The sharp flash of lightning during the heavy storm Friday morning, came near to doing some damage in some parts of the town. A pole was struck on Monument Hill where the road machine was working, and was shattered to splinters. Two or three persons were stunned by the vividness of the flash and it was several minutes before they gained consciousness. There was only one flash, but it seemed to convert the force and vividness of a dozen.—Springhill Tribune.

WINNIPEG'S STRIKE.

The most serious strike in the history of Winnipeg is now on, and unless a settlement is reached very soon, the effect will be severely felt during the coming winter. The question at issue is not increased pay or shorter hours, but rather one of principle. The plumbers' union demand that the master plumbers accept arbitration in fixing the wage schedule. The master plumbers refuse. The schedule in question at the present time was prepared some months ago and was signed by all the master plumbers except five, these latter being the largest employers of labor. The strike was called in their shops, but they succeeded in securing enough non-union men to keep up with their work, and matters went along quietly enough until the allied building trades unions declared a sympathetic strike. The result is that practically all building operations in the city are suspended and thousands of men are out of employment. The unions are losing in wages fully fifteen thousand dollars per day.

The population of Winnipeg is increasing at the rate of almost one thousand a month. For the past ten or fifteen years there has never been sufficient accommodation for the people, hundreds of families being forced to seek small lodgings when they desired houses of their own. It has seemed impossible to build fast enough to house all the new arrivals, and at the present time hundreds of buildings which will be sorely needed before winter sets in, are in course of construction. Stoppage in the work on these must of necessity result in serious inconvenience, and Winnipeg will later feel the effects of the present disagreement.

GOVERNMENT OWNERSHIP.

Hon. Mr. Hyman is speaking in the interests of the liberal candidates in the bye-elections in Ontario. At a meeting held at Asylum on Tuesday evening Mr. Hyman referred to the address given by Hon. R. L. Borden at Toronto a week or two ago. He found it difficult to determine whether Mr. Borden had committed himself to the principle of public ownership and operation of utilities, but felt that the Conservative party would not support such a policy.

As an instance of its magnitude, Mr. Hyman pointed out that there were 18 railways incorporated in Canada, with a capital of \$1,175,100,000. There was \$45,000,000 invested in electric railway, and in telegraphs, say \$10,000,000. All these would have to be bought out if public ownership was adopted. This was exclusive of the cost of operation, which would have to be met. The speaker believed in public ownership to a certain limited extent. To a certain extent the present government had adopted public ownership. He spoke of the Montreal to Winnipeg section of the National Transcontinental Railway as an example. Mr. Hyman, dealing with the question of increased expenditure, pointed out that revenues had been largely increased under the Laurier Government. That government had not been afraid to increase expenditures proportionately with the results everywhere in the manifest improvement of harbors, docks, waterways and public buildings, progressive immigration policy, improved postoffice service, more efficient and larger military force, and other improvements and advantages to the benefit of the people.

THE HAITI AND THE BLIND.

A man by the name of Hyndman who is widely known in England as a labor leader, has been going out of his way to denounce Canadian and Australian immigration laws. He thinks it outrageous that these countries should seek to secure only able bodied workers, and should shut out all who are likely to become public charges. Hyndman goes on to say that under these circumstances Britain is supplying the colonies with her best stock, but if he had his way he would emigrate as many epileptic, paralytic, insane and pocky as he could gather together. Perhaps he would, and it might be added that he could find lots of them in England whose presence there is wholly due to carelessness in framing the immigration laws. He would also see that this carelessness has resulted in Britain having to pay for the support of paupers an annual sum equal to the total revenue of Canada, while this country by exercising a fair amount of wisdom has not yet found it necessary to establish such a fund.

ASSISTING TEMPERANCE.

The Imperial Insurance department of Germany has taken a decided step towards the solution of the temperance problem by sending to all employees of labor in the empire circulars advising the exclusion from workshops of all men and women who are addicted to the use of alcohol. The circular points out that drunkenness contributes largely to the frequency of accidents.

and brings about premature invalidity. Employers are advised never to allow intoxicants to be brought to their premises, but to provide ample supplies of the best water procurable. Such an action is worth all the assurances of moral support to the temperance movement that could be made in a lifetime.

