**THE PETRIE MFG. CO. GUELPH, ONT**  
Ottawa, April 8th, 1908.  
Gentlemen—I am pleased to  
which I bought from you several months ago  
daily of forty cows. It has been very carefully and severely tested, and I am  
glad to inform you that it has given perfect satisfaction.  
It runs very lightly, cleans well, and separates beyond the capacity guaranteed  
by you.  
I have no hesitation in saying that Canadian farmers would find it to their  
interests to buy machines made in Canada, rather than those imported from  
foreign countries and assembled in Canada. The reasons are obvious and need no  
explanation. Yours very truly,  
F. W. HODSON (Live Stock Commissioner).

**Don't do yourself the injustice of ordering a Cream Separator without first having thoroughly investigated how strong and well made Magnet Separators are. No worm gearing, but all cut gears. They turn easy, skim clean, and are easily cleaned.**

## \$1.50 READING GLASS FOR 68c.

Only 3 dozen to sell at this price.  
We have just received a shipment of goods from Germany in which were 6 dozen extra large Reading Glasses that we bought to sell at \$1.00 each, but as they have arrived too late for this Season's business, we have decided to sell them off at cost price rather than carry the stock over till next Season. They will be found of great value in examining charts, bank bills to detect counterfeit etc., also in examining insects and pests of all kinds.
