KING'S DAUGHTERS. The Convention Closed- Reports from Various Circles.

Provincial Convention - Officer Riected-Provincial Secretary's Report.

(Daily Sun, Tuesday, July 10th.) The New Brunswick Convention of King's Daughters' opened yester morning. The devotional exercises were beautifully conducted by Mrs. Macmichael of St. John. A short but interesting report was read by the re-cording secretary, and Miss Barker, the provincial secretary, read the following report:-

Since Sept. 1899 thirty-two members have been received into the order. No new circles have been organized. The number of circles are 17; number of members 230; number of individual members 151; number of paid members 363; total number of members 381. The list of membership according to counting, is as follows:—

St. John 177 Kings 27

 Queens
 26

 Charlotte
 17

 Northumberland
 11

 Westmorland

Paid total 363, unpaid members 18, making a total of 381, a decrease since 1899. The balance due order Sept. 14, 1899, was \$52.95. Supplies \$31.80; silver cross \$15.40; Twentieth century fund, \$1.00; Dominion fees, \$55.00; central council, \$27.50; provincial fees, \$27.50; making a total of \$210.65. Cash account:—Badges, \$22.95; literature, \$1.52; pin, 30; silver cross \$15.40; Twentieth century, \$1.00; supplies returned, \$19.70; fees \$110.00; making a total of \$170.87. Balance due order July 1st, 1901, is \$39.78. The provincial statement Sept. 1899, to July 1, 1901, was as follows:— Receipts, to balance Sept. 1899, \$2.45; \$27.50; voted from convention 1899, \$6.50; cash, \$1.87. A total of \$38.33. Expenditures amount to \$22.31, leaving a balance on hand of \$16.02.

Respectfully submitted, HELEN L BARKER

Provincial Secretary. The scrutineers appointed were Miss Iddles, Mrs. Jones, Miss Nichol. The report of the Golden Rule Circle, of Fredericton, by Miss Sarah Sterling.

The circle was organized in 1894. It has 32 members. There is a great deal of work done among school children.
They visit the alms house, hospital and
the poor, and do much other good
work. \$35 was given to the hospital
in May last. Feeling mention was
made of the death of Miss Carrie Macspoke of the missionary from her circle, Miss Long, who is out in British Columbia. Miss Morton, of St. John, read the report of the Door-Keepers' Circle, of St. John. Circle thirteen large. The report of the Ministering Wiley. There are twenty-eight members, organized in 1895. The re-Opportunity Circle from hn was read by Miss There are nineteen memof Opportunity Circle tion financially, and shows spiritual growth and vigor. Mrs. Wyse, of Newcastle spoke of the Opportunity Circle in that town. The work is done chiefly with the poor of the town, as the men are off in the lumber woods during the winter, and their families must

The afternoon session was opened The afternoon session was opened by devotional exercises by Mrs. Savage, after which the right of voting to ance the grain in any potato ground I

was accepted. The report of the King's Daughters

guild was then read, showing a good financial condition and much practical work done. Nearly 200 boarders had been accommodated at the guild during the past year, and the educational and sewing classes had been well at-

circles throughout the province, showing all to be in a good condition. The resolution committee reported as follows:

Resolved. That we desire to place on re-cord our great regret at the enforced retire-ment of our late dominion secretary, Mrs. Tilley, praying that our heavenly Father may see fit to speedily restore her to work of our order, which has such a great place in her heart.

in her heart.

Resolved, That we express our sincerest thanks to Mrs. Mary Lowe Dickinson and Mrs. IC. Davis of the central council for the day.

be looked after. Much interest was evinced in this report, and offers were made to assist in this work. The report of the Aberdeen work was read by Miss Armstrong. Through the efforts of Lady Aberdeen the western portion of Camada was opened up to the Master's work. Literature is now sent to these far off homes, and the people, through correspondence, are quite well known to the workers in the several circles interested. Miss Armstrong read a few letters from some of those who are being benefited, some of those who are being benefited, some of which afforded very much amuse-of the Sun staff from his letter thord or of the Pan-American Exposition to carry out the scheme successfully. The variety of colors adds wondrous beauty to the scene and relieves the variety of the veriety

BIG JUMP IN CORN.

