

"Wearer's Protection"

The Slater Shoe

Dare the makers of the Slater Shoe imperil the value of a \$250,000 trademark by putting out unworthy shoes bearing their brand? And the value of that brand represents the difference between the protection of the wearer of unknown shoes and the famous Good-year Welted

Slater Shoe

For Men \$4.00 For Women \$3.50
For Men \$5.00 For Women \$4.50

WALL STREET AND THE PROBING OF TRUSTS

The Government Expected to Get After the Coal Roads—Will Enforce and Strengthen Rate Bill—Control by Trunk Lines a Menace.

(New York World)

The investigation of the coal combinations, which is to be conducted by Chas. E. Hughes on behalf of the government, is known to have the earnest backing of the public. That this combination has existed for years under the guise of the Temple Iron Company, which exercises absolute control not only over the production of its own company but also over the output of the independent operators, has long been an open secret in Wall Street. The surface of the scandal was only scratched in the investigation of the Pennsylvania Railroad, Wall Street believes that Mr. Hughes will be as thorough in his examination of the Coal Trust as he was in the insurance case, and in Washington there is a confident feeling that the combination will be broken and that the independent dealer will be placed in a position where he can market his own product as a free agent. The present activity of the Reading pool suggests the possibility of their attempting to distribute their holdings to the public before Mr. Hughes begins to probe.

TO ENFORCE RATE BILL

Wall Street is just beginning to realize the strength of public sentiment against illegal combinations and monopolies. It begins to see that it is not a party question and that no political body can hold out against the popular determination to destroy or curb all monopolies that are working against public interests. The opinion is generally expressed that the season of Congress this winter will be the most active of any short session in years. The president's friends in the financial district say that he has a stronger backing than ever before in his efforts to bring about effective national supervision of corporations doing an interstate business. They declare that the members of his own party who have opposed him at times have become better acquainted with public opinion than they were a year ago. The recent exposure of the secret rebates which have been given by the railroads and of the misleading schedules of freight rates, promulgated by them to favor the large shipper as against the small shipper, has emphasized the necessity for the rate bill passed last winter, and it is now considered that it will pass this year.

When you finish your first bottle of

Abbey's Effervescent Salt

you will have but one regret—that you did not use it months ago.

The way ABBEY'S SALT makes you eat—and sleep—and feel—will surprise and delight you.

THOUSANDS OF LIVES LOST
(Continued from page 1.)

collusion with the French mail steamer. The entire Chinese crew climbed aboard the French steamer and left Captain Thomas, who was injured, one officer and the engineers to navigate the Fishan to Shelter Bay, where she was blown ashore. The Bishop of Victoria, Dr. J. C. Hoare, was on his way to visit some neighboring islands when the storm broke, and is reported missing. His launch has been found floating bottom upwards. Many valuable steel lighters have been lost. Some of them were hurled ashore. Channels will have to be dug to permit some of the vessels ashore to be refloated. The force of the wind and waves was such that some vessels were landed almost high and dry. The Japanese steamer Seta Mary rescued sixty-six natives and one English pilot as she was approaching Hong Kong. The English mail steamers Delhi and Poona escaped damage.

The British cruiser Terrible entered port yesterday afternoon and reported fine weather up to the harbor. The ship was damaged by the storm. Sir Matthew Nathan, governor of Hong Kong, and the authorities are doing everything possible to render assistance. Reports of fresh disasters are arriving every hour.

Only a few Europeans are missing. No reports are on hand to show the fate of the Chinese and the ships about the harbor.

Public opinion is incensed at the Observatory for not reporting the approach of the typhoon. An inquiry has been demanded. For years past the Observatory has been subjected to adverse comment, but on this occasion it is not believed to be blameless.

WHEN YOU NEED PHYSIC

Beware of health ailments and drastic cures. Get the old reliable Dr. Hamlin's Pills of Mandelke & Butterfield. They loosen the bowels, cleanse the whole system, make you better in one night, 25c. at all dealers.

MONTREAL MARKETS
(Star, Monday)

WHEAT—The market for four is dull and dragging, and a decline is expected. In the futures market, there is a general feeling of uncertainty. The demand is weak, and the supply is ample. The price of wheat is expected to decline.

BARLEY—The market for barley is also dull. The price of barley is expected to decline.

RYE—The market for rye is also dull. The price of rye is expected to decline.

MAIZE—The market for maize is also dull. The price of maize is expected to decline.

FROM THE MIRAMICHI

The editor of the Times received this morning a pair of fat wild-duck, with the compliments of Dr. W. H. Fitzmaurice, from Red Bank, Miramichi. The ducks are in excellent condition, and are being sent to the editor as a token of appreciation for the many favors he has received from the doctor.

N. Y. COTTON MARKET

NEW YORK, Sept. 18.—Advancing prices resulted from the opening of the cotton market. The market was active, and prices were generally higher than yesterday. The price of cotton is expected to continue to rise.
