London, April 26, 1883.—In the debate on Irish distress in the House of Lords on Monday, Lord Carlingford announced that negotiations were in progress for the transfer of a considerable number of fam-ilies from the West of Ireland. This is understood to refer to the scheme of the Canadian Government for emigration on a wholesale scale.

The feeling against this depopulation of the country is rising in Ireland, especially among the Catholic hierarchy and priesthood. Loud complaints are made that artizans are being tempted away from towns like Galway where a good demand for their services exists and from country districts which are already almost bare of

Lord Dunraven, in the course of a speech Lord Dunraven, in the course of a speech in which he strongly advocated emigration made use of arguments which in reality much weakened his own position. Thus, he quoted statistics disclosing the startling decline which has taken place in Ireland between 1871 and 1881. It appears from his figures that in that period three hundred and fifty thousand acres have gone out of tillage. Cattle have fallen off by seventy-two thousand and sheep by one hundred and ninety thousand. The value of the herring fishery has decreased from £350,000 in 1877 to £63,000 in 1881.

The debate has been already of grave injury to Gladstone who is greatly weakened by a series of small discomfitures. The irisi party maintam a steady pressure on the House and Grand Committees, and the session is already practically wrecked as far as the realization of the Government programme is concerned. The Parnell Testimonial now amounts to two thousand

C. M. B. A. NOTES.

Samuel R. Brown,

Dear Sir and Bro.—It is very pleasing to see the letters that have been published lately in the C. M. B. FRATERNALLY, Branch No. 3.

We, are pleased to be able to state that the C. M. B. A. was never in such a prosperous condition in Canada as at present, and since its introduction here, has never increased so rapidly in membership as during the past three months. Our Branches have the fullest confidence in our management. We would direct the attention of all our readers to the very able lecture on the C. M. B. A. Ass delivered by Rev. Father William of Chatham. This lecture appeared in our last week's issue. Every member of our asso-ciation must feel exceedingly grateful to the Rev. Father for the deep interest he manifests in the C. M. B. A. cause.

All classes are beginning to realize the necessity of some means to secure to their families assistance in case of their death. Life insurance is looked upon by many as a means of relief, but this ray of light is darkened by the knowledge that, its attendant expenses being so large, compara-tively few are able to take advantage of it; although it has done a good work, and we say nothing derogatory to Life Insurance Companies, yet, necessity demands something more within the reach of all our people, and this is supplied by the princi-ples of the Catholic Mutual Benefit Asso-By a small payment, called an assessment, about once a month, a member of this Association makes a provision of \$2,000 for his heirs. Lockport, N. Y., April 24.—The case of Bridget A. McParlin against the Supreme Council of the Catholic Mutual Benefit Association, tried yesterday and to-day in the Circuit Court at Lockport by Judge Lewis and a jury, was finished at 4 o'clock this afternoon by a verdict for the plaintiff for \$2,284.93, the full amount claimed, with interest. WELLS, RICHARDSON & Co., Burlington, Vt. York Central and Hudson River Railroad at Suspension bridge. The claim of the plaintiff in this action was that her husband was duly initiated in Branch No. 3 of Lockport in December, 1877, and regularly paid his assessments. Upon his death, July 30, 1880, a call was made for the attendance of the association at his funeral, when it was asserted by some of the members that Mr. McParlin was not a member of the association. The President of the Grand Council of the State of New York, then residing in Lockport, forbade the attendance of members at the funeral, and they did not attend. The branch of which McParlin was a member voted to allow the insurance to the widow, but the Grand Council of the State refused to allow it, placing its refusal upon the broad ground that McParlin was not a member. An appeal was made to the Supreme Council, but was ineffectual, for the reason that

Plutocrats.

The unusually large fortunes that are scattered around promiscuously by The Louisiana State Lottery Company are creating a race of plutocrats who succeed to the position held by those who made fortunes by contracts in the late unpleasantness, or who had soft corners in oil, wheat, whisky, silver, copper or gold mines, or wild cat raliroads or sinking vessels at sea with heavy insurance. HALL'S VEGETABLE SICILIAN Hair Renewer.

Seldom does a popular remedy win such a strong hold upon the public confidence as has HALL'S HAIR RENEWER. The cases in which it has accomplished a complete restoration of color to the hair, and vigorous health to the scalp, are innumerable.

