ST. YVES AND SHERRING

Frenchman to Run Hamiltonian if Latter Wins in Montreal.

Montreal, May 12.—Should Sherring defeat all his competitors here on May 21, at the M. A. A. grounds he will be matched against St. Yves. This is according to a telegram which E. D. Murray one of the promoters has received from C. L. Hildreth, also interested in the Fitzpatrick race, from New York. Mr. Hildreth states that P. T. Powers who holds St. Yves' contract, has agreed to match him against Sherring provided the latter wins here. Mr. Marsh, talking over the chances of the various runners by no means placed the Hamilton man at the head of the list. Abbie Woods, he said, would beat him, also Meadows. Sherring declares his confidence in himself and his ability to watch the performance of the Hamilton runner of 1908.

NO POLICE INTERFERENCE

New York, May 12.—Unmolested by the police, Johnny Connors, of Chicago, and Harry Lenny, of this city, fought ten rounds to a draw before the Sharkey A. C. tonight. These two featherweights acted as substitutes for Harry Stone and Ben Douglas who were put off the ring in the second round by the referee for "stalling." Lenny was knocked down in the first, but recovered quickly, and by constant hammering at Connors' stomach managed to get a draw.

JACK McLEAN BATS WELL

Of Tuesday's Boston-Cincinnati National league game at the hub, in which the Doves were the losers, to the tune of 10 to 6, the Boston American has this to say of big Jack McLean, of the visitors: The real sticker of the afternoon was big Jack McLean, the Arlington, who made a hit each time up, getting four chances at bat, one a double, and was left with the stick in his hands in the ninth when Downey was thrown out for the third man.

TOOK ALL DAY TO GET SEVEN MEN ON JURY

St. John's, Que., May 12.—After a day of wrangling over the proceedings in the trial of Hon. Philip H. Roy for wrecking the Banque St. Jean, the court settled down to the selection of jurors, and by the close of the day seven jurors were chosen. Owing to the fact that the bank did practically all the banking business of the district it is difficult to get unprejudiced jurors. From the keenness with which Mr. Roy's advocates are fighting every move it is evident that the case will be long and bitterly contested.

At a meeting of St. Vincent's Alumnae held last evening, plans for the annual reunion and welcome to the new graduates of St. Vincent's school were decided upon. Counting the graduates of 1909, the alumnae will number about 250.

THE U. S. TARIFF DEBATE

Washington, D. C. May 12.—After several hours had been spent by the senate today in discussing the window glass schedule of the tariff bill, Senator Aldrich asked that paragraph be passed over. The senate proceeded to the consideration of passed-over sections provided for all contestants to be under 18 on July 1st next. Thus the young lad was debarred from going on account of being eighteen days too old.

The suspension of Kid Gleason, coach of the Philadelphia National league club, and Edgar Lennox, third baseman of the Brooklyn club, for quarrelling during a game at Brooklyn last Saturday, was announced on Tuesday. No time limit was fixed for the termination of the suspension. Knabe, after suspension for one day, was exonerated and allowed to play.

DOUBLE ACCIDENT IN HAMPTON YESTERDAY

Hampton, Kings Co., N. B., May 12.—An extraordinary double accident occurred this afternoon at the residence of Charles R. Smith, near the Methodist church, the property recently purchased by Mr. Smith from William Jacobson.

It was but a short time after the accident that Mrs. Peter Fairweather, who has been a member of the family for some years, and who lost her left arm near the shoulder long ago from blood poisoning, undertook to go to the cellar, and the trap having in the previous evening been left up, she fell to the bottom, alighting on her left shoulder, so severely bruising the stump and causing a very bad shock to her system. She was taken to bed, where she now lies comfortably. Mrs. Smith is also reported to be recovering from the double shock of fright and broken bones.

HALIFAX LAD SELECTED

To Go to England to Shoot at Bislew, But He Was 18 Days Too Old.

Last year, the Halifax Cadet team was second in shooting the Fox and Roberts trophy. The Ottawa Cadet team was first, and it was decided to send to the English Bislew team, who had gone into the Academy to represent the Canadian Cadet corps and to compete against representatives of Cadet corps from other countries.

Principal Morton, of the Halifax County Academy, received a despatch from Ottawa last Thursday, asking him to select the best shot in the Academy cadets. Mr. Morton investigated the shooting records of all the cadets, and he found that William Doane, son of City Engineer F. W. Doane, had the best shooting average.

Mr. Doane was accordingly selected to represent Halifax, and instructions were given for him to be ready the next day to leave for Upper Canada, to go across the Atlantic with the Bislew team. He, however, found out that the boy's age would not make him eligible to shoot in the Cadet matches. On enquiring from the lad's father he found that he would be 18 years old on 2nd June next, and the regulations in connection with the Cadet matches provided for all contestants to be under 18 on July 1st next. Thus the young lad was debarred from going on account of being eighteen days too old.

The Ottawa authorities were communicated with and another Upper Canadian lad will be sent.

Early in the session, Senator Paynter advocated the removal of the duty of six cents a pound on leaf tobacco as a means for freeing the tobacco growers from the control of the tobacco trust.

"NEW BIRTH" OF TURKEY

Heterogeneous Races and How They Are Entering Into the Spirit of the New Era.

Secretary James L. Barton, of the American Board of Missions of Boston, speaking recently upon "The new birth of Turkey and America's part in producing it," said in part:

"It is impossible to realize the extent of the changes that have taken place in the Turkish empire during the last few months, or to understand the combination of forces that have led up to them. These amount to a veritable revolution, and the amount of it is that it has been brought about without clash of arms, and is carried out without attempt at severity. It is an intellectual and religious. It is a reformation that effects social and moral conditions as more complicated and difficult task. The people of Turkey are the farthest removed from every suspicion of homogeneity. Turkey is presently made up of strong and mutually hostile races. The principal nationalities to be reckoned with in any reform measure are the Greeks, the Armenians, the Kurds, the Thibians, the Kurds and the Arabs. There are other races of minor importance, and these, being named, constitute the leading national forces operating in the empire. Each of these nationalities constitutes an integral part of the problem in government, and the whole, taken most fully to modern learning and have been the patrons and promoters of modern education, have, upon the whole, taken the path of both civil and military. It is an astounding fact that all of these races have not only accepted the new regime but some of the most enthusiastic supporters are found among the Armenians, the Greeks and Albanians, although the latter are the inaugurator of the reform were loved."

"As an illustration of the way these various races have entered into the new era of fraternity and peace, take the case of the Albanians. They have been usually considered the most uneducated and warlike of the European races, numbering some 2,000,000, and exercising considerable influence at the Porte, owing to their large numbers. They have been usually regarded as a barbarous and uncivilized people, and their officials are Albanian. The Sultan has been accustomed to look upon them as the strong supporting pillar of the empire, and they have demanded a constitution that he gave up the struggle. In the latter part of the year of last year the first Albanian congress ever assembled was held in Monastir, Macedonia. They were present representatives of the nation from all Albania and Constantinople. Governors, generals, private citizens, representatives of all classes, 58 delegates in all, who were in it is known within and without the country, it is natural to assume that they will be a military or at least political. It is an astounding fact that the purpose of the congress was to start a foundation for the Albanian language by selecting a general alphabet, in order to strengthen the national feeling and to aid in the progress of education and industry. Moslems and Christians, Greeks, Catholics and Protestants, all joined in the assembly, and they gave themselves to the supreme art of peace and civilization by selecting with great deliberation an alphabet which would be a literature and upon which national education could be based.
