

LEOPARDS MAY NOT CHANGE SPOTS, BUT WARSHIPS CAN

One of the practical developments of this war is the modification of warships and big guns in parti-colored paints. It has been found that these tend more toward invisibility to any single color, even khaki. This picture shows a British warship in the Suez Canal.

SPORT NEWS OF A DAY, HOME AND ABROAD

BOWLING

Two well-contested matches were played in the Two-Men League in the Victoria alleys last evening. Coughlan and McKean won four points from Stammers and Chisholm and Stevens and McDonald won four from Williams and Cunningham. The scores:

Table with bowling scores for Coughlan, McKean, Stammers, Chisholm, Stevens, McDonald, Williams, Cunningham. Columns include names, scores, and totals.

BASEBALL

The results of the games in the Federal League Monday were: In Baltimore: Newark, 8; Baltimore, 5. Batteries: Kaiserling and Hahn; Smith, Suggs, Wilhelm and Owens.

At a meeting of the International League magnates in New York yesterday it was decided to commence the playing season on April 27. The session will close on Sept. 18.

According to Bill Steen of Cleveland, the hardest batter in the league to pitch to is Reggie Smith of the Boston Red Sox.

The ordinary rule provides for a three-base hit in such a case. The three-base rule will stand, Gilmore said, for a similar action by an infielder.

At the present time there are 10 pitchers, five catchers, seven infielders and six outfielders wearing the Boston Red Sox colors, but the last two weeks have proven that some of these players are still minor leaguers, wearing major league credentials, and the time for their discharge is near at hand.

The make-up of the team that will play at Fenway Park this year, and perhaps all season, is as follows: Catcher-manager and catcher: Cady, Thomas and Haley; catchers: Leonard, Shore, Collins, Foster, Ruth, Myers, Wood, Gregg and perhaps Comstock pitchers. The chances of the latter for sticking are extremely doubtful.

The infield will include Hohltzell at first; Janviri, second-base; Scott, shortstop; and Gardner, third base. The substitutes will be Gainer, Wagner and McNally, the first named being capable of playing the outfield on a pinch. It can be definitely set down that Heinie Wagner will not displace either, Janviri or

GIGLIA

The Italian carman who won the diamond sculls for the single shell championship at Henley July 4, 1914, and will come to Canada to compete this summer.

Scott, although he may be able to give the practice games, has shown ability to clout the ball in a way that the same old outfield—Speaker, Hosmer and Lewis, will continue to hold the field during the past four weeks.

Jim Thorpe was the batting hero, making two home runs over the fence and a triple, and Mathewson pitched that when he reports for duty in about five days the shortstop will be as able as ever.

The pitching staff follows: Jim Scott, Red Wolfang, Reb, Russell, Eddie Cialo, Urban Falmer and Jasper, Joe Benz, who was laid up all winter with typhoid fever, has returned to form and with another week's practice should be ready to take his turn.

Ed Walsh will linger longer on the coast to undergo treatment for his salary arm, and, according to Benz, who was with him for several days, the Moon is going to "come back" before the pennant race has advanced any great distance.

The release of "Red" Kuhn to the Oakland club last Monday cut down the catching staff to four men, and Tommy Daly has been added to the backstop staff. Hereafter the Cambridge chap was slated among the outfielders, but henceforth he will be in the race with Walter Mayer for the second string, technically known as the second string catching honors.

New York, April 10—Realizing that their slump in 1914 and the rejuvenation of the Yankees has detracted much of the old support of the Giants, Muggsy McGraw's team this year, with the addition of Hans Lohr as its only important new asset, is going into the 1915 season with a vim, intending once again to cop the pennant and give its old place in the heart of Gotham fandom.

Mathewson and Marquard are the only members of the twirling staff who have not lived up to expectations, but the former is expected to get back to form with the coming of warmer weather. Of Marquard there has been no such favorable predictions and many doubt his lasting the season with the Gotham crew.

Mathewson is coming along in his usual style and contenting himself with baffling his opponents after he has permitted a few of them to get on base. Perritt seems to work along the same lines.

Schupp, Fromme, Chambers and Ritter, the remaining members of the Giants' squad of twirlers, have been living up to expectations and performing well if not brilliantly.

The line-up which has been instrumental in delivering defeats to the Texas teams has shown but two changes over the line-up of last season, namely Lohr at third and Jim Thorpe in right field. Thorpe, with the exception of

THREE FAMOUS SCIENTISTS

Dr. Andrew Wilson, Dr. Gordon Stables and Dr. Lascelles Scott, the famous English analyst, have all personally tried Zam-Buk and expressed themselves convinced of its great healing value.

Mrs. St. Denis, of Thompson St., Weston, Wis., writes: "I suffered from eczema and finally had doctor after doctor, but could cure neither. Another fine tribune of a scientific man in this great herbal healer.

Mrs. St. Denis says: "The eczema broke out on my nose and one side of my face. I could get no sleep because of the irritation and pain, and my face was in such a shocking condition that for two months I did not go out of the house. I applied various ointments and doctor treatments but without effect, until one day he said that the only thing which would be likely to cure me was Zam-Buk. I procured a supply and cut a long story short, in a few weeks Zam-Buk cured me completely, leaving no scars."

