Red Cross Appeal For World Peace

Society Asks for Co-operation to Fight Against Spirit of War.

The following appeal has been received by the joint committee of the International Committee of the Red Cross and League of Red Cross Societies at Geneva, July 18th, 1921, and will be published all over the world.

In virtue of a higher law and duty, and of principles above the level of human passions, the helping hand of the Red Cross was stretched forth to aid victims throughout the ordeal of the Great War.

Today, the Red Cross owes it to itself and to all its many workers to proceed as an ideal and a practical intention, a struggle against the horrors of war, an attempt by world-wide help and unselfishness definitely to abolish war.

The new continuation of Red Cross activity in time of peace will no longer suffice. It is the wish of the Red Cross to work in the interest of peace. Therefore, the Red Cross calls upon all whole-hearted citizens, irrespective of nationality, religious belief, profession, or social rank, to join, as far as lies in their power in a systematic campaign against that spirit of war, which is a constant menace to the world's peace.

During five years, millions of men were killed or mutilated. Today, thousands of ex-soldiers or prisoners at last set free bear indelible marks of bodily and mental suffering. All of them feel that the generations to come would reap the fruits of the great ordeal in a new international life, which would be more brotherly, frank, and more full.

Instead, disorder and uncertainty, distrust and greed, hatred and the threat of fresh quarrels are reappearing throughout the world. The spirit of war, unconquered, reigns supreme. Its sinister influence is evident. It inspires lines of policy and press campaigns, which lead public opinion astray and embitter the economic competition among nations.

During the terrible years of the recent war, superhuman efforts were required of the different nations. In order to inspire such sacrifices, a supreme reward was promised—namely, the annihilation of this same spirit of war, which is a peril as old as the world and a constant menace to mankind.

These generations yet unborn would have been delivered from the scourge at the price of the suffering which the war entailed. This hope sustained nations and armies.

Have they hoped in vain? Have millions of human lives and the wealth of nations been sacrificed in vain?

Faced with these questions, the Red Cross recognized a duty. At the suggestion of Senator Ciro, Chairman of the Italian Red Cross, the tenth International Red Cross Conference, which met at Geneva on April 1st, 1921, voted the following resolution:

"The International Committee of the Red Cross and the League of Red Cross Societies shall address an appeal to all nations, exhorting them to combat the spirit of war, which dominates the world."

These two organizations call therefore on nations and individuals to live with all means in their power, this magnificent spirit. May statement, writer, school, and university, capital and labor remember that it is their duty, in the interest of mankind, to help peace to conquer the earth. Above all children should be brought up in this fundamental belief.

It is essential that the human mind should once more be open to the broad lines of an internationalism, which, while allowing the citizen to love his town and the patriot his country, teaches all men to respect the existence and the rights of their fellow-men by bringing into the daily life the individual light of a justice, which is to be in all the world for all the time.

This true internationalism cannot be attained without the active and intimate co-operation of governments, parliaments, voluntary organizations, the press, the clergy, and above all, national Red Cross Societies. To the union of these forces must be added a supreme factor, the power of individual conviction. Every man, as far as lies in his power, must contribute to make peace permanent in the world.

The individual must no longer see the world in the light of his own selfishness, anger, fear, and human passion, but in a spirit of concord and mutual aid.

Thus only can a better future be prepared.

Faithful to the ideal which inspired its founders, and which it has ever served, the Red Cross hereby declares before the whole world, that its work does not end with war. The Red Cross appeals to the heart of all mankind, that each individual may find in himself the needed strength and determination to make and keep universal peace.

For the Joint Council.

The President, Gustave Ador, President of the International Committee of the Red Cross; Claude H. A. Hill, Acting Director General, League of Red Cross Societies.

