property adjoins the FAMOUS ZENITH MINE, at Rossport, Ontario.

5th. Because experts claim this district has the largest and most massive deposit of ore to be found in the known world, and that there is sufficient to SUPPLY THE ENTIRE MARKET for a number of years.

6th. Because you are getting 12 per cent. (EQUAL TO 24 PER CENT. PER ANNUM ON YOUR INVESTMENT), cumulative preference stocks, at the extremely low price of 12½ cents per share, with a BONUS OF ONE SHARE OF COMMON STOCK WITH EVERY FOUR SHARES OF PREFERENCE.

Address Secretary,

THE GOULDS WILL PAY.

All the Debts of the Swift French Count Will Be Settled So Far as Found Correct.

New York, Nov. 2.—Respecting the De Castellane's financial affairs, Richard Cachard, counsel for the Countess de Castellane, is quoted in a Paris despatch to The Tribune as saying that all debts will be paid immediately by the Gould estate, with the exception of a few claims from antiquity and bric-a-brac dealers which are deemed absolutely exorbitant.

A Family Compact.

New York, Nov. 2.—The Evening World quotes an intimate friend of the Gould family as saying that George, Helen, Howard, Edwin and Frank Gould intend to contribute a sum sufficient to wipe out the debts contracted by Boni de Castellane, their sister's husband. Judge Dillion, counsel for the Goulds, said he knew nothing about any such intention. According to The World informant, the Gould estate is now worth $125,000,000.

Business Men's Backache.

When a man gets interested in his business he's apt to forget about himself.

When backache comes—when he feels depressed and out of sorts, he contents himself with the plea that he's worked too hard—he'll ease up some of these days.

But he doesn't let up—backache gets worse and worse—kidneys can't stand the strain put upon them—they need help—must have it if serious kidney trouble is to be averted.

DOAN'S KIDNEY PILLS

have helped hundreds of busines men to do their work and keep their health —eased their aching back, and restored the natural blood filtering functions of their kidneys. Read the evidence:

"I have had kidney and urinary trouble for some time past, with distressing pain in the small of my back, and indeed felt very miserable. I got one box of Doan's Kidney Pills from Mason's drug store, and they cured me completely. I recommend them heartily as a splendid remedy for kidney or urinary difficulties, and as a cure for pain in the back they are certainly infallible." FREDERICK ASH, Merchant Tailor, Main St., Markham, Ont.

Always ask your druggist for *Doan's* Kidney Pills and refuse worthless substitutes and imitations. THE DOAN KIDNEY PILL CO., Toronto, Ont.
