

Prophets of Modern Times

By HORACE WESTWOOD, D.D.
"Tolstoy the Russian Seer"—1828-1910

It is almost impossible to estimate how close is the relation between life and literature. Tolstoy's works, "The Cosacks" and "The Invaders," are the outburst of the

"Crisis" which was entered into the life of the Russian people. Tolstoy was not only a prophet of the future, but a prophet of the present. He was a man who lived and died for his people. He was a man who was not afraid to speak the truth, even when it was unpopular. He was a man who was not afraid to die for his principles. He was a man who was not afraid to be hated. He was a man who was not afraid to be misunderstood. He was a man who was not afraid to be alone. He was a man who was not afraid to be different. He was a man who was not afraid to be a prophet.

Leo Tolstoy

When Russia achieved her emancipation, she was not only a nation, but a people. She was a people who were not afraid to speak the truth, even when it was unpopular. She was a people who were not afraid to die for their principles. She was a people who were not afraid to be hated. She was a people who were not afraid to be misunderstood. She was a people who were not afraid to be alone. She was a people who were not afraid to be different. She was a people who were not afraid to be a people.
