

## PRISONER HELD UP COURT WITH REVOLVER

Judge, lawyers, policemen and spectators were sent scurrying to cover in the criminal court at Washington, D. C. on Monday, when Ray M. Stewart, aged 18, fired three wild shots in an attempt to "shoot up" the court. At the first crack, Justice Stafford disappeared beneath his desk, and out in the court room there was a wild scramble for places of safety. Some sought refuge under tables or behind heavy chairs, and others, frenzied by fear leaped into windows and dropped to the ground, some fifteen or twenty feet below. Justice Stafford had refused to release Stewart on probation, after conviction for attempted highway robbery. The boy whipped out a 32 calibre automatic pistol and fired three shots, two of which narrowly missed Attorneys Hawken and Given, and policeman Moffat. He was in the attitude of turning towards the judge as if to shoot, when a witness sprang upon him and choked him into insensibility. In the confusion that followed many thought that Justice Stafford had been struck by a bullet, but the judge emerged from his haven without a scratch. Stewart had been convicted recently of holding up a negro in a Washington suburb last December. He had applied for probation as a first offender and Judge Stafford had been hearing the testimony of witnesses for and against the application.

## UTILIZING WOOD WASTE

Perhaps the most interesting development in the manufacture of wood products has arisen in the increasing variety of uses to which wood waste can be put. Beginning in the forest the closer utilization of the various wood-products can be traced through the saw-mills and large wood-working industries, right down to the firms working only in small specialized lines.

It is now commercially possible to reduce the fifty to sixty per cent waste formerly left in the woods by the lumberman to no more than five per cent, by a combination of three well-developed chemical industries, namely, paper-making, wood-distillation (in a modified form) and the manufacture of resin oils. Practically all the valuable constituents from the stumps, tops, branches and defective stems which would otherwise be left to rot in the forest are thus converted into useful commodities.

The utilization of mill waste is being made increasingly possible by the developing markets for old and short lengths in lumber, instead of a few assorted sizes. Many saw-mills use their waste products in the manufacture of laths, mouldings, pickets, roller-blinds and paving-blocks. The manufacture of wood-pulp from the small waste-wood now being fed to the burner is also a commercial possibility. Even saw-dust has its uses, and in countries where more intensive utilization prevails it is being successfully manufactured into a variety of products. Several plants have been erected in this country for its manufacture into ethyl (or grain) alcohol, sugar and briquets for fuel.

The bulletin now being issued by the Forestry Branch, Ottawa, on the Wood-Using Industries of Ontario, throws considerable light on the utilization of wood-waste. Sash and door factories sell or use their short ends and trimmings for the manufacture of boxes, baskets, bobbins, butter-moulds, insulator pins, novelties, skewers, spindles, spoons, stakes and wooden-ware. They bale their common saw-dust and sell it for floor covering for the manufacture of composition novelties, and for clearing screws. They sell shavings for bedding, packing and for drying wet land. Hickory and other hardwood waste is sold for smoking meats. In fact, just as the pork packers boast of using all a pig but the "squeal", so wood manufacturers will soon be able to boast of using all the wood but the bark—and even that, in the case of some woods, such as hemlock, is of considerable value.

## MARRIED

On the 26th June at the residence of Mr. and Mrs. Lingley parents of the bride, by Rev. Dr. Harrison, Charles P. Stothart to Miss Eleanor A. Lingley both of Newcastle, N. B.

At the Happy Hour on Friday and Saturday "The Sergeant's Secret." A thrilling war drama.

**PNEUMATICA STOPS YOUR PAIN** or breaks up your cold in an hour. It's marvellous. Applied externally. All Druggists.

## FRENCH PRESIDENT GUEST OF THE KING

At Buckingham Palace, where He is Being Entertained with Regal Splendour

President Raymond Poincare, of the French Republic, was entertained by the King at the state banquet on Tuesday night with as great a display of pomp and magnificence as was ever shown a royal guest at Buckingham Palace. Early in the morning President Poincare had been greeted at Portsmouth by the Prince of Wales, and later at Victoria station by the British Sovereign. The French presidential party proceeded from Portsmouth to London on the Royal train, and passed through long lines of soldiers and crowded streets lavishly decorated, cheered by thousands.

