HOPES TO BRING MANY FAMILIES TO FARMS HERE

F. E. Sharp, in City Today, Talks of Mission to Europe.

EXPECTS FLOW OF GOOD IMMIGRANTS

Will Be Joined in Fortnight by Charles Magnusson of St. John.

There begins today a mission to Europe on behalf of the New Brunswick Government that it is hoped will result in a large number of families coming from the Scandinavian countries to settle on farms in this province. F. E. Sharp, superintendent of Immigration for New Brunswick, is a passenger on the Canadian Pacific steamship Montclair, sailing this afternoon, to promote the matter.

Tells of Plans. Speaking to a reporter for The Times-Star this morning, Mr. Sharp said that he was going on a visit to the British Isles and to Norway, Denmark and Sweden and would be away about 10 weeks. The matter had been made possible by the close co-operation of the provincial department and the Federal Department of Immigration and Colonization at Ottawa.

"I am taking data," he said, "about farms for sale in New Brunswick and have had prepared in the Danish language a pamphlet setting forth the opportunities there are on land in this province. Besides vacant farms I will deal with the Blue Bell tract in Victoria county and also crown lands opportunities."

Expects Good Results. "I expect," continued Mr. Sharp, that the result will be that a personally conducted party of settlers will return with me and that the ground work will be laid for a continued stream of immigration to this province. "I may say that the Scandinavian people make excellent settlers. The New Denmark colony in Victoria county is an illustration. That was established in a very small way 92 years ago in the depths of the forest and now there are 125 families there, thrifty, prosperous and among the best farmers of the up-river section."

St. John Man Goes. Mr. Sharp said he would be joined in London in two weeks by Charles Magnusson of St. John, who he said, would be of material assistance, as he is a native of Sweden and knows the language, laws and customs of the countries to be visited. One thing that he thought would assist in the mission was the operation of the quota law in the United States which allows people from Europe to enter there in but limited numbers.

LEADERS DESIROUS OF HELPING EAST

(Continued from page 9) can, English and French, Belgian and German. "It," said Dr. Magill, "is an export can land grain at Liverpool one-sixteenth of a cent cheaper than you can put out of business. Therefore, all the traders seek the cheapest route and, if tonnage and rates available at an American port mean even a mere fraction of lower cost, the trader cannot afford to ignore it."

The only way to affect a change would be for the Government to step in the trade itself, because of the intense competition and the small profit available in the grain export, which will invariably seek the cheapest route."

Favors Conference. Dr. Magill said the West, like the extreme East, had serious problems due to taxation, tariff and transportation. He suggested that a small group of Maritime business men visit the West, not as tourists, but to hold real conferences with western business men in a few leading centres. He also thought well of a conference at Winnipeg of business men representing all the provinces to learn each other's problems and consider possible remedies.

Yesterday was a wild day in the Winnipeg wheat pit. The greatest excitement prevailed and when Max wheat went to \$2.20 pandemonium broke loose. I have never seen anything like it. The floor and gallery were crowded. The bear made a strong raid and forced the price down several points and a state of frenzy prevailed. This market is paying no attention to any other; it is going its own gait. While some people predict a rise to \$2.50, others assert somebody is going to be hit hard before long. One thing is assured, the actual price of wheat is a great thing for the farmer apart altogether from the speculative deals in the wheat pit.

WATER HARD TO GET AND CHURCH WAS DESTROYED

One Pail Might Have Saved St. Paul's, Says Pastor.

REV. L. CORMIER HERE TO CONSULT BISHOP

Edifice Caught in Night From Sparks From Post Office.

One pailful of water, properly directed during progress of the fire which destroyed the Roman Catholic church and the post office at St. Paul's, Kent county in the early hours of yesterday, as reported in The Times-Star yesterday, might have saved the church edifice from destruction, said Rev. Leonard Cormier, parish priest, who was here today to consult with His Lordship Bishop LeBlanc respecting the fire.

Hard to Get Water. Had there been only a small quantity of water thrown on the blaze that started the fire on the steeply, Father Cormier believes they would have been successful in saving the structure. There was, however, a great scarcity of water, and the majority of men in the village were in the woods at the time on lumbering operations. Water had to be carried in pails a considerable distance, from a brook, and this greatly hampered the small band of men fighting the fire. A large amount of the interior furnishings of the church were saved, Father Cormier says.

Fire Country Edifice. Father Cormier said it would require between \$50,000 and \$70,000 to rebuild the church, which was one of the finest country edifices in the province. It was built in 1890 by Very Rev. Mgr. Hebert. Insurance on which \$12,000 is held by St. John companies and the remainder in Moncton. The church was damaged twice by lightning. About 25 years ago it was struck and damaged to the extent of \$100, and again about 12 years ago it sustained about \$600 damage. Rev. Father Cormier will return to St. Paul's today.

Baby Carriages

Are Baby Carriages out of season? From our sales records we would answer decidedly NO. In fact we do not know of any "Out of Season" periods for this particular necessity. True there are seasons when the sales chart shows high peaks, but that is because the days are warmer. Your Baby is in much greater need of fresh air these days when the house must be kept tightly closed, than later on when the doors and windows are flung wide to the balmy breezes of June. Why not have one of our snug, windproof Carriages, and give your Heir the Air he needs? With sand on the sidewalks, wheels operate more easily than runners. Think it over. A.
