

UNITS OF ARTILLERY OF ACTIVE MILITIA

Units of the Artillery of the active militia as shown in the following tables under "present organization," are renumbered and regrouped as shown under "future organization."

New units shown under "future organization," are authorized and except those printed in italics, will be organized forthwith.

Present Organization	Localization
Units	
4th Bde. C. P. A.	
Headquarters	Woodstock
10th Battery	Woodstock
12th (Newcastle) Battery	Newcastle
19th Battery	Moncton

3rd (N. B. Regt. C. G. A.)	Localization
Headquarters	St. John
No. 1 Company	St. John
No. 2 Company	Carleton
No. 3 Company	Portland
Future Organization	
Units	
12th Bde C. F. A.	
Headquarters	Moncton
(a) (Woodstock Battery	Woodstock
(a) (Newcastle) Battery	Newcastle
8th Battery	Moncton
25th Battery	To be located hereafter
3rd (N. B.) Heavy Bde	
Headquarters	St. John
(a) Heavy Battery	St. John
4th Siege Battery	Carleton
6th Siege Battery	Portland
(a) To be numbered hereafter.	

Masked Burglars Beat Bank Man

Jack Twining, formerly of Halifax, but now manager of a branch bank in western Alberta, received a severe beating at the hands of two burglars, whom he foiled in an attempt to loot the bank recently. Mr. Twining was alone in the bank when two masked men suddenly appeared and pointing revolvers at him threatened death if he made any sound. Mr. Twining, attempting to reach his revolver was foiled, but he managed to move until his foot pressed the burglar alarm. The two men immediately sprang at the manager and gave him a beating, using the butts of their revolvers. They, however, had to depart without taking with them any of the bank's funds. Although severely beaten, Mr. Twining was not seriously injured and is now recovering. He is a son of the late Russell Twining, and his sister, Miss Twining, resides at Birchdale, N. S.

BIG ORDER FOR CARS.
An order for five hundred refrigerator cars has been received by the Amherst local branch of the Canadian Car and Foundry Co., and a renewed era of prosperity for the town will be opened up during the summer months. This large order will mean that the big plant will run at full blast for a period of months. Work will be commenced as soon as the supply of stock required can be filled.

NATURE'S WAY Alcoholic tonics and dangerous sedatives are fast falling into disuse. When the body is debilitated the effectual means of restoring strength is

SCOTT'S EMULSION
which does what your regular food should do but all too often fails to do—nourishes and strengthens the whole body. It is the results that follow the use of Scott's Emulsion that have made its multitude of friends.

HAWKER'S TOLU AND CHERRY BALSAM
demand prompt attention. They pave the way for "The Flu".
should be taken immediately the cold or cough makes itself felt. If taken soon enough, it will break it up in 24 hours.
Read the following testimonial. We are receiving letters like this in every mail:
"I take great pleasure in stating that I have used Hawker's Tolu and Wild Cherry Balsam in my family for years and find it an excellent remedy for coughs and colds."
THOMAS McAVITY,
St. John, N. B.
Sole by all druggists and general stores. The same price everywhere—25c & 50c. Name guaranteed without Company's Name.
HAWKER'S LITTLE LIVER PILLS
CURE ALL STOMACH ILLS.
HAWKER'S NERVE AND STOMACH TONIC
THE GREAT INVIGORATOR.
BUILDS UP THE SYSTEM.
THE CANADIAN DRUG CO., Limited,
ST. JOHN, N. B.

What Factors Influence Seed Yields In Roots

During the last few years considerable quantities of field root seed, including Mangel, Swede turnip, and Carrot seed, have been raised by the Dominion Experimental Farms' System for the purpose of safeguarding against a threatening shortage in the supply. Much valuable information has been accumulated on the subject of root seed production, the more so because, while engaged in seed growing as an emergency undertaking, the Experimental Farms' System at the same time desired to gain reliable data bearing on the possibilities of making root seed growing a permanent agricultural industry in Canada.

One of the more important subjects in connection with root seed growing which have been investigated is the question of under what conditions the heaviest possible seed yields may be expected. This question is of course of particular interest, as the size of the seed yields will largely determine the profit from seed growing.

