Wheat Futures Are Strong At Liverpool and Winnipeg

Chicago Market Closed and Other Exchanges Are Buoyant—U.S. Government Report Awaited With Anxiety.

World Office,
Monday Evening, June 7.

The Chicago Board of Trade was closed to-day on account of the elections.

Liverpool wheat futures closed 1½d higher, corn ¼d to ½d lower.

Winnipeg car lots of wheat to-day, 43, against 110 this day last year.

Northwest car lots to-day, 203; last year, 306.

J. P. Bickell & Co., Lawlor Building, received the following wires to-day:

ST. LOUIS.—Lawton, Okla., wires: Southwestern Oklahoma suffering intensely from heat and drought. Temperature, 102. Corn will be damaged 50 per cent. next ten days if no rain.

KANSAS CITY.—Nicolet in Star says: Kansas should show a decline in condition of ten points in the coming government report, and the report as a whole should show a two-point decline from the last one.

MINNEAPOLIS.—Strength in Winnipeg is on big decrease in stocks at Fort William. Trading here has been very light, and principally by scalpers, who are bullish. Watson bought $1.25 September wheat.

C. E. Lewis wires from Great Bend, Kansas: Covered 190 miles to-day; 60,000,000 bushels too large for Kansas, if they have another day or two of these hot winds.

Opinions differ on the government report, expected to-morrow, from a two-point decrease to a two-point increase over last month on winter wheat. A condition about the same as last month, we think, would be construed as bullish, as the popular belief is that we have seen improvement in winter wheat in the last thirty days. The trade is also expecting a high condition on spring wheat. There will be no report on corn to-morrow, but there will be one on oats.

LIVERPOOL.—Broomhall cables that the wheat market at the close was strong and showed an advance of ¾c to ⅞c from the 1.20 p.m. prices. There was prominent buying in the market, with offerings very light. Private cables report that the weather in Argentina has turned very cold, and drought is again becoming severe. Continental markets are strong; cash markets firm and higher, with Budapest ⅞c up, and it is predicted that shipments from Russia will now show a sharp falling off. Corn was neglected.

ST. LAWRENCE MARKET.

Receipts of farm produce were 100 bushels of grain, 25 loads of hay and 2 loads of straw.

British Cattle Market.

LONDON, June 7.—London cables for cattle steady, at 13c to 13¼c per lb. for Canadian steers, dressed weight; refrigerator beef is quoted at 10¼c to 10¼c per lb.

GLASGOW, June 7.—Edward Watson & Ritchie report 240 cattle on offer. Trade good and prices as follows: Top steers, 13½c per lb.; secondary, 12c; bulls, top quality, 11¼c; secondary, 10¼c to 10¾c per lb.

Montreal Live Stock.

MONTREAL, June 7.—(Special.)—At the Montreal Stock Yards West End Market, the receipts of live stock for the week ending June 5 were 2497 cattle, 209 sheep and lambs, 1941 hogs and 1267 calves. Supply for local consumption this morning consisted of 800 cattle, 60 sheep and lambs, 1040 hogs and 50 calves. Owing to the run of cattle being fully 500 head smaller than a week ago, a much stronger feeling developed in the market, and prices advanced ¼c per lb., but butchers bought only sufficient to fill their immediate requirements, and trade was rather slow. There was some demand from Quebec buyers, and about three carloads were taken, but the trade for export account was very quiet. Liverpool cables stated that the weather was cool and trade fair, but prices showed no improvement. Few sales of extra choice steers were made here at 6¾c; choice at 6¼c to 6½c; good at 5¾c to 6c; fair at 5¼c to 5½c; medium at 4¾c to 5c, and common at 3¾c to 4½c per lb.

For hogs, an advance of 10c per 100 lbs. was paid in some cases for a few choice parcels. Demand was not keen for supplies, as packers were in most cases fairly well supplied, and the market was rather quiet, with sales at $8.50 to $8.60 per 100 lbs., weighed off cars.

Sheep prices show a further decline of ½c to 1c per lb. Supplies were not large, but the demand was rather limited, and holders, in order to make sales, were obliged to accept the above reduction, and 5c per lb. was the ruling price for yearling stock. The offerings of spring lambs were small, which met with a fair sale at $4 to $6 each. Calves sold well at prices ranging from $2 to $8 each, as to size and quality.

At the Canadian Pacific live stock market, receipts for the week ending June 5 were 1928 cattle for export account and 550 cattle, 270 sheep and lambs, 610 hogs and 1341 calves for local consumption. The offerings this morning consisted of 200 cattle, 135 sheep and lambs, 60 hogs and 135 calves.

The exports of live stock from the port of Montreal for the week ending June 5 were: Cattle: Liverpool—Cornishman 760, Parthenia 533. London—Cervona 500, Lake Michigan 306. Glasgow—Ionian 151, Parthenia 63, Manchester Shipper 268. Total, 2571; last week, 3291.

PARKER'S AUCTION SALE.

