**A REMARKABLE MAN AND A UNIVERSAL REMEDY FOR DISEASE.**

This city is now the home of one of the most remarkable men of the age—a man who has traversed the civilized globe, and established in almost every country which he has visited, the sale of his medicines for the relief of human suffering, and which are a certain cure for disease in all its forms. We allude to **PROFESSOR THOMAS HOLLOWAY**, of London. It is now several years since this benefactor of the human race first proclaimed to the world, through the British press, that he had, after deep research, prepared a remedy that was sure to eradicate disease. Years of patient investigation into the laws of human physiology which control our bodies in health and when diseased, led to the invention and preparation of the world renowned **HOLLOWAY'S PILLS** and **ointment**. Nearly, if not quite, one half of the human race have taken his medicines! His name is as universally known over the globe as that of Alexander, Napoleon, or Washington, when in the height of their ambitious career. If they conquered nations on the field of battle, professor Holloway has, with no weapon but that of science, conquered disease in all its forms. His meritorious career is bounded by no imaginary lines of latitude and longitude short of those marking the confines of civilization itself. No isolated country or nation was sufficiently extensive for the operation of his enterprising and gigantic intellect. Wherever disease has a residence, there he has penetrated with his medicines, and left an enviable and enduring reputation. After enlightening Europe, his fame spread over Asia, and the civilized portions of Africa, and finally appeared in America. He has translated the cures he has performed, and the virtues of his medicines, into as many languages as the missionaries have the Bible. Governments, otherwise the most despotic, have been forced by the great value of his medicines, and their popularity with the people, to remove antiquated, and time-honored restrictions upon the introduction of foreign medicines, and open their custom houses to a free introduction to the **Pills** and **Ointment**, of this distinguished man. Empires and kingdoms removed the barriers of ages against the introduction and sale of proprietary or patent medicines, and freely permitted Holloway's medicines to become the physician of the masses.—*N.
