THE MOST POPULAR PILL.—The pill is the most popular of all forms of medicine, and of pills the most popular are Parmelee's Vegetable Pills, because they do what it is asserted they can do, and are not put forward on any fettitious claims to excellence. They are compact and portable, they are easily taken, they do not nauseate nor gripe, and they give relief in the most stubborn cases. You hear about a word to the wise

being sufficient, but if he is really wise he demands also some security. A recent wedding in Brictany was celebrated according to old customs of that country. The festivities lasted five days, and entertaining the 2,000 guests cost nearly \$5,000.
