

# INDUSTRIAL CORPORATION FOR CITY OF BELLEVILLE

## Directors Appointed Yesterday Afternoon—League Will Aid and Finance Industries—Business Men Consider Valve Proposition.

The Belleville Industrial Corporation is about to be organized with a capitalization of \$200,000 to aid in industrial development in this city. Mr. R. J. Graham will subscribe \$100,000 provided individual citizens subscribe \$100,000 more. The holding company will have the following directors—J. J. Graham, H. W. Ackerman, W. B. Deacon, C. M. Reid, W. C. Springer and Col. L. W. Marsh.

This was decided at a meeting of business men held in the council chamber yesterday afternoon. It had been called by Ald. Bone, who is tireless in his efforts to make Belleville's future assured.

The meeting was unanimously in favor of the formation of a holding company with this purpose in view. It was largely attended.

There were present Mr. L. S. Denyes and Mr. Jenks, of St. Catharines who brought to the citizens' consideration a valve proposition.

Mr. Robert J. Graham was voted to the chair. The chairman was very optimistic. There is an opportunity to get industries. Present were several gentlemen willing to start industries here.

Ald. Bone, chairman, explained that Graham Ltd. had put \$25,000 into a flour mill proposition and was considering investing a like sum in a machinery business for this city. The Graham Co. has put \$30,000 into the Teko proposition for manufacturing. More money is needed. My idea is for the citizens to form a company—The Belleville Industrial Corporation.

Graham Ltd. proposed putting \$100,000 into it and the citizens putting another \$100,000. He suggested the capitalization of the corporation at \$200,000 and that four directors be appointed, two being Mr. Graham and Mr. Ackerman. They could fully investigate every proposition.

Mr. Graham said this scheme had his endorsement. Belleville needs industries. During the last six weeks this city lost an industry. Mr. Denyes, a native of Thurrow, has control of a valve for auto tires. Mr. Carlisle of the Goodyear Co. said if the valve could be manufactured in large quantities they would buy a large number. The new valve has proven good.

Mr. Denyes said the valve was not new. It was invented in Kingston by a Mr. Wood. It has been under test for four years. Mr. Graham had subscribed the company money into the proposition. The directors of the company have however given consent to have the industry come to Belleville if satisfactory arrangements can be made.

## U. F. O. Candidate for P. E. County Retires

Clarence Mallory Disqualified by Having Been Referendum Enumerator

A surprise has been sprung in the election situation in Prince Edward by the announcement of the withdrawal of Clarence Mallory, Ontario farmer nominee, from the contest. Upon the advice of his solicitor and the legal adviser of the U.F.O. Mr. Mallory has decided to decline the nomination. The legal opinion expressed was that he could not legally remain a candidate having been enumerator for the voters' lists for the election.

The following letter from Mr. Mallory explains his position.

Editor Ontario—

Permit me through the columns of your paper to explain to the electors of Prince Edward county my reasons for resigning the nomination of the U.F.O. for a seat in the Provincial Legislature. As you know I was appointed an enumerator to prepare the lists in Polling Sub-Division No. 2, Hallowell, under the Referendum Act. Previous to the mass meeting at which I was selected, I communicated with the legal advisers of the Mail & Empire, but receiving no reply to my question regarding the matter in the legal columns, I accepted the nomination. A few days after this I heard that the question was being raised whether I was eligible or not, and I took the matter up myself. My solicitor, laying the entire matter before him and received the following reply:

"In my opinion if the fees for your services as enumerator are paid before your official nomination as candidate, there can be no objection to your being a candidate at the next Provincial election."

I therefore supposed the matter was closed. But the Mail and Empire of Sept. 27 contained an answer to my question which I submitted to them on Sept. 8th, and held that I was not eligible. Not feeling satisfied with the matter yet I sent on Sept. 29, the following telegram to the legal adviser of the U.F.O. at Toronto:

"I acted as enumerator, preparing lists for Referendum. Does this disqualify me from accepting?"

The company has been promised one-third of the business of Canada and would get perhaps one million valves. The valves can be manufactured for 8 to 11 cents and sold to tire companies at 38.21 cents each. There is only one competitor on the market. One of Mr. Graham's cars is equipped with the valves. It has run without a cap.

The company has a high pressure valve with peculiar merits of being absolutely air tight. The profit percentage is very satisfactory.

The industry would employ quite a number of employees. Mr. Jenks, of St. Catharines said he had carefully investigated the proposition. Tire companies he found were willing to use the valve. They would want a guarantee of ability to supply in large quantities. Manufacturing would have to be done on a large scale. The company would have to have half a million valves in stock before they could approach the tire companies. The H. A. Wood Co. is able to manufacture.

