

## Suffered Terrible Pains

From Her Kidneys For Nine Months.

For Backache, Lame or Weak Back—one of the commonest and most distressing symptoms of kidney inaction, there is no remedy equal to Doan's Kidney Pills for taking out the stitches, twinges and twinges, limbering up the stiff back, and giving perfect comfort.

A medicine that strengthens the kidneys so that they are enabled to extract the poisonous uric acid from the blood and prevent the chief cause of Rheumatism.

Mr. Dougald A. McIsaac, Broad Cove Banks, N.S., writes:—"I was troubled with my kidneys for nine months, and suffered with such terrible pains across the small of my back all the time that I could hardly get around. After taking two boxes of Doan's Kidney Pills I began to feel better, and by the time I had taken three I was completely cured."

Price 50 cents per box, or 3 for \$1.25, all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Take care of the flock during the summer months. As with all other animals neglect at any season gives depreciated returns. If it is possible to give fowls wide range, very little feed may be required. In case it is necessary to have them closed in arrange to let them out regularly for a run about sundown. A little watchfulness will ensure the return of all to the pen.

People who use an incubator, say the authorities of the Minnesota Experiment Station, should not remove chicks from the machine until they are thoroughly dry. Colds at this time are likely to result in pneumonia and death. The brooder should be heated to ninety or a hundred degrees before the chicks are placed in it, and kept at about that temperature for a week, at least, when the temperature may be gradually lowered to a degree that barely renders comfort.

### MONEY IN POULTRY WELL MANAGED

"We should give to the poultry crop the same attention we give to any other crop. Get proper appliances, and the chickens will come along all right, in spite of a few days' rain. I have," said Prof. F. C. Elford, addressing one of the co-operative egg circles in Peterborough county, Ontario, "seen people buy an incubator, but no brooder, or put 100 chicks in a 25 brooder."

"Near Macdonald College is a lady who gets a gross annual return of \$300 from 40 hens. She gets the best price going because her eggs are good. She sells her flock of hens off once a year, and takes pride in having a nice, uniform flock."

Prof. Elford pictured an old-fashioned situation up in his native county of Huron, where the farmer's wife had to rummage a considerable part of a mile through a struggling row of ramshackle buildings to feed the hens. It took her as long to do this chore as to get the dinner. Result: Those chickens were fed about once a day, somewhere around ten o'clock. It was a common mongrel flock, and the returns—well, imagine! To-day, on that same farm is one of the best poultry-houses in the country, located close to the dwelling; only one breed is kept, and everything is up to the mark. Last year, \$1,500 worth of poultry produce was sold from that farm.

"Have things convenient, with the grain handy in barrels. From time to time have the hired man put a few bags of grain in the barrels; chalk down the grain when the barrels are filled, and charge it up to the hens. It takes about two minutes to clean out a hen-house, if done regularly. I stated that once in a meeting, and a lady replied that it took twelve months to get theirs cleaned."

"It is astonishing what a proportion of bad eggs get into commercial channels. Here is one way it happens. I have a poultry plant in Ontario, and an honest man in charge of it. He sent shipment of 30 dozen eggs to Montreal. I went in to the consignee to see how they had turned out. The candler looked up his report, and found that 18 dozen were first-class, 10 dozen stale, and two dozen rotten. Upon investigation, it turned out that my man had lacked several dozens to fill out a case, and accepted the offer of some from a couple of neighbors. They had conscientiously put the eggs, when gathered, in a nice basket behind the stove. The results were due, not to dishonesty, but to ignorance."

"I don't believe there has ever been such a demand for eggs as now. Prices have gone from 9 to 15 cents a dozen, and then on up, up, up. But consumers want the quality, and as soon as the article they want is produced in quantities, we can get the price."
