The Ottawa Evening Journal has printed another letter from Miss Florence Randal, one of the Canadian Tuesday evening at the residence of teachers in South Africa. Writing under date September, 1902, "From a Burghers' Camp, Transvaal," Randal says:

"All day-and nearly all week-the wind has howled about the house and we have been mewed inside till some are grown desperate. It is Sunday, and for a wonder every girl wants to walk the mile to church, just because she can't. Its spire shows at intervals, when the dust cloud draping it sweeps aside, and then the Odd Girl drums or the window pane a moody devil's tattoo. Then in a spirit of challenge she puts on a white muslin dress (for the day is warm) and black picture hat, takes her prayer-book and defiantly walks the gusty ways that lead to the garrison service. Five minutes, and she comes back crosser than ever, with a resent in her gown bestowed when she was blown into some tent pegs.

ago, and was the son of Abram T. and The same wind that had so much power to vex her soul had none at all over the two who spent an hour in its full sweep. The man leaned down from the saddle—a soldierly figure in Plain. He resigned on account of illkhaki and soft felt hat. The girl held her white panama with one hand, and the other-was somewhere near the the James St. Church. He had never horse's mane. We locked at them with proud ownership, from a discreet distance, for they represented our first house engagement, and they made me think, every time I looked out at the stoep (which semed momentarily about to be blown away) of Gibson's rain-drenched couple sitting blissfully unconscious of weather on a dejected

A HAPPY BRIDEGROOM AT 102. The Bride is a Young Thing of Only

(Richmond, Virginia, Dispatch.) What is probably the most peculiar marriage license ever issued by a State official was prepared by the county clerk of Gloucester Saturday last. The peculiarity in this instance lies in the extreme age of the contracting parties, the man being 102 years of age and his intended wife 80.

The newly wedded pair are Solomon Lewis and his wife, both respectable colored people of this county. The ceremony was performed Sunday at New Mount Zion, in the upper part of the county, by the Rev. James Smith, a colored pastor. Solomon was a slave and belonged to the estate of Thomas Fauntleroy of King and Queen county, His first wife died two years ago, after a married life of seventy years. grandmother was born aboard a slave ship while crossing to this country from Africa, and lived to be 110 years old. His mother, who died in 1863, was 101. He has a brother now living in Piney Swamp at the great age of 107, whom he remembers as driving beef cattle to Gloucester Point for the American army during the War of 1812. Solomon claims to have been born in November, 1799, and thus was one month old at the death of George Washington. The old man is some what bent by age, but with the aid of a stick can walk and carry himself as erect as if he were only 21.

The marriage of the aged pair was a matter of great interest to the surrounding county, and was witnessed by a large concourse of white people, as well as a vast crowd of negroes.

VENTION. Sunday, Oct. 5th, will be a day of nterest in Sunday schools, when they will choose their delegates for the Pro vincial Sunday School Convention to be held in Germain street Baptist church on 14th, 15th and 16th of this month

STRIKE GOES ON

President Roosevelt's Great Coal Conference a Failure.

The Operators Willing to Treat With the Men as Individuals, but Will Have Nothing to Do With Mitchell - In the Mean Time Coal Continues to Advance in Price.

(Associated Press.) WASHINGTON, Oct. 3.—The great oal conference between the presi and representatives of the operators and miners came to an end at the temporary White House at 4.55 this afternoon with a failure to reach an agreement. Apparently the rock upon which the conference split was recognition of the miners' union. The president had urged the contending parties to cease strife in the interests of public welfare; the miners through their president had expressed a willingness to submit difference to arbitration of tribunal to be named by the presient and to enter into an agreement to abide by terms fixed by the arbitration for a period of from one to five years,

DELLEGATION OF WELL TORK WILLIAM WAS A CHARLES OF THE

SEMI-WEEKLY SUN, ST. JOHN, N. B., OCTOBER 8, 1902.

and the employers through the presi-dents of the railroad and coal companies and a leading independent mine operator had squarely refused arbitration, had denounced the miners' organi zation as a lawless and anarchistic body, with which they could and would have no dealings, had demanded federal troops to ensure complete protection to workers and their families in the mining region and court proceedings against the miners' union, and had offered, if the men returned to work, to submit their grievances at the individual collieries to the decision of

pleas for the district of Pennsylvania in which the colliery was located. There the matter closed. Tonight both miners and operators are still in the city, but tomorrow they return to their several localities, each saying at a late hour that the struggle

the judges of the court of common

will continue. It was a remarkable chapter in the economic history of the country that was written today. For the first time the president of the republic had intervened directly between the great forces of capital and labor in an effort to avert what he himself regarded as a great national calamity. The result was to bring the principals in the great controversy face to face with the whole country eagerly intent and watchful of their doings.