Old people like it for its wonderful power to

restore to their whitening locks their original color and beauty. Middle-aged people like it because it prevents them from getting bald, keeps dandruff away, and makes the hair grow thick and strong. Young ladies like it as a dressing because it gives the hair a beau-tiful glossy lustre, and enables them to dress it in whatever form they wish. Thus it is the favorite of all, and it has become so simply because it disappoints no one.

POPPLEWELL'S PERFECT WORM SYRUP!

Worm Syrup, which, from its extensive use, Has Sared the Lives of Thousands of Children. The advantage of the Perfect Worm Syrup over all other preparations is, that it is strictly vegetable, and is not only the most certain in its effects, but is the most safe and pleasant, being free from Calomel, Castor Oil, and all other nauseous and deleterious ingredients. It is so pleasant that a child once taking it will ask for more.

It is so effectual that it is simply an impossibility for worms to remain when it is given so as to act freely on the bowels. as to act freely on the bowels. It is the best Alterative and Blood Purifier for Adults and Children, and particularly adapted to the

A Single Bottle has frequently destroyed from 100 to 200 Worms.

Worms may be suspected in children where there is emaciation, and especially weakness of the bowels, accompanied by discharge of slime or mucus.

The following are the more uniform Symptoms of Worms; they are also indications of other Diseases for which my Worm Syrup is a Sovereign Remedy for both Children and Adults;—

Adults.—
Rain in the joints; "all gone" feeling at the stomach, drowsiness, bad breath, picking at the nose, grinding of the teeth, a gnawing sensation of hunger, flashes of heat, chills or shivering, vertigo, disturbed sleep, startling in dreams, want of appetite, pain in the stomach or bowels, nausea, indigestion, costiveness, convulsions; and if relief is not speedily obtained death will ensue.

When any of these symptoms are noticed, lose no time, but as you value health and life, resort at once to the

esort at once to the PERFECT WORM SYRUP.

It destroys the Worms entirely, at the same time, by its cathartic principle, driving them out of the system without pain, thereby avoiding the necessity of administering Castor Oil, or other unpleasant cathartics.

Tape Worms, of 15 to 25 feet in length, have been expelled by the use of this Great Worm Medicine.

Table worms, of 15 to 25 feet in length, nave been experied by the use of this Great Worm Medicine.

Worms prevail mostly in Children but the frequent use of this Worm Syrup as a laxative and blood purifier by adults, has caused the expulsion of large numbers of Worms, where the cause of ill-health was not suspected.

Remember the Star Trade Mark, and take no other. There is nothing like it.

SPECIAL DIRECTIONS FOR USE:

For The Catholic R The Hemlock I sat beneath the hemlock sat beneath the hemlock
summer day,
When the lands beyond th
thirst and fever lay;
But on their leaves no trace;
were seen;
Heavenward they towered m
living green,
The suffering dumb creature
from the heat
Among the solemn shadow
round their feet.

I came unto the hemlocks, autumn morn; The frost was on the nut tree the corn:
In golden flames the maple
fast away,
And earth and air were laden

decay;
But changeless stood the touched by fire or frost
In all their strength unbro leaflet lost. Again unto the hemlocks I ca Again unto the hemlocks I ca were high, When sullen clouds were sw wintry sky: The snow lay in the valleys clothed in sheen; Still towered the dauntles robes of changeless gree The timid rabbit 'heath then winter home, And the little chirping snow here had come.

Once more I sought the hem
the spring time bright,
Green were the waving map!
bloomed in white;
But though from off the heml
dropped, I ween,
Tipped were the'r slender bra
of fairer green;
When winds were blowing so
skies were blue,
Trey woke to fallen beauty
change they knew.

O brave unchanging hemlo seem to me seem to me of the might church, the of the might skeltering translation of the shrinks of persecution he shrink nor fade; The autum wane of nation her has made; Faith's winter cannot van breath of foes; Greener, forever greener—'tis she knows.

The weakest of God's childre may find, may find,
Beneath her changeless
earthly storm and wind
She reaches o'er the mighty,
high estate,
Alike in all her beauty to great;
There all may rest securel,
change or loss,
In the everlasting shadow—
the cross.