NEW YORK, July 12.-There was a sce a year or more, especially as to corn. Prices jumped 2% during the day in corn, making 6% advance for the week. Orders poured into the market so fast that brokers could scarcely execute them at the price desired. The farmers have taken the bull side into their bands, and in face of heavy realizing on the part of the professionals have kept their bands, and in face of heavy realizing on the part of the professionals have kept their bands, and in face of heavy realizing on the part of the professionals have kept their bands, and in face of heavy realizing on the part of the professionals have kept the splendor. But the brilliant day and night scenes are not confined to the Flectric Tower and its basin. One has but to turn half around to view arother splendid sight, in the Court of the Fountains, with its profusion of sculpture and fountains. Here the water projected into the air assumes various beautiful farms, and at night

AT BURFALO.

The Pan-American Exposition Can be Seen Cheaply.

Some Facts of Interest About One of the Prettiest Cities in All North America

The Wonders and Beauties of the Greatest Show on Earth—In Line With the Advance Guard of the World's Progress - Some of the Features All Should See

(Staff cor. of the Sun.) As remarked in a previous letter, the visitor to the Pan-American Exposition can take in Buffalo and the entire exhibition at a very moderate cost. While there are of course traps for the unwary, as there are in all cities great or small, Buffalo is entitled to pre-eminent credit for the manner in which it treats the stranger within its gates. The people of Buffalo are aiming for lasting fame rather than for temporary riches.

Buffalo is no mean city. Its population tops 400,000; its area is 25,000

acres, or 42 square miles. It is about five miles from east to west and eight miles from north to south. All the principal streets, totalling 225 miles, are paved with asphalt and are as level as a billiard table. Its park system possesses 25 miles of continu-ous or connected beautiful drives Buffalo is an ideal city for the bicycle and the automobile. Its electric street railway system, all under one man-agement, counting suburban lines consists of 300 miles of track, and a single five cent fare, with free transfers, carries a man from any one nuisition in the usual manner and chat the standing orders for disbursements be rescinded.

Registrar McLellan was heard by grain elevators with a total capacity of the committee which decided to research. of 21,000,000 bushels. Twenty-six dif-ferent steam railroad systems enter Buffalo, and today som 250 passenger trains enter or leave the city every

24 hours. Buffalo is not a hot city in summer by comparison with other eastern and southern American towns. This is by eason of its proximity to the great lakes. The average temperature in July for the past three years was 73

The matter of investigating the re-flections made on Magistrate Allings can ind a reliable list of good lodg-ham of Fairville in the last report of mally, who had been a faithful member and of Miss Ethel Estey, who is now a missionary in Corea. Miss Brown allowed a criminal prosecution to be The site of the Pan-American Ex-

position is an ideal one. It is on high ground and includes many acres of im-proved park lands. There is a wealth of foliage and hundreds of beds of order payment of costs by the prose-cutor The committee decided to hear Mr. Allingham on Monday next. The report of Auditor Whiteside on the alms house accounts was read and the difference of the committee of foliage and hundreds of beds of lovely flowers, interspersed with grassy glades and graveled walks. The buildings, of which there are grassy glades and graveled walks.

The buildings, of which there are some twenty very large ones for exhibits and about one hundred smaller ones, including state and foreign buildings, midway show buildings, etc., are radiant with color. This is a distinct departure from the custom which obtained with the earliest expositions
CROP PROSPECTS IN THE NORTH- and has been followed up to this time. At nearly all the expositions the build-

Thousands upon thousands of acres of the finest grain fields I ever saw. We have en our farm 400 acres of wheat and 100 of oats, and the poorest acre of it excels in growth and appearance the grain in any potato ground I ever saw in New Brunswick. It is a great volume of water, which is perfectly marvellous. You would have bricken into spray by a deflector and to see it to form any idea of it. If we do not have half or frost we will more than make up for last year's shortage. are several fountains, jets of which are several fountains, jets of which rise to a great height. By day the scene here is grand and inspiring. By night, when thousands of incandescent lights and a hundred searchlights illuminate the tower and its surroundings, the grandeur and inspiration are increase

must linger forever in the memory. While one stands entranced by the of great excitement in both the wheat and corn markets in New York today, trade aggregating one of the largest day's totals in a year or more, especially as to corn. Price blue, to violet, and to green. The imentirely friendless, at once leaped into popularity with the bulls, and gave corn a close race for leadership in the matter of advance for the day.