Zam-Buk is a sure cure for cuts, sores, burns, eczema, skin eruptions, hemorrhoids, piles, etc.; also as an embrocation for rheumatism, sprains and swellings. All directions and names at 50c. box, or post free from London, for price. Refuse harmful substitutes.

THE PROSPECTS FOR BASEBALL

St. Peter's League Formed—South End Boys Getting Active—What About the East End League?

There is at least one baseball organization in the city actively engaged making preparations for the coming season, namely St. Peter's. Last evening a large number of the members started to fix up the diamond and repair the backstop in their grounds off Clarendon street.

They later held a meeting to further arrangements for the playing season. The league will consist of four teams, the Thistles, Roses, Shamrocks and Maples. The captains will be Joseph Dever, William McGovern, James McIntyre and Harry Dever.

This evening the boys interested in the formation of the South End League are to meet in St. James' church school room, Broad street, to discuss plans for the baseball season. If they can secure the Barrack square they feel confident that the league will again be in existence.

The hundreds of fans, who daily wend their way to the East End League grounds last summer, are naturally anxious to know what is the matter with the season this year that they are not arranging for the coming season. It is understood that the grounds are available if certain conditions are carried out. As this was the stumbling block to the formation of the league, there now believed to be no reason for lethargy. Although the league has lost some good men as a result of the war, there is an abundance of good young material available to fill places. It is hoped that the energetic managers who composed the executive last year will get active and continue their good work.

via London, April 12—The games of 1916 have not yet referred from Germany, and the local Committee has not yet direct such action, according to statement made by Count von Sierstorff, vice-chairman of an Olympic Committee.

of Oarsman to Canada. Sinigaglia, a giant Italian, Bob Dibble, of the Toronto heart-breaking race in the Diamond Sculls at Henley will visit Canada to row this season.

Agrieved. "I am sorry, gave your name to another member of the club. Admitted, but you can't do that!" He took my character away.

Says Excess of Hydrochloric Acid is Cause of Indigestion. A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of acid Soda and take a tablespoonful while in a glass of water before breakfast while it is effervescing, and furthermore, get from any pharmacy a few tablets of "Safety First" and take one after each meal. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salt is inexpensive and is made from the acids of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of people for stomach trouble with excellent results.

SUBMARINES

Britain's first submarines, dating from 1901, were five of the American type that were named after their inventor, John P. Holland. These had a displacement of only 120 tons, were 68 1/2 feet long, travelled eight knots an hour on the surface, and carried a crew of seven men.

Their sole armament was one torpedo tube, firing an eighteen inch torpedo. A year later Vickers, Sons & Maxims, of Barrow, built the first of the A class of submarines to be followed in intervals by classes B, C, D, and E, each larger and much more efficient than its predecessor. When war broke out in addition to an extensive fleet of the older vessels, Britain possessed actually about some twenty-five submarines of the most recent design, having a displacement of 800 tons or more, a length of 176 feet, and beam 22 feet 4 inches. Their surface speed exceeds seventeen knots an hour, and they carry a crew of twenty-eight. These boats have four torpedo tubes, discharging 21-inch torpedoes of immensely improved range and power.

Is 83 Years Old And Her Heart Does Not Bether Her.

Thanks to MILBURN'S Heart and Nerve Pills.

Mrs. J. McLaren, Comanada, Ont., writes us under date of February 9th, 1914: "Sixteen years ago I took bad with my heart and nerves, and was not able to do anything. I tried a good many doctors, but they did me no good; in fact one doctor gave me up to die. I heard about Milburn's Heart and Nerve Pills, and I thought I would give them a trial, and after using a couple of boxes I saw that I was improving. I kept on using them for quite a long time. I am eighty-three years old and my heart does not bother me at all.

TWO WOMEN AVOID OPERATIONS

By Taking Lydia E. Pinkham's Vegetable Compound.

Chicago, Ill.—"I must thank you with all my heart for Lydia E. Pinkham's Vegetable Compound. I used to go to my doctor for pills and remedies and they did not help me. I had headaches and could not eat, and the doctor claimed I had female trouble and must have an operation. I read in the paper about Lydia E. Pinkham's Vegetable Compound, and she did and feels fine now."—Mrs. M. R. KANSBROCK, 1488 N. Paulina Street, Chicago, Illinois.

ACID IN STOMACH SOURS THE FOOD

Says Excess of Hydrochloric Acid is Cause of Indigestion.

A well-known authority states that stomach trouble and indigestion is nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts food fermentation, then our meals sour like garbage in a can, forming acid fluids and gases which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate sour food, belch gas, or have heartburn, flatulence, waterbrash, or nausea.

He tells us to lay aside all digestive aids and instead, get from any pharmacy four ounces of acid Soda and take a tablespoonful while in a glass of water before breakfast while it is effervescing, and furthermore, get from any pharmacy a few tablets of "Safety First" and take one after each meal. While relief follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.
