AN INDIAN'S MANGLED BODY FOUND TODAY ON THE I. C. R.

Was Killed by Last Night's JURY FIND THAT MAN DIED Maritime Express-Moncton Likely to Have a Baseball League—Another Man Sentenced for Selling

MONCTON, June 12.—Deputy Minister of Railways Butler, is expected here today. He will go to P. E. Island accompanied by General Manager Pot-

before the court were those of Henri Cormeir and P. Gallagher, the latter having been partially argued.

It is likely that a local baseball league will be formed in Moncton, now that all ball players have been practically reinstated. There has been practically no baseball so far this year.

As Warman's east bound special train was running along this morning about three quarters of a mile this side of Derby Jct., the horribly mutilated body of a man was seen lying in a ditch. The train was brought to a standstill and on examination the remains proved to be those of an Indian but so badly cut up that identification was impossible. Last night shortly before the arrival of the north bound Maritime express, an Indian was seen at Chatham Junction, and heard to say that he was going to walk to Newcastle. It is thought that he was the victim of an accident, having been caught on the track by the Maritime express and ground to death. The Maritime express last night was in charge of driver McKenna.

Trainmen who came down this morning say the Indian's name is Sacoby, and he belongs to Fredericton. A bottle of liquor was, it is said, found near the remains.

On A Legene's Scott Act case was

spatcher that the body of a man lay on the track three-quarters of a mile south of Derby Junction. It was reported by Warman's special freight train passing after last night's Montreal express. The coroner held an investigation, eliciting the following:

Driver McKenna, of the express, noticed nothing last night at the place of the accident but on arriving at Newcastle saw blood on the after part of the wheel, and also on the brake of the engine. No hair or clothing was seen and he thought an animal was struck. Conductor Logan of the Fredericton express, saw an Indian on the train drinking. He got off at Chatham Junction, was with two whites, who went to Chatham. The Indian was five feet, five inches, weighing one hundred and forty not for Derby Junction. It was reported by Warman's special freight train passing after last night's Montreal freight train passing after last night at the place of the stations today. The display is in honor of the marriage of No. 2 hose cart driver, Harry Johnson, to Miss Alice Brittain, daughter of John Brittain. The wedding took place this morning at the home of the bride, St. Patrick street, and was attended by immediate relatives and friends. The cremony was performed by Rev. H. R. Read, of Carleton Presbyterian church. The bride wore a costume of grey with hat to match. She was attended by little Miss Freda Brittain as maid of honor. After a wedding breakfast the happy couple left to a honeymoon trip through Nova Major, took first prize, and Mr. Wathands in laddes single horse took first prize, and Mr. Wathands in laddes single horse took first prize, and Mr. Wathands in laddes single horse took first prize, and Mr. Wathands in laddes single horse took first prize, and Mr. Wathands in laddes single horse took for the prize with par

BERLIN, June 12.— The Tageblatt says it learns that the Franco-Japanese schooner Alma, went ashore early this morning on Musquash Head.

BERLIN, June 12.— The Tageblatt says it learns that the Franco-Japanese tracty contains a clause guaranteeing the denambermaid we starved the held. The idea! Well, I went to the intelligence office, and after a long search fown static that they were unwilling to trust their work to a person who could not show some guarantee of experience and efficiency, so, although I knew more about sewing than half the fash ionable dressmakers in town, I actually worked in one such establishment for four months so that I could point to a printed diploma which says, 'Four'll not suit,' Now, isn't that dreadful?' And then all the other women told "dreadful?' And then all the other women told "dreadful?' Stories.

"Have you a diploma?" they ask.

"I didn't know what answer to make to the first customer that put that question to me," said one dressmaker.

"I certainly did not have a diploma. I knew how to sew, but I had no certificate to that effect. Finally I found that many women have suffered so grievously at the hands of incompetents that they were unwilling to trust

The servant problem was under discussion, and "experiences" were being related. Several women stopped talking at the same moment and the sillence, which had lasted nearly two seconds, was broken by a young matron, who said: "But, ladies, that's all nothing to what happened to me last week. My cook left me, you know, for no earthly reason except that she told the chambermaid we starved the help. The idea! Well, I went to the intelli-