Mr. Graham said Mr. Springer had examined the valve and said it could be made with automatic machinery. Belleville has advantages other cities have not got—absence of strikes and cost of labor.

Mr. A. F. White stated that the valve appeared to be a good one.

Mr. Denyes said it is estimated that it would require a capitalization of nearly \$300,000. That was the advice of the tire companies. That was why the large capitalization was necessary—to be able to manufacture in unlimited quantities.

Mr. Graham said the company had sold \$75,000 stock. Mr. Denyes said if \$100,000 was subscribed in Belleville, the firm could locate here if this he would put in \$25,000.

Mr. Ackerman said much money of Belleville was going out of the city to develop other cities. He was willing to help in developing Belleville but other men must bear a share of the burden of responsibility by investing.

Acting Mayor Woodley said: "It looks as if we are going to land three industries for Belleville in the near future." He praised Mr. Graham's interest in civic affairs. The mayor was willing to bear his share. He saw no reason for Belleville not developing.

Mr. R. Tanahill, manager, said local industries seemed to be flourishing.

Mr. J. Elliott declared that he was willing to subscribe \$1,000 to the holding company. "Let us begin here," he said.

Mr. S. Burrows also took part in the discussion. The merits of this proposition will be considered by the directors of the holding company.

nomination for seat in Legislature? Legal adviser, Mail & Empire says it does; see Saturday's issue. Wire reply."

On the same day I received the following reply:

"Fear you are not eligible. Advise you to decline nomination—Legal Adviser, U.F.O."

As this seemed to settle the matter, on Sept. 30 I handed my resignation to Mr. R. Ireland, County President U.F.O.

Yours truly, Clarence Mallory

City Secures New Concern

"Judge Jones Milling Company" to Start Operations Here

Belleville has secured a new industry thanks to the efforts of Mr. R. J. Graham and Ald. J. Bone, namely the Judge Jones Co., Ltd., which will manufacture flour and cereals. Mr. Bone announced yesterday afternoon that the Graham Ltd. has invested \$25,000 in the business. It will occupy a large building near the G.T.R. station, owned by the Graham Company. This was built for the Fruit Machinery Co., but the latter took over the Walker Foundry. A large elevator will be erected along the tracks. The milling concern will employ fifteen or twenty men. The Judge Jones Co. have a mill and elevator in Montreal but the local concern will be separate and distinct.

Several other industries are likely to be secured in a few weeks' time. The Elliott Wood Working Machine Company concluded this morning an agreement by which this company will come to Belleville. It is expected the company will start operations in a month.

A tentative agreement was made this morning with the company which is proposing to come to Belleville and manufacture tire valves and high pressure valves.

The "Belleville Industrial Corporation" is busy today selling shares in this holding company, shares bringing \$10 each. This corporation expects to raise \$200,000. A paper company is looking for a location here.

A large English manufacturing company is hoping to find a block of 25 acres of land in Belleville on which to start a plant.

## Two More Sent Up For Trial

Hearing in Logan and Summers Charges Concluded

John Logan and Matthew Summers were yesterday afternoon in police court committed by Magistrate Mason for trial on a charge of stealing on Sept. 13, 1919 a quantity of liquor from a car in the G.T.R. yards in Thurrow.

Mr. Abrams, night operator in the yard office, being sworn, testified that he knew Summers. On the morning of Sept. 13 at 2 or 2.30 o'clock Summers came in and asked if he could have the loan of Abrams' car to take a sick pal home. Witness said if he knew anybody who could run the car, he would lend it. Summers went out and did not take the car. Half an hour later Mr. Abrams saw the car still there. Ten minutes later going outside, he found the car gone. He came back to the office and went on with his work. It was still gone half an hour later. The car was back at day break. Witness did not know who had taken it. It may have been gone an hour. He did not think Summers could drive a McLaughlin car.

Harry Elvidge who was yardman's helper but is not in the G. T. R. employ was next called. Matthew Summers was his superior. He knew nothing of the theft of the liquor. The car was to be shifted to the car-house siding. This occurred between 2.30 and 3.00 o'clock on Saturday morning. He did not know of the car having been tampered with before that. Summers between that time and morning was working up and down the yard. They were not together all the time, but he hardly thought Summers could have been away for half an hour at a time.

"Did you see any boxes looking like whiskey boxes on the engine?"

"No sir."

G.T.R. constable B. B. Harris, testified that he discovered at 4.30 p.m. Saturday the jars along the track.

## Trenton Organizing a Choral Society

Will Have Up-To-Date Musical Circle in Short Time—Boon Among Royal Templars—Preparing for Evangelistic Campaign (From The Ontario's Special Correspondent.)