This is an ideal time for an auction sale of farm stock and implements Mr. George Parker of Dunbarton is selling his farm stock, etc., at his farm near Dunbarton station, on Thursday, June 10. And as it is the farmer's slack time before haying, many will take advantage to go out and try to make a dollar by speculation, and there is a big chance to make a little at this sale. He has several choice Shorthorn heifers and cows and a young bull that will be money for someone. A few Shropshire shearlings and Yorkshire hogs will be good buying. Both sheep and hogs are on the upward tendency. Four good milk cows have been making good lately. One Jersey cow is a good one.

The implements are all that are needed on a big farm. Several thousand feet of lumber, elm, pine and basswood will be sold also. In horses there are a few useful animals, including two mares in foal, which will be money for somebody.

KILL THE BURDOCKS.

The unsightly burdocks that thrive around the fence rows and yards on many farms and town gardens should be summarily dealt with now. The leaves are the plant's lungs and if no leaves are allowed to appear, the plant must die. Take any kind of a sharp tool—a knife, a spade or a spud—and cut the leaf off an inch or so below the ground. If this operation is properly performed the results will be a dead burdock, providing no side shoots appear. It would only take a few minutes now and again to administer this treatment to all burdocks, and the improvement in the appearance of the premises will be sufficient to give anyone perfect satisfaction, for the expenditure of time and effort.

A BIG BARN RAISING.

John Bright of Myrtle raises his big barn at Myrtle on Thursday, June 10, when he expects his friends to turn out in force without an invitation.

48 CARS AT UNION YARDS QUALITY OF CATTLE GOOD

Prices for Butcher's Cattle Never Higher This Season—Exporters Held Over.

Receipts of live stock at the Union Stock Yards were 48 carloads, consisting of 1064 cattle, 24 sheep and 32 calves. The quality of cattle was good. Trade was inclined to be slow, not because there were not plenty of buyers, but because the sellers were asking very high prices. The butchers' cattle, however, were all disposed of at as high, if not higher, quotations as have been paid this season.

Exporters.

There were quite a number of shipping cattle on the market, but no buyers were operating, as they do not want them on Monday, but Tuesday, Wednesday and Thursday.

Butchers.

Prime picked lots of butchers' sold at from $5.85 to $6.25; loads of good at $5.55 to $5.85; medium, $5.20 to $5.45; common to medium, $4.90 to $5.35; cows, $4.25 to $5; bulls, $4.50 to $5.25.

Milkers and Springers.

Milkers and springers were quoted at $30 to $65 each.

Veal Calves.

Prices for veal calves were unchanged, at $3 to $5.25 per cwt.

Sheep and Lambs.

Receipts light, and prices unchanged. Export ewes sold at $4.50 to $5 per cwt.; rams, $2.50 to $4 per cwt., and spring lambs at $3 to $5.50 per cwt.

Hogs.

There were no hogs on sale, but H. P. Kennedy reports prices 10c per cwt. lower. Selects, fed and watered, $7.65, and $7.40 f.o.b. cars at country points.

Mr. Frank Harris also reported the same prices for hogs as given above, but added that the market was very weak, even at these quotations.

Messrs. Dunn & Levack sold: 11 butchers, 1000 lbs. each, at $5.85; 21 butchers, 1185 lbs. each, at $5.80; 12 butchers, 1020 lbs. each, at $5.60; 4 butchers, 1075 lbs. each, at $5.50; 1 butcher, 910 lbs., at $5.50; 15 butchers, 775 lbs. each, at $5.35; 4 butchers, 915 lbs. each, at $5.25; 1 butcher bull, 1150 lbs., at $4.85; 1 butcher bull, 1180 lbs., at $4.85; 2 butcher cows, 1070 lbs. each, at $4.75; 3 butcher cows, 665 lbs. each, at $4.75; 7 butcher cows, 1140 lbs. each, at $4.75; 1 butcher cow, 1150 lbs., at $4.

Wesley Dunn bought 20 calves at $5 each, and 15 sheep at $4.50 per cwt.

Wm. McClelland bought one load of butchers, 900 lbs. each, at $5.35; one load of butchers, 1025 lbs. each, at $5.70.

One load of butchers, 1070 lbs. each, at $5.62½; one load of butchers, 1060 lbs. each, at $5.70; one load of butchers, 1010 lbs. each, at $5.70.

George Dunn bought one load of steers, 1250 lbs. each, at $5.90; one load of steers, 1025 lbs. each, at $5.30.

James Cresbeck bought: 10 butchers, 1240 lbs. each, at $6.25; 3 butchers, 1110 lbs. each, at $5.80; 2 butchers, 1165 lbs. each, at $6; 4 butchers, 1200 lbs. each, at $6.25.

The average weight of these would be 1190, and average price $6.10.

Wm. Cresbeck bought for the D. B. Martin Company: One load butchers, 1103 lbs. each, at $5.60; one load butchers, 1000 lbs. each, at $5.35; one load butchers, 1000 lbs. each, at $5.25; one load cows, $4.25 to $5.00.

Market Notes.

