## Long Distance Telephone Rates

The new schedule of Long Distance Rates as ordered by the Board of Commissioners of Public Utilities of New Brunswick, will go into effect on August 1st, and in order that the public may understand and take advantage of the different classes of service available, the following is given:

**Station-to-Station Calls.** Make your call for the number wanted; or if you do not know the number, give the name and address of the subscriber to the Toll Operator and tell her you will talk with ANY-ONE there.

This is the simplest form of toll call and carries the lowest rate. There will be no charge for it unless connection is established with the TELEPHONE of the subscriber wanted. In most cases, this form of toll call will be found satisfactory and will save about 25 per cent., as compared with the person-to-person rate.

The station-to-station rate is computed on the basis of 5 cents for each six miles, up to 24 miles, and 5 cents for each eight miles beyond that distance, with a minimum charge of 10c. from 0 to 12 miles.

**Person-to-Person Calls.**—Where it is absolutely necessary that you speak to some particular person, tell the Toll Operator so.

The operator will endeavor to establish direct communication with the person wanted. If the call is completed, it will be charged at the person-to-person rate. If the particular person called for cannot be reached, the Operator will so report to the person calling; and if no further particulars can be supplied which will enable the Operator to locate the called person, and the order is then cancelled, there will be a report charge for the service rendered, approximately, one-fourth the station-to-station rate. If the caller desires, the Operator will continue her efforts to locate the particular person at any one toll center during the same day with but one report charge. If communication is finally established the same day on which the call was filed, the charge will be the regular person-to-person rate and there will be no report charge.

Person-to-Person calls require greater effort and, therefore, are charged for at a rate about 25 per cent. higher than the station-to-station rate. The minimum charge for such a call is 15 cents.

**Collect Calls.** that is calls on which the charges are to be reversed or paid for by the called party, are charged for at the person-to-person rate. The charges on a station-to-station toll call cannot be reversed.

There are also two special classes of person-to-person calls, **Appointment Calls** and **Messenger Calls**.

(1) **Appointment Calls** are person-to-person calls which provide that communication is to be arranged for establishment at a specified future time. The rates for appointment calls are approximately 50 per cent. higher than the rate for station-to-station messages between the same points or approximately 25 per cent. higher than the corresponding person-to-person rate to provide for the greater operating effort required to complete them. The report charge is applicable on this class of call.

(2) **Messenger Calls** are person-to-person calls on which the called person is not available at a telephone and on which the telephone company undertakes to notify him, by messenger or other means, that communication is desired with him by long distance telephone. Messenger service is furnished at cost on guarantee of payment by the calling person and the charges for such service are, in every case, in addition to the regular rates for messenger long distance calls which are the same as those for appointment calls, as explained in paragraph (1) above. The report charge applies to this class of call.

**Reduced Rates for Night Long Distance Calls.** Reduced rates for night service apply when the calls are on a station-to-station, person-to-person, appointment or messenger basis and are effective between 8.30 p.m. and 7 a.m. (Atlantic Standard Time). The night rates are approximately one-half of the day rates. The minimum night rate is 25 cents. Day rates apply on calls made at night when the charge is less than the minimum night rate.

## Maritime And Maine Circuit

Three Days' Meet Closed at Fredericton Yesterday — Bill Sharon Staged Wonderful Trotting Exhibition After Brage Lowered Trotting Record.

Fredericton, N. B., July 29.—What was generally conceded to be the greatest meeting of the Maritime and Maine Circuit closed today with more record breaking racing.

Bill Sharon staged one of the most wonderful trotting exhibitions ever seen in the East in winning the free-for-all trot after Brage, the Halifax trotter had reduced the trotting record of the track from 2:14 1/2 to 2:11 1/2 in winning the first heat. Bill Sharon came back with two successive miles in 2:11 1/2 and then won the final in 2:12 1/2. The Exposer was the challenger in each heat after the first. Bill Sharon making his only break in the race in the drive through the stretch in the opening heat.

Saskia the former Bay State Circuit performer was favorite in the 2:15 trot but failed to come up to expectations despite repeated warnings to her owner-driver Mr. Keyes. She wears cross hoppers and when she broke was usually all off. Then "Red" Maundie carried her so fast with Togo M., which looks like the fastest green trotter out down here this season, that he took a win record of 2:14 1/2. For Prince, the local trotter, became ill after winning the first heat and finally had to be drawn. Fred G. Perkins of Boston with Leone was disappointed in the first heat because she sulkily broke down. Nobody was hurt.

Charles L. Churchill of Rochester, N. H., put over his first winner in Bronze Belle, which won the 2:27 trot the fastest race of the meeting. Corwin Hal, 2:13 1/2, a beneficiary under the time allowance rule won the 2:20 pace in straight heats and when it was all over was eligible for the 2:15 class. The judge called Harry T. Hayes of Rochester N. H. to the stand before the last heat and warned him of the penalties for failure to win if he could do so. He was not called and was taken as it was quite evident Valley Forbes was not ready.