Trenton, Oct. 2. About thirty of the most enthusiastic young people of Trenton's musical circle, met on Tuesday evening in the Assembly Hall of the High School to consider forming a choral society. It was decided to meet next Tuesday evening to finish all business in connection with officers and selection of music. This adds one more stone to the building called "Community Spirit."

Mr. Bell, organizer for the Royal Templars of Temperance arrived in town today and will continue his work until Friday. The Templars desire a very great deal of credit, as during the past year they have had two Silver Medal Contests. The first, which was held in the parlors of King St. Methodist Church, and was won by Miss Amy Asselstine, was a decided success. The second, which was held in the parlors of St. Andrew's Presbyterian Church, and was won by Miss Beatrice Huffman, was equally good. We wish for Mr. Bell unlimited success. Let us put forth every effort to help the Templars, even if we don't belong. It is a worthy cause.

Rev. L. M. Sharpe, of Rednersville is in town organizing an evangelistic campaign to be held some few weeks later. Pastors and representative laymen from all the churches are in conference at the St. Andrew's Presbyterian church this evening. Mr. Sharpe is an efficient organizer.

Mrs. W. Simmons was in Belleville today.

Mr. and Mrs. C. W. Saylor have returned from Toronto.

Mr. and Mrs. Wm. Skitch, of Lindsay, who have been visiting their son, Mr. Albert Skitch for a few days, left for their home this morning.

## CANADA MUST FULFIL HER WAR OBLIGATIONS

### Industries Must be Kept Going and Markets Found for Manufacturers and Farm Products.

Before the war Canada never dreamed that its citizens could be called into the spirit of co-operation to the extent they did during the war years.

There was a definite object in view and to that end the people of the Dominion, irrespective of former class prejudices, gave their all. They contributed their men, their money and their service.

And now that the war is ended and victory is here, is that fine spirit of co-operation to be allowed to disappear; are we going back to our old selfish ways? No, we are not.

Because there is still need of co-operation, of mutual endeavor toward a common end. Canada needs more money. In the wake of the war years new problems, gigantic and pressing, have come to confront us and to demand our attention.

The country must fulfil the obligations contracted during the war;

Carries Canada's Name Throughout the World

Remarkable Achievement for Purely Canadian Concern.

As evidence of the way in which one enterprising Canadian firm has pushed the sale of its product into the corners of the earth, it is interesting to know that the "Salada" Tea Company sell their product not only through the United States, but in France, Belgium, Spain, Portugal, Canary Islands, Algeria, Morocco, The Gold Coast, China, West India, Island, Mexico, Cuba, British Honduras, Guianas, Columbia, Venezuela, Brazil, Paraguay, Chile and the Argentine.

They have lately made a large shipment to Iceland, and have received inquiries from Egypt, Bulgaria, Czechoslovakia, Turkey, Norway, Alsace, Switzerland, Peru, Denmark, Sweden, etc., etc.

The teas shipped to these countries are exactly the same quality as you buy under the same familiar labels in any part of Canada or the United States. The popularity of this tea during the past century has made "Salada" a household word in America.

Thirty Thousand Soldiers Reported as Not Employed

Ottawa, Sept. 29.—Retraining and employment of former members of the Canadian forces were the problems before the special committee of bill number 10, on soldiers' civil re-establishment today. The committee held three sessions and the employment question held attention most of the day.

Private employment bureaus and other organizations which divert a certain amount of labor from the existing government bureaus, make conditions much harder to handle. Bryce L. Stewart, of the employment branch of the federal department of labor stated. He outlined the conditions in the various provinces and said that on the whole, the prospects for this winter in regard to employment were such that in a normal year they would not cause any anxiety. There is, however, an apparent uneasiness in every mind, and this would cause people to feel somewhat more anxious than usual.

The committee was also told that there are over 30,000 returned soldiers in the Dominion who are at present unemployed. These figures were supported by Major L. L. Anthes, director of the information and service branch. D. S. C. R. Major Anthes gave the figures by provinces as follows: Ontario, 12,090; Manitoba, 4,151; Nova Scotia, 4,025; British Columbia, 3,850; Quebec, 3,244; New Brunswick, 1,500; Saskatchewan, 568; Alberta, 450; P.E.I., 450.

Husbands Sudden Wealth Altered Wife's Divorce Plans

Jackson, Mich., Oct. 2.—Up until Wednesday of last week Leroy Wygant was the driver of a coal wagon in this city, but now he is on his way west to claim two big estates either one of which will make him immensely rich.

On Tuesday he received word that an uncle had died in Oklahoma, leaving him property valued at \$400,000. He had not yet recovered from the shock when he received a second message that he is also heir to 1,400 acres of valuable oil land in Texas. Wygant did not quit his job on the coal wagon until Friday, stating that he desired to give his employer time in which to find a man to take his place.