Prices at New York closed 2% to 2% higher than last night, and practically at top prices. Professionals were caught on this bulge in wheat, and some of them lost about all the money they have made through selling out long corn to the bull public.

KIMPSONS.

across the broad Esplanade to the Court of the Fountains, one gets a view the remembrance of which must

From this viewpoint it would seem that the Electric Tower bounded the glories of this central part of the exposition, but such is not the fact. Beyond the tower, to the north, is one of the choicest beauty spots, the Plaza. In the centre is a magnificent band In the centre is a magnificent band stand, from which the most celebrated bands give daily and evening concerts.

On the north are the Probylaca or
monumental entrances to the Piaza

from the railway station. On the east is the arched and towered entrance to the Stadium in which the sports are held. This great arena is one of the most popular features of the fair. It has a quarter-mile track and an ex-pansive field. Here various racing contests, base ball, lacrosse, polo, and many other games are played. The seating capacity is 12,000. Admission to the Stadium is free to all in attendance at the fair.

On the west is a similar entrance to the Midway, a place of unbounded in-terest for visitors; It is only a step from the Streets of Mexico with its characteristic bull fight to the Hawailan Village and the Burning Mountain of Kilaean, and across the street tain of Kilacan, and across the street is the Beautiful Orient with its camels, asses; and peculiar dances and sword contests, while within easy walking distances are to be found faithful reproductions of life in the Philippines, Africa, Japan, Germany, Italy and Greenland, the south before the way and the Michalle. the war and the Klondike. Here one may experience the pleasures of a "Trip to the Moon," visit "Heaven and Hell," be elevated in the cars of the aerio-cycle to an attitude of 275 feet, study the American Indian in the "Indian Congress," see Bostock's trained wild animals, look in at the famous diving elks and wild water sports, see reproduced in pictures scenes in "Jerusalem on the Day of the Crucifixion," "Battle of Missionary Ridge,"
"Johnstown Flood," and incidents in the career of Cleopatra. Here also are a glass factory, a Moorish palace, a house upside down, "Dreamland" or mirror maze, a gold mine, scenic railway and rivers, a gypsy camp, the white city in minature and many other

choice attractions. Encircling the larger buildings of the exposition is a grand canal on which are always to be seen gondolas, electric launches and other craft. These pass under the Triumphal

bridge and through grottoes of great beauty and interest.

There is a fine natural lake in the grounds, and it is always dotted with gay craft. On the shore of the lake is a United States government life-sav-ing station, completely equipped with all the latest up-to-date devices for saving life along the coasts. A crew of United States life savers are sta-tioned here and they give cally ex-hibitions of their work.

An interesting experience, and one which visitors to the exposition generally avail themselves of, is at the electric tower. Elevators run to a landing 270 feet above the ground, from which there is a grand cutlook, the vision having a wide range for many miles around, sweeping the en-tire Niagara frontier.

The press department of the Pan-American Exposition has just issued a booklet for the benefit of all who are interested in out door sports and more particularly for the benefit of wheelmen and automobilists who desire to tour to Buffalo.

The book is next and attractive in appearance and contains maps of the city of Buffalo and the exposition grounds; a road map of Erie and Niagara counties, showing delightful side trips from Buffalo covering Niagara Falls and other points of interest, and descriptions of the "Frunk line" cycling routes leading to Buffalo from all the principal cities and sections of the country within a radius of 500 miles. Besides the cycling features the book is handsomely illustrated and contains a description of the magnificent Stadium and the programme of sports which has been aranged as one of the chief attractions of the exposition, as well as a general by writing to the press department, Pan-American Exposition, Buffalo, N.

MARITIME FAT STOCK SHOW.

(Halifax Herald, 1zth.) "Halifax will not have the fat beef and poultry show if a money consideration is necessary to bring it here. That is what a special committee of the city council, Aldermen Campbell Crosby and Rogers, decided yesterday the matter. Secretary Wood of the exhibition commission, who was pre-sent at the request of the Maritime tion concerning the annual stock exhibition which is held at Guelph, shortly before Easter, pointing out that 5,-It was contended, on the other hand,

that Halifax was not Guelph, and that no such large attendance would be ob-tained. The Herald adds: "It is felt that Halifax can rest on her laurels in the matter. The beef association has a \$2,500 grant from the local and dominion government to commence

N. S. CONSERVATIVES

At a Provincial Convention Held on July Second,

Adopt a Party Platform, Clearly Outlining Their Desires and Programme of Reform If Elected to Power.

