

Thorough Spraying With "VANCO" Lead Arsenate

will hold in check the Codling Moths, the potato Bugs and all the other leaf-eating insects that take such heavy tolls on your crops.

"VANCO" Lead Arsenate is sure death to the bugs, and it sticks so well that one spraying will retain its effectiveness far longer than if Paris Green were used.

It is easy to spray thoroughly with "VANCO" Lead Arsenate because it does not settle quickly in the spray tank, does not clog the nozzles, and shows so plainly on the foliage that you can tell when you have covered the whole tree or plant.

Price 10c. to 13c. per lb. according to quantity.

"VANCO" Spray Chemicals are High in Quality and Lowest in price. Made in Canada, by practical men, and offered on their record.

AMERICAN FENCE

Made of Hard, Stiff Wire,
of Honest Quality

Good Fences are a farm investment that bring the most returns for the least money

ARE you losing money? If you had a hole in your pocket, out of which you were losing hard-earned dollars, would you sew it up? The time has arrived when a fence around the farm is as much a necessity as a cultivator.

If you are feeding 60c or 70c corn to hogs in a dry lot, allowing good, green feed to go to waste on other portions of your farm, you have a hole in your pocket, out of which you are losing good, hard-earned dollars. Sew it up.

Look up an American Fence dealer and let him show you how a few dollars invested in fence will yield a big big rate of interest on feed saved.

American Fence is made of hard, stiff steel. It is made of a quality of wire drawn expressly for woven-wire-fence

purposes. Galvanized by latest improved process—the best that the skill and experience of years has taught. Built on the elastic, hinged-joint (patented) principle, which effectively protects the stay or upright wires from breaking under hard usage.

The real test of a fence is the service you get out of it. Test, judge and compare American Fence under any and all conditions, and you will find that the steel, the structure and the galvanizing are equal in durability, strength and efficiency to the hardest usage.

Have you received a copy of our illustrated Bulletin No. 600, describing

Waterous Steel Silos

Some people have the idea that a steel silo is unusually expensive, that it is difficult to erect, hard to keep from rusting, will attract lightning and will not preserve ensilage better than an ordinary silo of wood or cement. This bulletin has been written, not so much to advertise this silo as to convince you that these impressions are dead wrong.

We have printed in it a few letters from some of our last years customers that will be sure to interest you. If you are contemplating the erection of a silo, or if you would just like to know, send a post card for bulletin No. 600.

EUREKA Glass Tank Sprayer

Solution tank is a quart Crown glass jar. If broken, it can be easily replaced for a few cents. Solution tubes are brass. None of the liquid used can be drawn back into the pump chamber, thus the chamber and valves are uninjured. This is the easiest operated and the most effective small sprayer on the market. Inquire of your hardware dealer.