Daily Fashion Hint

Coats Are Largely Trimmed With Fur

Figured Velvets Are Among the Season's Novelties—Oddly Ornamented Dresses

FOR OUTDOOR WEAR

One of the latest novelties for an outdoor coat, consisting of a sleeveless blouse and two-piece gathered skirt. It is developed in silk and wool jersey. A fancy leather belt holds in the blouse and the skirt which is trimmed with large patch pockets. There are tiny tucks at the shoulders and the backs are brought over and attached to the blouse fronts to form a yoke. Medium size requires 2 1/4 yards 48-inch material.

PRETTY BLOUSE OF CANTON CREPE

A blouse that has attracted much attention features a black and white combination, being of black satin with sleeve facing of white Canton crepe. Narrow bands of crepe finish the neck and bottom of the blouse, with the crepe set on the blouse at one side, forming a sort of foundation or background for the flower motif made of white patent leather. This blouse is the popular hip length and is a slip-over model, with sash belt tied at the back.

Novel sleeves are the principal features of blouses as well as other garments, and two-color combinations are in high favor.

Crope de Chine, Canton crepe and georgette are perhaps the most popular fabrics, with satin quite popular also. Sateen-faced Canton crepe is popular for blouses as well as frocks, the garment often being made of the fabric showing the crepe side and trimmed with facing of the satin side.

Sheer netts are popular for the more dressy blouses, with all sorts of embroidery and beading as trimming, and another very effective decoration consists of cabochons of celluloid in vividly contrasting color. These little plaques may be bought in the trimming department of most stores, and they are also sold in bead stores. Applying them is a simple process and they are a perfect boon to the home dressmaker.

In the line-up of semi-tailored suit blouses, those showing vests or waistcoats continue to be popular.

WHAT WOMEN ARE DOING.

With a bouquet of garden flowers by the Provost, Chapter, I. O. D. E. Thursday evening after the performance at the Orpheum theatre, Winnipeg. The flowers were arranged in a vase, and the bouquet was a gift from the Provost, Chapter, I. O. D. E. The inscription read: "To the distinguished daughter of the republic who is an inspiration to the world."

I. O. D. E. Provincial Meeting.

No less than nine Ontario cities were represented at the Provincial Executive meeting of the Provincial I. O. D. E. in Hamilton recently. There was a record attendance of twenty-one members, who gave most encouraging reports of the enthusiasm of members throughout the province for the coming season's work. Arrangements were made for the big provincial meeting in Hamilton on Oct. 15th. The executive were the guests of Mrs. Gordon Henderson at luncheon at the Tamahase Club.

Club for the Blind.

Winnipeg has a Club for the Blind called The Tux in Tenor. There is a Ladies' Auxiliary to this club.

Disapproved of Tagging.

Disapproving of the practice of allowing girls to collect money on the streets on tag days, the Central Council of Toronto and School Clubs, at a meeting of the executive, passed a resolution expressing their sentiment in the matter. The subject was brought up by Mrs. Rocco, principal of Birchcliffe school, who thought that the practice interfered with the highest moral development of the girls. It was decided to request other organizations to unite in opposing the custom.

Better Understanding.

Denmark has a custom that could be adopted in Canada very easily, states the Woman's Century. It is arranged by the Danish public school boards, and sends thousands of city children to be guests at farms, where there are also children, for part of their summer holidays.

Then at the fall and winter fairs and shows in the cities, the same number of country children come to be entertained in the cities. The railways carry both city and country children free. Denmark claims that this, besides being of benefit to all the children.

MAKE-OVER SEASON IS NOW WITH US

Fashions This Year Convenient for Ladies of the Needle—Applique Useful.

At this time of year the woman of limited income begins to look over her wardrobe of spring in hopes that there may be some garments she may be able to persuade into being used for another season.

The persuasion this year ought not to be a very difficult task, for fashion has been indulgent and what with her infinite touches of color and design, it gives a hopeful outlook for adding just that detail that marks a frock as new or passé.