THE LUMBER WOODS.
Soon to the northern lumber woods. The hardy ones and strong will flock to the forest trees and spend the winter long. And round the fire at evening. You'll hear some songster wail; "Come all ye jolly lumbermen, An' hark onto my tail."

They'll eat plum pud and pork an' beans. And splendid home-made bread; On pot-pie, mashed potato soup. On paucuses they'll be. And then their songster he will sing. With countenance state, "Come all ye jolly lumbermen, A tale I will relate."

And then their best musician, he will fetch his concertina. And grind out Maggie Murphy's Home. Or Mayday Nora Crenea. And then they cry, "A song! A song!" He singeth with much pride: "Come all ye jolly lumbermen, An' sit down by me side."

Sometimes they have a little dance. Dull nights they thus rebuke her; Or else they pass the time away. In harmless games of sucher. And then they cry, "A song! A song!" The songster answers free: "Oh, rise up Will-yul-Rid-lee, An' come along with me."

And then they seek their bunks to sleep. Pleased, though wearied all; They never budge until they hear The hearty "Good night!" He shouts while searching round his bunk. To his other sock: "Come all ye jolly lumbermen—"

GREAT VENTRILOQUISM.

Caruso, the great tenor, is a ventriloquist as well, and in New York, before he sailed for home, he told at a little farewell dinner a story of his ventriloquical skill.

"I was one of a house party at a millionaire's great new castle overlooking the Hudson," he said, "and had been served to the Bank of Montreal and Toronto last night. The money was collected at all way stations along the line and was in packages addressed to the Bank of Montreal. Detectives are working on the case but there is a poor clue.

"TORONTO, Sept. 20.—The Bank of Commerce at Kintinlo, (Sask.) was robbed of \$3,700 last evening by a thief who shot at Assistant Manager Hickman, who came downstairs when he heard a disturbance. Hickman tried to seize the intruder, who fired a bullet grazing the banker's left temple. The thief then escaped.

"TORONTO, Sept. 20.—St. Paul (Minn.) was chosen as the next place of meeting for Sovereign Grand Lodge of Oddfellows by an immense majority this morning. Invitations were also presented from Dallas (Tex.), Norfolk (Va.), Jamestown Exhibition Company and the Business Men's Association of Atlanta City.

HURLED MISSILE AT HALIFAX HOUSE.

When you draw up your easy chair before the fire, stretch out your legs and look at the blazing coal, it helps to make the cold winter's evening pass more pleasantly if you lift up the hissing Tiger Tea pot and pour out a steaming cup of the cherry-red liquid known as Tiger Indo-Ceylon Tea.

CATTLE TRADE WITH BRITAIN

Certainly That Campbell-Bannerman Government Will Not Relax Regulations

OPPOSITION TO THE INTEREST WHICH ATTACHES TO THE NEW TELEPHONE COMPANY.

WOODSTOCK, N. B., Sept. 19.—At the time when the details of the proposed Central and New Brunswick telephone merger were given out it was freely predicted that opposition to the New Brunswick company would develop in this section.

It seems that those who made the prophecy knew whereof they spoke, for in a local paper today notice is given of an intention to apply to the governor in council for the granting of letters of incorporation for a concern to be known as The Mutual Telephone Co., with power to erect lines in the counties of Victoria, Carleton, York, Sunbury and Queens.

M. L. Ross is the signature to the notice. With him in the past have been said to be several who were stockholders in the old Union Co., merged with the Central some months ago. As far as can be learned, the new company proposes to do out rural business and with no idea of becoming a serious rival to the big concern, but shrewd guesswork inclines to the view that there will be no danger of any monopoly in these matters once the promoters get their project well under way.

BISHOP HOARE

PROBABLY DROWNED

Several Thousand Chinese Met Death in Great Typhoon at Hong Kong.

LONDON, Sept. 20.—Sir Matthew Nathan, governor of Hong Kong, has sent the following telegram to the colonial office.

"There is strong evidence that Bishop Hoare, of Hong Kong, was drowned. The loss of life among the Chinese probably will amount to several thousand."

WANTED A CURE.

Sir Robert Hall, after a lecture on "Sun Spots and Solar Chemistry," met a young lady who expressed her regret at having missed the lecture.

"Well, you see," he said, "I don't know that it would have interested you particularly, as it was all about sun spots."

"Oh," she replied, "it would have interested me extremely, for I have been a martyr to freckles all my life."
