Employees in the smaller restaurants are required, however, to secure such certificates for private doctors at a charge usually of \$1 per examination.

LOOKING TO DIZZY HEIGHTS OF POWER

Winnipeg Labor - Clergymen Predicts High Political Position for Party.

Rev. A. E. Smith, one of the recently successful Labor candidates in the Manitoba provincial elections, and who was in Toronto after a visit to Ottawa in the interests of the imprisoned strike leaders of Winnipeg, addressed last evening's meeting of the District Trades and Labor Council. In addition to expressing confidence in the early release of the agitators, he prophesied the future heights of political power which labor is destined to attain in the near future and voiced his dissatisfaction with existing civilization.

In commenting upon his hope that the influence exerted by the Ottawa visit of the labor men would result in the freeing of the strike leaders, he emphasized the fact that the government had bowed to no coercion, but had simply listened to the representations of the delegates when they had discussed the matter as one of public policy.

"We took the attitude that it was poor public policy to put the men in jail and poor public policy to keep them there, and I am free to say that I have very substantial grounds of hope that the prison doors will open and the prisoners be released," he declared.

Labor Movement Grows.
Mr. Smith briefly discussed the rapid growth of the labor movement in Manitoba from a body which held no seats at the dissolution of the last legislature to one which held 11 and possibly 12 as a result of the election.

"I am not afraid to say that within five years Mr. Dickson will be premier of Manitoba," he assured his listeners. The conclusion of Mr. Smith's address dealt with the utter failure and oppression of the present capitalist system and may be summed up in the following quotation:
"Civilization is played out. We are into a new era. Capitalism will soon receive this continent in a servile state. I intend to bring the matter up again with either one thing or the other. Either we will have this new era, or we will go down to the servile state."

LABOR COUNCIL FAVORS SOVIET

(Continued From Page 1).

ficial causes, and whereas it must be patent to all that the workers in Canada are in the absence of national autonomy are hopelessly incapable of utilizing such power, be it, therefore, resolved that a special committee be called by the incoming executive before June 1, 1921, of all the industrial organizations of the workers in Canada to consider what steps should be taken to secure economic unity.

Economic Insecurity.
"Owing to the closing down of many factories, industrial chaos and economic insecurity have resulted and at the same time the people of the world are in need of products, thus proving the inability of the powers that be to satisfactorily re-establish harmonious relations, and whereas in the past the political activities of the workers of Canada have been purely reformist and opportunistic, therefore, be it resolved that this congress consider that the time has arrived for the workers to ally themselves with the workers of political parties in other countries and that they base their platform on an advocacy of an industrial system of production for use instead of profit for profit, and further be it resolved that this congress grant \$5,000 to the provincial executives of the Independent Labor party to be spent for educational purposes to attain this object."

"Whereas the necessary work of the executive of the Trades and Labor Congress has become sufficiently important to the workers of Canada, the time has arrived when the office of secretary-treasurer should demand the entire time and undivided attention and service of the incumbent, and that he shall represent the expressed views of the congress on all matters vital to the interests of the labor class; that a permanent secretary-treasurer be appointed at a salary to be decided upon by this body.

"Whereas our present form of organization has failed to organize the great mass of the workers, be it resolved that this congress go on record as in favor without further delay of an industrial form of organization. And be it further resolved that this resolution be sent to the American Federation of Labor and all central bodies in Canada and the United States.

"Resolved, that this congress elect a committee of five from the floor of the house, clothed with full plenary power to investigate the activities of the executive of this congress in regard to the Winnipeg strike and the trial of the workers involved therein; also the expenditure of \$50,000, which the president of this congress is alleged to have received from ex-President Barker of the Maintenance-of-Law Workers' organization, which is at present on trial, charged with the misappropriation of funds. And be it further resolved that the report of the finding of the committee be printed and sent to every affiliated local of the congress."

SILVERTHORN
DECIDE UPON OPEN EVENING CLASSES

Protest Against Delay in Connection With the Promised School Site.

The Silverthorn Ratepayers' Association dealt largely in school matters at their regular meeting in G. W. V. A. Hall last night. S. Duncan reported that open evening classes had been decided upon for the winter months. There will be three grades: elementary work in the three R's, domestic science, and either political economy or psychology.

A new principal for Silverthorn School will be required, as Principal D. Harper is leaving the matter up where he has been with Dennis Avenue School; Principal Bragg is being taken from Bala Avenue School to Dennis Avenue, and Principal Robinson is being moved from Silverthorn School to Bala Avenue.

Upon inquiry of President R. Donnelly regarding progress of the school board in connection with the Silverthorn School site trouble, S. Duncan, chairman of the board, reported as follows: The matter is still in the hands of the department of education, and I think it will remain there until Domesday. I have written them again, and failing a reply, I intend to bring the matter up again with the help of this organization, for the site up there is an eye-sore."

Chairman Donnelly explained that the residents of Silverthorn had voted for two acres of land, high dry and on the level. By some manipulation the site was changed to one acre containing a hill and one acre 35 feet below. There was a hush-up vote to give an investigation, indefinite postponement, but it was tended that the school board should not shelve the question entirely, as they had been advised to insist upon compensation.

A committee of Messrs. Garnet and Duncan and Mrs. Ballantyne was appointed to arrange for the locations for the evening classes. The association donated \$8 for prizes at the joint picnic on Saturday.

A meeting of the picnic committee followed the adjournment of the Secretary Wiswick reported many donations received. A tent 56 x 42 feet is erected.

According to a Lumsden avenue resident, seven wells are dry on the street and four families on an average are using one well. The dry weather, it is stated, is responsible for the water scarcity.