Indeed, it is understood, are showing early evidence of being popular. Wide grained velvets with a brilliant shade of sateen or georgette, and boasting the long fringed ends that marked the gown of earlier season with such decided chicness, will again take their place in the front ranks of fashion's dictates.

Recently a well-known dressmaker who has made the making-over of slightly passe frocks her new work decided upon a very novel plan for making a serge frock that marked the last spring into a chic fall model, and at a very little cost. The frock was originally one of those popular models with underbodice, over which hung the loosely fitting bodice.

The serge underbodice was completely removed and a soft blouse in black ribbon was run through the slits at sleeve ends and neck.

The hem of the overdress was let down, and from the fold upward the skirt was cut in wide scallops. A facing of the dull red silk at the back of the scalloped bottom showed in occasional bits of color when the proud wearer sauntered along the avenue.

There is the wide Peter Pan collar, with bow ending, its rounded closing in front, to be taken into consideration as a charming, new accessory in bringing up the style of a frock to the moment of fashion's latest.

Many of the Russian style frocks may be made smart and new by opening the bodice straight down the front, folding back the surplus material to make a tuxedo effect and inserting a crisp organdie or gingham blouse to take the intervening space.

So, too, the georgette or satin frock dressy occasions may be rejuvenated! Remove all drapings; keep the lines simple and straight with the skirt kept long and even length, with the over skirt that was shorter last year; but do not allow your frock to retain that short overskirt and long under-drap effect. Reverse the lengths and make the skirt to be in style.

A grey georgette can be brought directly into the vogue of the moment by adding grey georgette panels opening the bodice straight down the front, folding back the surplus material to make a tuxedo effect and inserting a crisp organdie or gingham blouse to take the intervening space.

A navy blue georgette of yesterday may be remodelled by removing the broken bodice design and by substituting in their places round patches of jade green tulle attached in applique to the georgette frock. The wide crushed belt of georgette is moved, cut in half lengthwise to make it longer, and faced with the soft green tulle.

I'm So Tired

Fatigue is the result of poisons in the blood. So when the kidneys fail to purify the blood one of the first indications is unusual and persistent tired feelings and pains in the back.

GIRLS' LEMONS

WHITEN SKIN AND BLEACH FRECKLES

Squeeze the juice of two lemons into a bottle containing three ounces of Goshard White, which any drug store will supply for a few cents, shake well, and you have a quarter pint of harmless and delightful lemon bleach.

Massage this sweetly fragrant lotion into the face, neck, arms and hands each day, then hourly rub the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that soft, clear, rose-white complexion, as so as a frock, sunburn, and tan because it doesn't irritate.

1/2 cup thick white sauce.

1 cup bread crumbs.

1 egg.

Put the meat through food chopper; add seasoning, flour, salt and 1 cup of bread crumbs; mix well. Take a tablespoon into four hand crumbs. Fry in hot drippings or cooking oil. Drain on paper. Serve with tomato sauce or green peas. This cutlet can be prepared and breaded on Saturday and fried on Sunday.

IF YOUR EARS RING WITH HEAD NOISES

If you have ringing, buzzing noises in your ears, are getting hard of hearing and fear Catarrh of the Ears, go to your druggist and get 1 ounce of Parmit (double strength), and add to it 1-4 pint of hot water and a little granulated sugar.

Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should be open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone who has Catarrh of the Ears, or has head noises should give this prescription a trial.

Lloyd George being somewhat more used to having the world stare at him has had a considerable advantage over De Valera.

Every possible novelty that has been mentioned in connection with the new modes has been employed. Bead work, broderies in the most sanctioned beads, namely, crystals, wooden and cabochons, have been especially considered. The simplicity of the black dresses has been reduced to the desirable degree by tasteful uses of these embroideries. One attractive dress employed a border of white crystal beads in conjunction with royal blue cabochons, the crystals applied in draped lines. Another especially striking dress, and one that has been declared a marked favorite among buyers, shows borders of waistline and at the lower edge in amber colored crystal beads.
