International Tractor Service

WISER tractor buyers insist upon three features. The tractors must operate on the cheapest fuel a farmer can buy. They must be so simple that the farmer or his help can operate them. They must do enough good work in the field, and at the belt, to more than pay for themselves. Titan 10-20 h.-p. and International 15-30 h.-p. tractors meet all three of these demands.

One reason for the very satisfactory records these tractors make is the service our local dealers and branch houses give—a service that enables farmers to keep their tractors going whenever there is work to do. It includes all necessary instruction in the care and handling of the machines.

Keep this service feature in mind when you come to buy a tractor. It applies equally to our Titan 10-20 h.-p. and International 15-30 h.-p. tractors. There is such a demand for these tractors that we cannot promise better than spring deliveries on tractors ordered now. Send for catalogues now, make your decision soon, and you will have your tractor for the heavy rush work of early spring. Address the nearest branch house listed below.

Think of all the work this ALPHA GAS ENGINE would save you

WITH this simple, strongly-built engine you can saw wood, run a pump, cream separator, churn, washing machine, feed cutter or feed grinder, and save time and labor around your farm.

If you need a gas engine, it will pay you to buy a good one. An ALPHA costs little more to begin with than a cheap, poorly-designed engine, and will quickly make up for any difference in the first cost by the longer and far more satisfactory service it will give you.

The ALPHA is simple and durable in construction and is free from any of the complicated, delicate parts that make some engines a constant source of irritation and expense. You can operate it with either gasoline or kerosene, and it will develop its full published rating with a minimum amount of either.

An ALPHA is a saving investment any way you look at it. It will save the money you now must pay out to get done work that requires power, because you can own and operate it for less than it would cost you to hire some one with an engine, and it will do quickly work you are now doing by hand and give you more time to attend to other work. The sooner you get an ALPHA, the sooner it will pay for itself.

Ask for catalogue, prices and complete information. Made in eleven sizes, 2 to 28 H. P. Each furnished in stationary, semi-portable or portable style, and with hopper or tank cooled cylinder.

Fertilizers Pay Better Than Ever

TODAY a bushel of corn or wheat buys more fertilizer (potash excepted, of course) than at any time during the past three years. Note how much cheaper you can buy a 2-10 fertilizer now than before the war.

In terms of farm products, fertilizers cost less today than in 1914.

Fertilizers paid you then—they will pay you better now.

Fertilizers are today more profitable and more necessary to efficient production than before the war. Boost crop production, grow more per acre and increase your profits by using fertilizer.

Help both the railroads and yourself by ordering Spring Fertilizers NOW.

NORTHERN ONTARIO

Millions of acres of virgin soil, obtainable at 50c. an acre in some districts—in others, free—are calling for cultivation.

Thousands of farmers have responded to the call of this fertile country and are being made comfortable and rich. Here, right at the door of Old Ontario, a home awaits you.

For full information as to terms, regulations and settlers' rates, write to: H. A. MACDONELL, Director of Colonization, Parliament Buildings, Toronto, Ont. Hon. G. H. Ferguson, Minister of Lands, Forests and Mines.
