

ATLANTIC BOWLERS FAIL TO TAKE DR. ROBINSON TROPHY FROM ASYLUM

Pottersburg Quartet Wins From Chambers' Rink by Two Shots.

Chambers' Asylum bowling combination was unsuccessful in winning the Dr. Robinson challenge trophy from the London Asylum trundlers in a game yesterday, losing by 19 shots to 17. Pottersburg: G. Fears, 10; W. H. K. Talbot, 10; E. B. Highway, 10; A. Chambers, 11; A. Throver, 10.

GOVERNMENT CALLS FOR CESSATION OF WAR-TIME STRIKES

Plans for Prevention of Labor Troubles Brought Down.

OTTAWA, July 11.—The committee of the privy council dealing with the prevalence of strikes, has issued a report suggesting measures for their prevention, the adoption of which is urged upon both employers and workmen. The report embodies one from the minister of labor on the question issued on July 9, and gives as the cause of the strikes, the shortage of labor, increase in cost of living, denial of employers of right of men to organize and heavy action on the part of employees. The recommendations in the minister's report have been approved by the committee and submitted to the governor-general for approval.

The minister recommends that the Government adopt means to prevent strikes, and that the adoption of a war labor policy, fair and equitable to all concerned, governing relations between employers and workmen in all industries engaged in war work and including all those mentioned in the industrial disputes investigation act, (except railway and amusements) thereby by Parliament or extensions thereof by order-in-council, for the duration of the war, would materially contribute to the attainment of these objects.

No Strikes or Lockouts. The minister, therefore, recommends that the government-in-council declare the following principles and policies, and urge their adoption upon both employers and workmen for the period of the war:

1. That there should be no strike or lockout during the war.
2. That all employees have the right to organize in trade unions, and this right shall not be denied or interfered with in any manner whatsoever, and through their chosen representatives should be permitted to negotiate with employers concerning working conditions rates of pay, or other grievances.
3. That employers shall have the right to organize in associations of groups and this right shall not be denied or interfered with by workers in any manner whatsoever.
4. That employers should not discharge or refuse to employ workers merely by reason of membership in trade unions or for legitimate trade union activities outside working hours.
5. That workers in the exercise of their right to organize shall neither coercion nor intimidation of any kind to influence any person to join their organizations, or employers to bargain or deal therewith.

6. That in establishments where union shop exists by an agreement the same shall continue and the union standards as to wages, hours of labor and other conditions of employment shall be maintained.

7. That in establishments where union and non-union men and women are working together and the employer meets only with employees of representatives engaged in such establishments, the continuation of such conditions shall not be deemed a grievance. This declaration, however, is not intended in any manner to deny the right, or discourage the practice of forming labor unions, or the joining of the same by workers in said establishments as aforesaid nor to prevent a board of conciliation or other body or authority from recommending improvements in the matter of wages, hours of labor or other conditions as shall from time to time be found desirable.

8. That establishments of safeguard and regulations for the protection of health and safety of workers shall not be relaxed.

Fair Wage Provisions. 9. That all workers, including common laborers, shall be entitled to a wage ample to enable them to maintain themselves and families in decency and comfort and to make reasonable provision for old age.

10. That in fixing wages, minimum rates of pay should be established.

11. That women on work ordinarily performed by men should be allowed equal pay for equal work and should not be allotted tasks disproportionate to their strength.

12. That in all cases where eight hours is by law or agreement the basis day, it shall so continue. In all other cases the questions of hours should be settled with due regard to the governmental necessities and the welfare, health and proper comfort of the workers.

13. That a maximum production from all war industries shall be sought and methods of work and operation on the part of employers or workers which operate to delay or limit production or which tend to artificially increase the cost thereof should be discouraged.

Use Government Bureaus. 14. That for the purpose of mobilizing the available labor supply with a view to its rapid and efficient distribution as well as constant employment, the managers and operators of industrial establishments and the trade unions concerned should keep provincial or municipal employment agencies and the Canada registration board fully informed as to labor requirements, or available. Those agencies should be given opportunity to make distribution of labor.

15. That in fixing wages, hours and conditions of labor regard should be paid to the labor standards, wage scales and other conditions prevailing in the locality affected, always mind, however, of the necessity of payment of living wages.

16. That to better preserve industrial peace during the war employers and employees should, after once establishing an agreement as to wages and working conditions, agree to its continuation during the war, subject only to such changes in rates of pay as fluctuation in cost of living may justify.

Use Conciliation Boards. 17. That when employers and employees are unable to arrive at a mutual agreement concerning any existing dispute, unless some other means of settlement is agreed upon by the parties, they should use the machinery provided for in the industrial disputes investigation act in an endeavor to reach an adjustment.

Should the recommendation of the board of conciliation not be accepted, either party may appeal to the board of appeal, who shall review the findings of the board of conciliation and hear such further evidence as either party to the dispute may desire to submit at their own expense, the decision of the board of appeal to be final.

Any settlement of a dispute referred to the board of conciliation or carried in appeal to the board of appeal shall be effective not later than the date on which the appeal was made.

The board of appeal shall be composed of two representatives of labor designated by the executive council of the Trades and Labor Congress of Canada, two representatives of the employers designated by the executive of the Canadian Manufacturers' Association, and a chairman nominated by the members of the board, or in case of failure to agree upon a chairman, then the minister of labor shall appoint such chairman.

The minister further recommends that the minister of labor be authorized to make regulations governing procedure on appeal provided for by paragraph 16 of the above act.

The committee has concurred in the foregoing recommendations, and has submitted them for approval of the governor-general.

BOLSHEVIKI SOUNDLY BEATEN BY CZECHS IN WEST SIBERIA

Lenine's Forces Overthrown and Commander Takes His Life.

LONDON, July 11.—Gen. Muraviev, commanding the Bolshevik forces operating against the Czech-Slovaks, has committed suicide, according to an official Russian wireless dispatch received here. The dispatch, which denounces Muraviev as a traitor, reads: "The Czech-Slovak front all is in a state of confusion. The Czech-Slovak front all is in a state of confusion. RHINE TOWNS AGAIN WHINING OVER RAIDS

Want Belligerents To Agree To Calling Them Off.

Geneva, July 12.—Another campaign has been taken along the Rhine in order to prevent aerial bombardments of Rhine towns.

The Landtag of the Duchy of Baden has been asked to pass a resolution requesting the Government of the grand duchy to exercise its influence with the imperial authorities to come to an arrangement with the belligerents to abandon on both sides the aerial bombardment of towns outside the zone of military operations. In a speech in the Landtag in favor of the proposition, Deputy Narun declared that aerial attacks on localities behind the front serve no military purpose, and that only innocent women and children suffer.

In commenting on this new campaign, the Lausanne Gazette declares that the Germans since the beginning of the war have bombed London and Paris with zeppelins and airplanes many more than a hundred times, while the Allies during the same period have not been able to reply, but did not whine. Now the Germans, it adds, after only a few months of bombardment of their own towns, are crying "Kamerad!"

VICE IS PROTECTED IN MONTREAL, IS CHARGE OF AN EX-CONTROLLER

Montreal, July 12.—Speaking in the auditorium here last night, ex-Controller Villeneuve reiterated all the charges made by him that vice, gambling and illegal liquor selling have been not only tolerated in Montreal, but protected, and added many other names of persons whose participation in the profits from these activities, he claimed, he could prove.

STRAFFORD CHIEF IN FAVOR OF PLATOONS

STRAFFORD, July 11.—The question of a two-platoon system for the first department, which will be recommended to the city council by the chiefs of Kitchener and Guelph, is strongly favored by Chief Kappelle here.