At the state banquet, the famous Windsor Castle service of gold plate was used. The floral decorations were profuse, being so designed as to show the tricolor of France on every hand. Yeomen of the guard in quaint medieval costume were posed around the spacious chamber, serving as a picturesque background for brilliant uniforms and gorgeous jewelled toilettes.

The President of France sat between King George and Queen Mary at the centre table, at which were seated also other members of the royal family and the ambassadors. The other guests numbering about one hundred occupied thirteen tables. The King, in proposing President Poincare's health, referred to the cordial relations between France and England as the great factor in the preservation of European peace.

The President made a felicitous response in the same strain.

## SUNNY CORNER

Misses Nellie and Della Hyland are visiting at Trout Brook.

Mrs. John Matchett was in Millerton the guest of her daughter, Mrs. Clouston a few days last week.

Miss Jennie Curtis has returned from the United States to spend the summer at her home here.

Mr. John Wilson of New York is the guest of his old friends, Mr. and Mrs. Charles Mullin.

Quite a number of our young men went to camp Sussex on Monday.

Miss Nellie Powers spent a few days at Mrs. Patrick Curtis's last week.

Miss May Johnston was in Redbank one day last week.

Mrs. Edw. Menzies and son Allan spent Sunday with the former's sister, Mrs. Allan Tozer.

Miss Margaret Hynes has gone to Millerton for a week.

## BABY'S OWN TABLETS HIGHLY RECOMMENDED

No medicine for little ones is so highly recommended as is Baby's Own Tablets. They are guaranteed by a government analyst to be absolutely safe and besides that, thousands of mothers throughout the land praise them as the only sure cure for childhood ailments. Concerning them Mrs. Edward McDonald, Dorchester, Que., says: "I can highly recommend Baby's Own Tablets to any mother who has a baby suffering from constipation or 'ething troubles.' The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## PRINCESS MARY'S WILL

Rather a Self-opinionated Young Lady is King's Daughter

Princess Mary is said to be the most determined lady in the royal household. Her Royal Highness is fast growing up, and she is forming her own circle of friends and her own manner of life.

The one point of dispute between her and the Queen is her hair. Princess Mary dislikes to have it falling about. The Queen will not allow it up, but a compromise was reached. Princess Mary usually ties it back in a small thick plait doubled up at the neck with a ribbon.

The King is amused at his daughter's strong will, which seems likely to overrule even that of the Queen's.

Among her girl friends are Lady Rachel Capell, the elder daughter of the Countess of Essex; both of Lord Curzon of Kedleston's daughters, and Mrs. George Keppel's second daughter. A very special friend of the Princess is Lady Rachel Capell, of whom both Queen Mary and Queen Alexandra are very fond.

## WOOD BLOCKS AS AN ECONOMICAL PAVING

The paving of city streets with wood is again coming into favour, new methods of laying the pavements making this one of the most satisfactory of pavements. Vancouver's pavements are largely of the same material. Eighty-two per cent of the new paving in Minneapolis is wood-block, and Saskatoon and other Western towns are giving the wood-block the preference.

Best results are obtained from rectangular-shaped blocks cut from Southern or Norway pine which are thoroughly seasoned and cross-cut. This latter process not only lengthens the life of the wood but reduces its absorptive capacity for water, thus preventing the weakening of the wood fibres and reducing its tendency to buckle. The most approved method of laying this pavement used in London, New York and other large cities, is to first make a concrete foundation four to six inches thick on which is laid a thin layer of sand, or better still, of moist Portland cement, into which the blocks are closely set.

