REVELSTOKE BOARD OF TRADE

Revelstoke--The western Portal to Canada's National Parks

Revelstoke, British Columbia
22nd. October, 1941.

Robert J. G. Stead, Esq.,
Superintendent,
Publicity and Information,
National Parks Bureau,
Ottawa, Ont.

Dear Mr. Stead:

As mentioned to you here in August during your visit to Revelstoke, I am sending you the color transparencies that Park Warden Wm. Moore had been telling you about. While the pictures are not all that they should have been due to the film being out-dated, I really believe that they give one a very good idea of the beauty of your most-westerly National Park.

We are pleased to loan these pictures to you and to assure you of our sincere wish to co-operate with you at all times possible.

During your visit with us in the King Edward Hotel here, you discussed with me the advisability of erecting a large sign board on the Big Bend Highway advertising Mt. Revelstoke Nat'l Park. We have such a sign in mind and expect to send a rough draft made by a local sign painter, to you for suggestions and advice. We would also appreciate any suggestions you may make in regard to the location of such a sign.

Yours very truly,

(Sgd.) Earle Dickey,

Earle Dickey,
Tourist Branch,
P.O. Box 152,
