MOLIERE ELECTRIC VAPOR BATHS.

The first physiological effect of the Moliere Electrie-Vapor Batns is to perfect the perspiratory functions of the skin, to give a living and healthy cuticle, instead of the weak, diseased covering which the majority of people possess. The skin is thus fitted for imbibing the oxygen of the atmosphere, and giving off the carbon from the blood-two most important processes. To a person liable to take cold from exposure to slight drafts, the feeling of defiance to cold imparted by the Electric-Vapor Baths is one of the most striking results. In no diseases are the effects more magical than in Rheumatism and Gout In northern climates the functions of the skin are to a great extent dormant, and its purpose as an outlet for refuse matters of the system almost nullified by naction.