A great injustice is being done, the American buyers of cattle on this market, by an erroneous idea having gone abroad that they will buy, and have only bought cattle from one commission firm. The truth is they, one and all, are willing and ready to buy from any and all commission firms who have cattle to sell, as well as drovers and farmers. Not only have they bought cattle from Messrs. Coughlin & Whaley, but from all the leading firms, such as McDonald & Halligan, Maybee & Wilson, Dunn & Levack, Corbett & Hall, H. P. Kennedy & Co., and, in fact, as above stated, from drovers, as well as farmers. Farmers and drovers can ship to any of the above firms with the utmost assurance of receiving fair play all round, both from buyers as well as sellers.

Out of the 1064 cattle on sale, 515 were sold, the rest being held over for Tuesday's market, when, it is expected, over 30 carloads more of export cattle will arrive.

Philip & Beaton of Whitevale advertise some good farms to sell in this issue. They are not out to do the buyers, and will treat you right. Write them.

The commissioners to investigate the swine industry in Denmark and Ireland have been appointed by the Dominion Government.

Do not be a grumbler, if even all the farm crops go by the board. The course of events will run with precision, and it is better to smile than frown.

P. J. Carey, fruit inspector, has just returned from Norfolk County, where he has found prospects good. He reports that James Johnston of that place made $2500 last year from 30 acres of strawberries.

The demand for horses keeps up, especially in the saddle class. Out of 19 horses sold by Mr. Macdonald from the Cumberland stable during the last few weeks, fully half the number were horses to be used almost exclusively for riding purposes.

George Jackson of Port Perry is one of the best country auctioneers in Ontario. He is under contract now for P. Maher's sales each Monday and Thursday. Horses are in demand.

J. Ed. Henry of Winona shipped out from his fruit farm last week 21 steers that returned him $72 each. This is one of the ways Mr. Henry keeps his big fruit farm so productive.

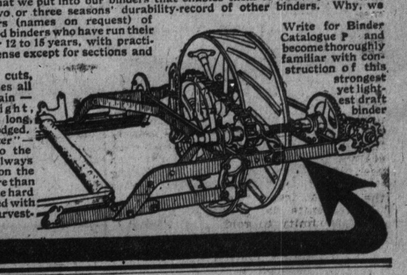
"Canadian" conditions are "different" from those prevalent in other countries. It is well for the "Canadian" farmer to remember this. He will find it will pay him to purchase from a Canadian Company who know the requirements of the different sections and who build their machines accordingly. The Frost & Wood Co. have been manufacturing Farm Implements for the last 70 years and have the very best and most prosperous farmers as customers.

Frost & Wood organization covers Canada from Atlantic to Pacific. Branch Warehouses in New Westminster, Calgary, Edmonton, Regina, Brandon, Winnipeg, Toronto, London, Ottawa, Sherbrooke, Montreal, Quebec, St. John, Truro and Charlottetown. Your "local" agent can thus on shortest notice obtain for you (if he hasn't it on hand himself) any Frost & Wood Machine or part thereof that you may desire.

Frost & Wood No. 3 Binder
Has a Strong "Back Bone"

Dropping into a furrow harder than intended, or accidently striking a boulder, does not "wreck" our No. 3—because it is built to stand more "hard knocks" than a binder is commonly supposed to encounter. The No. 3 Main Power Frame—the binder's "back bone"—consists of heavy pieces of steel firmly rivetted together. The Platform is connected to the Main Power Frame by a Double Steel Brace (see illustration). Hard work and rough ground have no effect on this brace. Certainly, no possibility of it sagging. Indeed, every single part of the No. 3 is of the best material, securely bolted, rivetted or welded to some other part. It's the QUALITY, in material and workmanship, that we put into our binders that enables them to beat, by five times over, the two or three seasons' durability-record of other binders. Why, we know owners (names on request) of Frost & Wood binders who have run their machines for 12 to 15 years, with practically no expense except for sections and oil.

The No. 3 cuts, binds and ties all kinds of grain—whether light, heavy, short, long, broken or lodged. It's no "quitter"—never goes to the fence. You always can count upon the No. 3 to do more than its share of the hard work connected with Canadian Harvesting.



Write for Binder Catalogue P and become thoroughly familiar with construction of this strongest yet lightest draft binder.

FARMERS' DAY JUNE 10.

We wish it were within our persuasive ability to induce farmers everywhere to attend all meetings of farmers' institutes. Co-operation is very desirable in order to offset the effects of all other combines formed against their interests. It is almost imperative that farmers and other producers should combine to enable them to collectively look after their particular welfare. West Durham Farmers' Institute meets in the Council Room next Thursday (June 10) to elect officers for next year. It is expedient that real, live, practical farmers should be chosen for the active, practical, business interests. Accepting office and then doing nothing to promote the welfare of the institution is wrong. We believe every man, in whatever calling, should attend the meetings of his class and take active part. It pays. No class, in this agricultural country, should strive more diligently to learn all about their business than the farmers.—Bowmanville Statesman.