Technically the issues between the two great forces stand as they did before the president summoned the contending forces to the national capi-What, if anything, will result from the conference is for the indefinite

future. Today the views of the contenders in the great struggle were so extreme and wide apart that there was no middle ground possible and so the conference came to an end without any agreement. The conference had lasted six hours, including a recess of three hours between the morning and afternoon sessions taken to enable the miners and operators to prepare written responses to the pre-

sident's appeal. The immediate parties to the strike say they will continue as heretofore: What course the administration will take no one is prepared to say. One of the operators as he left the White House was asked regarding this and

"If any one knows what the president will do next, that is more than

WASHINGTON, Oct. 3.—At the tem-

porary White House tonight the folowing official statement was given out oncerning the coal conference: "The conference opened at 11 o'clock.

The operators and representatives of The operators and representatives of the miners were presented to the president. Those in attendance were: Geo. F. Baer, president of the Reading railway; W. H. Truesdale, president of the Delaware and Lackawanna and Western; W. B. Thomas, chairman of board, Erie railway; Thomas P. Fowler, president of the New York, Ontario and Western railway; David Wilcox, vice-president and general counsel of the Delaware and Hudson Co.; John Markle, representing the Independent Operators; John W. Mitchell, president of United Mine Workers of America; Thos. D. Nicholls, Thomas Duffy, John Fahy, district presidents of the United Mine Workers of America; Attorney General Knox, Secretary Cortelyou, Carroll D. Wright, commissioner of labor.

The president at the outset expressed his hearty thanks for their attendance of government to protect not only the man who wants to work, but his wife and chit-dren while he is at work, and to punish every man who by instigation or by overt acts attempts to deprive any man of his every man who by instigation or by overt acts attempts to deprive any man of his every man who by instigation or by overt acts attempts to deprive any man of his every man who by instigation or by overt acts attempts to deprive any man of his every man who by instigation or by overt acts attempts to deprive any man of his every man who by instigation or by overt acts attempts to deprive any man of his every man who by instigation or by overt acts attempts to deprive any man of his every man who by instigation or by overt acts attempts to work. Under these conditions we decline to accept Mr. Mitchell's considerate offer to let our men work on terms he is attempts to deprive any man of his every man who by instigation or by overt acts attempts to work. Under these conditions we decline to accept Mr. Mitchell's considerate offer to let our men work on terms he is attempts to deprive any man of his every man who by instigation or by overt acts attempts to work. The president at the outset expressed his hearty thanks for their attendance and stated that owing to his peculiar

I have stated, not to decide now, but give it careful thought and return at 3 o'clock. The conference then adjourned until

On reassembling Mr. Baer spoke as

Mr. President, do we understand you correctly that we will be expected to answer the proposition submitted by Mr. Mitchell this morning?

The president-It will be a pleasure to me to hear any answer that you are than one occasion that there has been willing to make. Mr. Baer-I have prepared an an-

The following is the text of the several statements:

GEORGE F. BAER, PRESIDENT OF THE READING R. R.

We understand your anxiety is forcibly expressed in the statement you read to us this morning to bring about "An immediate resumption of operations in the coal mines in some such way as will without a day's unnecessary delay meet the crying needs of the people."

We infer that you desired us to consider the offer of Mr. Mitchell, verbally made this morning, expressing and speaking for the United Mine Workers, to go back to work, if you would appoint a commission to determine the questions at issue.

You distinctly say that you "do not invite a discussion of your respective claims and positions." But we assume that a statement of what is going on in the coal regions will not be irrevelant. We represent the owners of coal mines in Pennsylvania. There are from fitteen to twenty thousand men at work mining and preparing coal. They are abused, assaulted, injured and maltreated by the United Mine Workers. They can only work under the protection of armed guards. Thousands of other workmen are deterred from working by intimidation, violence and crimes inaugurated by the United Mine Workers, over whom John Mitchell, whom you invited to meet you, is chief

I need not picture the daily crimes committed by the members of this organization. The "domestic tranquillity" which every constitution declares is the chief object of government, does not exist in the coal regions. There is a terrible reign of lawlessness and crime there. Only the lives and property of the members of the secret oath bound order, which declared that the locals should "have full power to suspend operations at collieries" until the non-union men joined their order, are safe. Every effort is

should "have full power to suspend operations at collieries" until the non-union men joined their order, are sate. Every effort is made to prevent the mining of coal, and when mined, Mitchell's men dynamite bridges and tracks, mob trainmen and by all manner of violence try to prevent the shipment to relieve the public.

The constitution of Pennsylvania guarantees protection to life and property. In express terms it declared the right of acquiring, possessing and defending property "to be inaleniable." When riot and anarchy too great to be appeased by civil power occurs, ing, possessing and defending property to be inaleniable." When riot and anarchy too great to be appeased by civil power occurs, the governor of Pennsylvania is bound to call out the state troops to suppress it. We must fearlessly use the whole power of the state to protect life and property, and to establish peace—not an armed truce, but the peace of the law which protects every man at work and going to and from work. He has sent troops to the coal region. Gradually the power of the law is asserting itself. Unless encouraged by false hopes, order will soon be restored, and then we can mine coal to meet the public wants. If the power of Pennsylvania is insufficient to re-establish the reign of law, the constitution of the United States requires the president, when requested by the legislature and the governor "to suppress domestic violence." requested by the legislature and the governor "to suppress domestic violence."

