

LABOR PICNIC DEFEATS RAIN

Down Pour Which Threatened
All Day Not Enough to
Stop Celebration

FINE MORNING PARADE
Speeches, Sports, Races, Dance
Drew Good Crowd
to Grounds

Today's day passed off very successfully here with a big parade in the morning and a full day of sports and speeches in the afternoon. Rain dampened but did not drown the proceedings although the night performance was interfered with seriously by the downpour.

The day's proceedings got well away to a start with the parade in the morning and the streets were lined with interested spectators. The weather then was all that could be desired.

In the afternoon despite the counter attraction of the fair, the crowd at the St. Michael's picnic grounds was a sizeable one and it kept growing all the afternoon. There were races for the children and these were not only keenly contested but were watched zealously by parents and friends.

Controller Cameron of Ottawa and Mr. Curtis, travelling representative of the Steel Workers' Union, were the principal speakers of the day and their message was that the workers were to stand by, but that it was not fair that they should be blamed for the high cost of everything. Building for instance. It was the popular thing nowadays to blame the workers for the high cost of materials. This was easily disproved. There were more piles of lumber and other things that went into a building, standing untouched today than ever before, and they were standing idle because the capitalists sought to keep up the price of such things, not that the wages were the chief drawback. These remarks were roundly cheered.

The Belleville football team won from Trenton and the Belleville baseball team lost to the St. Francis team of Toronto.

Those in the parade were: M. O'Leighan, Marshal; Brass Band of the Argyll Light Infantry; Mayor Hanna and President George Foster of Belleville Trades and Labor Council; Carpenters' Union; Belleville Lodge, International Association of Machinists, 15545; Machinists, 779; Mail Carriers, Plumbers, Potters, Foreman, Oilers, Maintenance of Way Men, Metal Polishers Union; International Brotherhood of Carmen Federated Union, 17314; Boy Scouts; Association of Iron, Steel and Tin Workers, No. 6; Bay of Quinte; Motors and Trucks.

The refreshment booth in charge of Mr. Sanford was a popular place and the fine dancing pavilion was well patronized all the afternoon and evening—it was a good place to dodge the rain. Very tempting music was provided by a local orchestra.

The prizes follow:

VALERA GROWS BOLDER
Impossible to Say Now if War-
fare Will Not be Renewed
Shortly

LONDON, Sept. 6.—The Prime Minister, Mr. Lloyd George today held conversations with members of his Cabinet and civil and military authorities in Ireland, relative to the situation which has arisen as a result of the latest note to the British Government from Eamonn de Valera, Irish Republican leader.

The Prime Minister met his colleagues in Galway near Inverness, Scotland, where Mr. Lloyd George has been spending a brief vacation.

It was believed that the Irish situation would be talked over, preliminary to a meeting of the Cabinet, which will convene at Inverness tomorrow.

Valera's Refusal.

LONDON, Sept. 6.—De Valera's reply to the Lloyd George note of August 28 is an "irrevocable rejection" of the terms handed the Irish president at the close of the London parley.

De Valera renewed his expression of willingness to continue negotiations, which both as to general peace terms and details, shall be conducted on the guiding principle of government by consent of the governed.

It is absolutely impossible at this stage to say whether the British Government will renew the parleys, or send an ultimatum to do Valera, bidding him to accept the existing proposals or prepare for a renewal of warfare.

Valera's Butter Joke.

DUBLIN, Sept. 6.—Eamonn de Valera, Irish Republican leader, in a statement to the press today alluded to the British imperial statesmen as trying to sell Ireland second-rate political margarine and is angry because Irishmen refuse to accept the butter label.

He added, "Ireland wants butter, but she will not be deceived into thinking she has it until it is actually delivered."

Could Not Send Army on Pacific; Therefore, No War

LONDON, Sept. 6.—Premier Lloyd George's visit to the United States is not likely to last longer than three weeks, in the opinion of Downing Street, regardless of American reports that the Washington conference on affairs in the Far East will probably last for two months.

It is pointed out that none of the principal British or continental delegates could remain so long on United States soil, and it is therefore assumed that the real business of the conference will be hastened to enable the Britishers and Frenchmen to return to their respective countries, leaving the details to be worked out subsequently by other delegates.

The Daily News today declares that one of the most hopeful omens for the success of the conference is the realization by experts of this fact that in a war between the United States and Japan, neither side could be victorious.

It says that in the opinion of the ablest authorities of the British navy, there could not be an effective invasion by either side because of the inability of either nation to transport troops 8,000 miles across the Pacific.