The blocks are from five to nine inches in depth and must be free from defects. Care must be taken to place them with the grain perpendicular to the roadbed. If laid with the long edges at right angles to the curb the joints are apt to become worn by the calks on the horses' shoes, so to prevent this and to best provide for possible expansion, the paving is laid at an angle of about sixty-seven degrees with the curb. The joints are usually filled with ground cement and the surface of the paving is then covered with a thin dressing of coarse sand, which beds into the pores of the blocks and roughens them.

Such a pavement has the smoothness of asphalt and will last almost without repair for fifteen years under ordinary conditions. It is sanitary, noiseless, easily kept clean and has a certain springiness lacking in asphalt, and so is much easier on horses' feet. Expert labor is not required in its laying and the cost of maintenance is practically nil, so that from the standpoint of cost as well, it compares favorably with the asphalt, macadam and brick now being used in Canadian towns and cities.

The manufacture of wood-blocks for paving would furnish sawmill owners with a means of utilizing the many defective logs of Norway pine left for saw material, and, could a steady market be developed, much of the waste in connection with present lumbering and milling operations could be avoided.

But you can't always get inside information from a middle-man.

In the human race the fat man has more than a slim chance.

No, Alamo, a peroxide blonde isn't light on her feet.

## NOTICE

Notice is hereby given that the Assessment List of the Town of Newcastle remains in my hands as collector and receiver of taxes.

All persons whose taxes remain unpaid at this date are defaulters, and payment will be enforced without delay.

J. E. T. LINDON,

Town Treasurer

June 24, 1913.

## TENDERS

SEALED TENDERS addressed to the undersigned will be received up to and including Monday, the 30th June, for the erection and completion of the super-structure of St. James' Sabbath School Building, according to plans and specifications which can be seen at my private office after Monday the 16th inst.

The lowest or any tender not necessarily accepted.

E. A. McCURDY,

Chairman Building Committee.

NOTE—THE TIME FOR RECEIPT OF THESE TENDERS HAS BEEN EXTENDED UNTIL MONDAY, 7TH JULY NEXT.

E. A. McCURDY,

Chairman of Committee.

## DOMINION DAY FESTIVITY AT RENOUS

Preparations are now complete for the Two Days' Grand Picnic and Bazaar,

JULY 1st AND 2nd

One of the chief features of both days will be dancing in a water tight roofed pavilion 50x120; also games of every conceivable description will be provided, such as:

Tug-of-War between Millerton and Blackville  
Baseball,  
Sack Race,  
Palmistry,  
Putting the Shot,  
One Hundred Yards Dash  
Archery for Ladies, etc.

## TRAIN ARRANGEMENTS

Excursion Rates on all trains from North and South, also on the Fredericton Division of the N. E. R.

On Dominion Day an Excursion Train of Twelve Coaches will leave Newcastle at eleven o'clock a. m., and will arrive at Renous in time for one of the most elaborate festive boards that land and water can afford. The Second Train will leave Newcastle at 4.30, on the arrival of the Ocean Limited, and will arrive at Renous in plenty of time for Supper.

Excursion Tickets, good for three days, will be issued from Fredericton and all intermediate points, and from Loggieville, Chatham and all intermediate points to Renous, on Dominion Day. Picnic will close at 9 o'clock in the evening on Dominion Day.

## SECOND DAY—JULY 2ND

Festivity will begin at five p. m. and will continue all night. An Excursion Train will leave Newcastle on July 2nd at 4.30 and will reach Renous at 6 p. m., in time for supper. This train will leave Renous, returning to Newcastle at 3 o'clock a. m.

To accommodate those from Blackville and intermediate points on the second day, July 2nd, a Special Train will leave Blackville at 7.30 p. m. for Renous and will return to Blackville at 2 o'clock a. m.

An Excursion train will leave Renous both days at 10.30 p. m. for Newcastle.

Meals will be served on the grounds at popular prices. McEachren's Orchestra will be in attendance both days.

THE BIGGEST EVENT OF THE SEASON.

## A PRIZE

If you have not yet decided on a Prize for the Grade in School in which you are most interested,

Why not Consider A BOOK?
