Digging asphalt from Trinidad Lake

A roof is only as good as its waterproofing.

Knowing this, will you buy the covering for your roof on its "looks" alone, and not know what it is made of?

Genasco
the Trinidad-Lake-Asphalt Roofing

is waterproofed entirely with natural asphalt. In Trinidad Lake this asphalt has resisted blazing sun and terrific storms for hundreds of years. It has natural oils that give it lasting life in a roof despite the buffeting of rain, snow, sun, wind, heat, cold, and fire.

Man has tried to make lasting waterproofers—and always failed. Ordinary ready roofings show you what happens. They are made of mysterious "compositions" or coal tar; and they soon crack, break, leak, and go to pieces. Yet as for looks, they are mighty good imitations.

The life and backbone of Genasco is Trinidad Lake Asphalt—the natural everlasting waterproofer—and that makes Genasco last.

Genasco is made with mineral and smooth surfaces. Guaranteed, of course.

The Kant-leak Kleet waterproofs the seams of roofing thoroughly without the use of smeary unsightly cement, avoids nail-leaks, and gives the roof an attractive appearance.

Ask your dealer for Genasco Roofing, with Kant-leak Kleet packed in the roll. Write us for the Good Roof Guide Book and samples.

QUESTIONS AND ANSWERS.
Veterinary.

URINARY TROUBLE.

I treated mare for sprained back, from which she recovered. Now her urine is thick, and of a yellowish color. C. E.
Ans.—Give her six drams nitrate of potassium once daily until the urine becomes normal. V.

RE VETERINARIANS.

1. What income does the average veterinarian make?
 2. What would a good practice cost?
 3. How much would new instruments necessary to conduct a general practice cost?
 4. What education is necessary in order to enter a veterinary college as a student?
 5. How much would it cost? A. T.
- Ans.—1. Probably about \$1,500.
2. Good practices usually have to be acquired by merit and attention. They cannot be bought. A person may purchase a veterinarian's good-will, but this does not ensure the practice. When a practitioner wants to sell, he is usually satisfied to accept a fair price for his property, office fixings, drugs, instruments, horses, rigs, etc., and take, in addition, whatever he can get for his good-will, be it much or little.
3. About \$300, but a person can spend as much more as he likes on instruments.
4. In order to enter the Ontario Veterinary College, Toronto, a student must produce evidence that he has received an education equal to that which would admit him to a high school, or pass an examination in reading, spelling, composition, writing from dictation, letter writing, arithmetic and geography of Canada and the United States.
5. There are three sessions of 6 months each. The tuition fees are \$75 per session; board, \$4 and upwards per week; books, say \$100; subjects and dissecting-room fees, say \$100, and other expenses according to circumstances. A careful student may graduate at a total expense of, say \$1,500. V.

Miscellaneous.

MANGEL SEED PER ACRE.

Please inform me as to the amount of mangel seed used for planting an acre of land. I. S.

Ans.—If the land is in proper condition for germinating seed, and the mangel seed is fresh, four or five pounds of seed per acre are quite enough.

ETHEL G.

Is there a Standard-bred mare by the name of Ethel G.? If so, when was she foaled, and by what sire and dam? TROTTER.

Ans.—Ethel G. (Vol. 8, A. T. R.). Chestnut mare, foaled 1888, bred by J. D. Goodpasture, Mateland, Mo., U. S. Sire Robert Rysdyk 6060, dam Lady Westmount; sire Westmount 2580, dam Poll.

TUITION FEE.

What is right in the following: A man moved into a school section, being hired as overseer and gardener on an estate. He was only kept one year. The first six months the school had a teacher, but he sent his little girl to a kindergarten school in the town nearby, and others did the same. At midsummer, said school was closed for want of scholars, there being only two left who attended the school the six months before closing. These two were granted street-car fare and tuition fee in town school. Now, the said man claims fee for his child who never went to said school. Said man pays no taxes, and said he would not take said child away from kindergarten if the school was open.

1. Can he claim fees the same as were granted the two that attended the school before the school was closed for want of pupils?

2. Would the Trustees be justified in taking school money to pay said fee? Ontario. RATEPAYER.

Ans.—1 and 2. We think not.
