WIN-WAR PLANKS CANDIDATES' TEST

League Will Support Conscription Advocates, Regardless of Party.

The executive committee of the Winthe-War League is preparing for the organization of every constituency in Ontario in readiness for the approaching federal election. A circular is being sent out to the 10,000 members of the organization announcing the result of the recent interview with Sir Robert Borden and pointing out the resolution adopted at the convention in Toronto

H. W. King, recording secretary, stated yesterday that candidates in the various electoral districts would be supported regardless of party if they favored the planks laid down at the convention. In ridings where the canlidate was weak the league would endeavor to see that a strong conscrip-tion candidate was brought it. The circular also bears the follow-

"It is evident that at this time one important thing is to keep Canada in the war to the end. It is equally evident that this cannot be done except by the enforcement of con-scription. Sir Wilfrid Laurier's pronouncement against conscription makes it impossible for us to accept as win-the-war candidates any candidates who have stated that they will run and win this election under his leadership. At any cost a union war government must be returned which will enforce conscription and this can-not be assured unless all win-the-war elements in Canada and win-the-war elements in Canada get together for this supreme purpose and are willing to discard party politics until after the war. We must have the active and unceasing help of every man and woman who thinks as we do. A plan is being prepared for the organization of each constituency in the province."