HALIFAX, N. S., July 14.-At the provincial convention of the liberal conservatives of Nova Scotia, held on July 2nd, a platform for the party, in view of the approaching provincial elections, was adopted. It is now to be made public and will be issued tomorrow morning. The platform consists of fourteen planks. The first pledges that the conservatives, if returned to power, will enact a law amending the present election law, which does not clearly hold candidates responsible for corrupt acts by agents.

The second treats of the public highways, condemning the government's policy in regard to them, and expressing the opinion that all expenditures for roads should be made

through the municipal councils. The convention further declares that the sum of \$670,000, recently awarded this province as a refund of subsidies towards railways taken over by the federal government, should be placed to the credit of the municipal councils, to be employed in the permanent improvement of the public highways.

The third clause demands reform in the department of mines, and pledges a progressive, up-to-date policy. The fourth clause advocates a larger grant to miners' relief societies.

The fifth clause treats of labor in-terests and calls for the enactment of better laws, providing for arbitration between workmen and employers. In the sixth clause, treating of rail-

ways, the convention deplores the weak, dilatory and hesitating policy of the present government with respect to railways, which during the past nineteen years has not kept pace with the resources and reasonable requirements of the province, and pro-"We pledge ourselves, if given power, to complete with all possible expedition the railway system of the province, especially the great trunk lines from Hallfax west to Yarmouth, and from Hallfax east to the Strait of Canso, and thence to Louisburg, as well as other necessary lines and

In the seventh clause the convention condemns the present government for its neglect of the agricultural interests of the province and for the inadequacy of the provisions made for their devel-opment, and pledges itself to enact such measures as will give substantial encouragement to dairying, stock raising, horticulture, cold storage and the rapid transportation of farm products.

The eighth clause promises greater encouragement for the fishing interests

Nova Scotia. The ninth clause is directed to school reform and is as follows: It should be the aim of the council of public in-struction to provide such education for our children as will best equip ther for the active duties of life. The school curriculum should be amended in ac-cordance with this principle. Having regard to the great and var-

ied resources of our country, we also believe that the province should supplement the instruction at present pro-vided in the public schools by giving substantial assistance to manual trainng, technical, mining and agricultural

The tenth clause pledges the con-servatives to simplification of the laws regarding the electoral lists.

The eleventh pledges economy in ad-

ministration and the abolition of the legislative council. The twelfth treats of the independence of parliament, the present system permitting the making of contracts between the government and members of the legislature. The thirteenth clause treats of public

The fourteenth demands an adequate audit of the public accounts of province.

SUCCESSFUL AIR SHIP.

Santes Dumont's Cigar Shaped Balfoon, Makes a Trip Across Paris and Around the Eiffel Tower-

PARIS, July 12.-Santos Dumont's cigar shaped balloon, driven by a motor, had a trial today from St. Cloud. across to Paris, around the Eiffel tow-er and back to St. Cloud. The papers say the trip was quite successful and that the balloon ascended and descended apparently at the will of the aeronaut.

Santos Dumont says he sailed five times around the Long Champs race course, then around Bois De Boulogne and around the Eiffel Tower. One of the ropes of the rudder broke and he had a narrow escape from colliding with the tower, so he descended to the damage repaired and afterwards again sailed round the tower and returned to St. Cloud., Tomorrow he will make an official attempt to win the prize of 160,000 francs offered by Henry, Deutsch, for a manageable balloon, in the presence of a committee of the

Aero Club.
M. Santos Dumont, the Brazilian aeronaut, made an attempt in October last to win the prize of 100,000 francs offered by M. Deutsch for the earnaut who should sail his flying machine from the Aero Club grounds at Suresnes, round the Eiffel tower and back within half an hour, but failed owing to the machine sustaining some damage. The distance is about eight miles. He sits on a light metal shaft to which an ordinary biguels saidle is to which an ordinary bicycle saddle is affixed. On his right and partly in front of him, is a gasoline motor, which when started by the bicycle pedais below him, rotates the propeller at the end of the shaft. The propeller measures twelve feet in diam-The fans or blades are made of steel and aluminum, covered with silk. The propeller makes 180 revolutions to

To cure Headache in ten minutes use
