At 8 o'clock a consecration extended to the delegates, and there. C. T. Phillips and G. Hartley, Fredericton, was a detailed account of the leagues grantly of such an organization was pointed out to be expecially designed by God to the control of the contro

of Christ.

Rev. Dr. G. A. Hartley said, as one of its organizers, he had watched the growth of the organization with keen pleasure, and felt that the trepidation which had existed before its organization need never have been. It was well now to ascertain if such a fraternity was adding to or deminishing the strength of the church, and to reconsider the objects for which it had been formed. One of these was education, the financial assistance given to young the financial assistance given to young clergymen, another was missions, and another assisting to help upbuild the great work for Christ now being conducted by the church forces. He felt that in all these, a good measure of success had come. Such a body as the F. B. Y. P. U., instead of possibly decreasing a church's strength, very decidedly assisted it, inasmuch, that several of the best workers in

his own church were members of the Union. One important thought he wanted to convey to the delegates was to impress them with the importance of having the element of permanency in the union so that when they returned to their homes, they would still retain the same interest in the work which they were pur

interest in the work which they were pursuing at the conference. In conclusion he wished them success and God speed.

Following Mr. Hartley's address came a solo by Mr. Hornsby.

The next speaker was Rev. Dr. Ray, who, in a brief address, gave the conference his earnest blessing, expressing the hope that the spirit being displayed by them now would remain with them after dispersing

ciation of the kindly and encouraging words which had been said by the prewords which had been said by the pre-vious speakers, and felt that the antici-pations of the delegates of hearty wel-come were surpassed. Since last year's conference many things had transpirat. Mistakes had been made, but they had sown good seed by reason of fruitful resown good seed by reason of truttul results drawn from experience. He wanted those present to take a fresh grip on the work and labor even more zealously for the cause of the Master and strive as He would have them do. They had not only assembled for His common cause, but were in such a position as to help and teach each other. He felt that in this age of general advancement the union must of general advancement the union must be foremost and in no wise allow itself be foremost and in no wise allow itself to slacken in energy or zeal. He wished to give them as a motto, that passage in Jeremiah's prayer: "There is nothing too great for Thee." He gave Biblical illus-trations of God's marvellous power, and in conclusion urged again the delegates to practice activity in Christ's cause. After President Rideout's address, fur-

tenths of the troubles affecting babies and young children are due to irritation of the stomach or bowels, and that when the cause is removed the child is well and happy.

Baby's Own Tablets,

San Francisco, Aug. 6.—The Selby Smelting and Lead Company has been robbed of \$280,000 worth of gold bullion, the thief securing nearly 1,200 pounds of fine gold, worth \$20 an ounce.

Thence they workel underneath the vault, and, striking upwards, bored a hole in the strong room floor. The hole was shaped like the manhole of a boiler. Part of the holes were bored two months ago, it is thought, and the last one was completed during the night. Through that hole they took the gold bricks and carried them to a bank near the mouth of the tunnel, east of the works, where they were evidently placed in a boat. In tueir years.