You see there is a lawful way to secure

The duty of the hour is not to waste time negotiating with the fomenters of this an archy and insolent defiance of law, but to do as was done in the war of the rebellion restore the majesty of law, the only guardian of a free people, and to re-establish order and peace at any cost.

The government is a contemptible feature. der and peace at any cost.

The government is a contemptible failure if it can only protect the lives and property and secure the comfort of the people by compromising with the violators of law and the instigators of violence and crime. Just now it is more important to teach ignorant men, dwelling among us, misled and used as tools by citizens of other states, that at whatever cost and inconvenience to the public, Pennsylvania will use the whole power of government to protect not only the man

JOHN MITCHELL, President U. M. W. of A

THOMAS DUFFY D. D. NICHOLLS, Dist. President U. M. W.

The president asked Mr. Mitchell if

ie had anything further tosay. by the gentlemen that twenty murders have been committed in the anthracite regions during the present strike is untrue. If they will name the men and will show that they have committed the murders, I will resign my position. That is a fair proposition, Mr. President; that is a fair example of how our organization and our people are maligned. The truth of the matter is, as far as I know, there have been seven deaths, unfortunately. No one regrets them more than I do. Three of them were committed by coal and iron police, and no one else has been charged with them. God knows the miners do not escape being charged with everything done there. They speak about burnings. There was a reward offered for burnings. I can bring affidavits of hundreds of people if ne essary that the lightning caused one burning that they charged to us. President, I have admitted on hore some lawlessness, but I will say that a large portion of it has been provoked into the anthracite regions to recruit the coal and iron police. I want to say, Mr. President, that I feel keenly the attacks made upon me and my people that I came here with the in-

bention of doing nothing and saying nothing that would effect reconcilia-THE PRESIDENT

then asked the representatives of the anthracite companies whether they would accept Mr. Mitchell's proposi-

They answered: "No."

In response to a further question from the president they stated that they would have no dealings whatever with Mr. Mitchell looking toward a settlement and that they had no other proposition to make, save what was contained in the statement of Mr. Baer, which in effect was that if any man chose to resume work and had a difficulty with his employer, should leave the question to the judge of the court of common pleas. At about 5 o'clock the conference

was brought to a close without agree-

A Sure Cure for Constipation.

Some remedies cure this distressing complaint in a day, some in a month, but Nerviline never fails to cure in a lutes. Just ten drops of Nerviline in sweetened water-that's enough, and away goes the dysentery, cured to stay cured. Nerviline also cures Cramps, Colic, Pain in the Stomach, and Sick Headache. It has five times the strength and curative 1 erties of ordinary remedies, and s' ould be in every nousehold. Better buy a 25c. bottle and try it. Nerviline is all right.

Hamilton's Pills for the Liver.

LOTS OF BEEF. A very large amount of beef was exhibited in the country market yesterday. It is stated that more animals were killed in the slaughter houses on Thursday for today's market than for any similar day for years. The price of beef, too, is low. Fowl, on the cher hand, are commanding high prices. They range in the vicinity of severtyfive cents a pair, while at this time last year chickens could be obtained for thirty and forty cents. Pork is coming into market a little more freely, than for some time past. The lateness of the harvest is given as an explanation of the scarcity of pork and fowl. The farmers have been waiting until after harvesting was concluded to obtain food to fatten these for the mar-

GOOD HEALTH FOR CAPITAL Maintaining good health is to the najority of people the most vital question in the world and nature affords no more efficient strengthener for the system and restorative for the nerves than Dr. Chase's Nerve Food. Naturally, gradually, and certainly it forms new, red corpuscles in the blood, creates new, healthy nerve cells and puts into the system the snap, energy and vitality that defies disease.

NOT KEEPING UP.

Mr. Upjohn-I wish you would tell Kathleen she cooks her steaks too Mrs. Upjohn—You are three girls late, John. The name of the present cook is Mollie.—Chicago Tribune.

ORIGIN OF THE WEEPING-WILLOW.

The weeping-willow tree came to America through the medium of Alexander Pope, the poet, who planted a willow twig on the banks of the Thames, at his Twickenham villa. The twig came to him in a box of figs sent from Smyrna by a friend who had lost all in the South Sea Bubble and had gone to that distant land to recoup his fortunes. Harper's Encyclopaedia of United States History tells the story of the willow's arrival in America. A young British officer, who came to Boston with the army to trush the rebellion of the American colonies, brought with him a twig from Pope's now beautiful willow-tree, intending to plant it in America when he should comfortably settle down on lands confiscated from the conquered Americans. The young officer, disappointed in these expectations, gave his willow twig, wrapped in oil-silk, to John Parke Curtis, Mrs. Washington's son, who planted it on his Abingdon estate in Virginia. It thrived, and became the progenitor of all our willow-trees.