In the first place, it is necessary that the roots to be used for seed raising are absolutely sound when planted out. Our experience is that planting of roots which show signs of disease or rot, especially at the crown, leads to most disappointing results. Such roots may linger along for some time, but sooner or later they die off, with the result of course that the seed field becomes patchy and consequently gives a comparatively low yield per acre.

In the second place, the seed roots should be planted as early as possible in the spring. The earlier they are set out the heavier are the seed yields which may be expected. This applies to all kinds of field root seed crops and has been demonstrated over and over again.

In the third place it is absolutely necessary that the land is in good condition and in a high state of fertility. Several experiments conducted the last few years have most decidedly shown that the land must be in the best possible shape if good seed crops are to be expected. An experiment carried out at Ottawa in 1915 gave several results to the effect that an application of 20 tons of barnyard manure to the acre, or of a commercial fertilizer, composed of 500 pounds of Superphosphate, 200 pounds of Nitrate of Soda, and 200 pounds of Muriate of Potash, increased the seed yield of mangels with almost 50 per cent. Experiments carried out later have not only substantiated this result but also shown that a still greater increase in the yield may be realized if the land is given both manure and artificial fertilizers in liberal quantities.

Sound roots, early planting, and rich land are the main factors which determine the size of the yield. It should be added, though, that the yields are also influenced, to a not unimportant degree, by the supply of farm labour that is available and by the size of the seed fields. Profitable root seed growing requires plentiful labour at certain periods and under present conditions, the writer would say that to a farmer who has not had years of experience in root seed growing one or two acres may prove more remunerative than a large acreage, because with a small acreage, the yield is apt to be much greater per acre than if the acreage is so large that it cannot be handled conveniently.

TO SUBSCRIBERS
It is our intention to draw sight drafts on all subscribers who are in arrears to the Union Advocate. Before doing so, we would respectfully request those in arrears, to kindly send in the amount due by them at once. By so doing the necessity of drawing drafts will be eliminated. We have a large amount due us by subscribers, and have repeatedly asked for their remittances. Some have responded, others have not, and we are compelled to take the above measure. It costs money to run a newspaper, and since newspaper has advanced to such a high figure, we must collect our subscriptions which are in arrears.
When remitting kindly notice the date of the tag on your paper and not paid up to 1929, compute from date of tag to corresponding month in 1929, at \$1.50 per year, and thus be sure that your remittance is correct.

Industry of Agriculture

"Organization, co-operation, and education are going hand in hand throughout the agricultural districts of the country," is the opinion of W. J. Rutherford, Dean of the Saskatchewan College of Agriculture, who expresses the following views in the Agricultural Gazette for January. He says, "Farming is not the independent self-contained occupation that it was a generation ago. Conditions have changed from the pioneer days, and production has not only to do with supplying the demands of the home but it must aim to create an export trade. Farming is a real business, successfully carried on by men and women who are not only skilful in the art and practice, but are versed in the science of agriculture. Farmers to day are not content to know only how to grow crops, they want to know also how to market them to good advantage. They are interested in the economic problems of their own communities and to a great extent in the problems of their customers in the city. Agriculture is both industry and commerce and affects both the rural and the city population. The agriculturalist of today is not merely a practical farmer but is necessarily a social worker. Rural communities have problems which require college trained men to solve."

SALADA TEA

5 CUPS FOR 1c

GOOD TEA IS NOT ONLY ONE OF THE MOST HEALTHFUL AND INVIGORATING DRINKS—BUT IS ALSO MOST ECONOMICAL :: POOR TEA IS ALWAYS HARMFUL AND DEAR AT ANY PRICE.

INSIST ON GETTING
"SALADA"

Compared with other foods the cost of bread is insignificant, yet no food costing so little, nourishes so much as

BREAD BAKED FROM PURITY FLOUR

Use it for all your baking
More Bread and Better Bread
and Better Pastry

Western Canada Flour Mills Company, Limited
TORONTO—Head Office
Branches at
Winnipeg, Brandon, Calgary, Edmonton, Montreal, Ottawa, St. John, Guelph

OTHER TABLETS NOT ASPIRIN AT ALL

Only Tablets with "Bayer Cross" are Genuine Aspirin

If you don't see the "Bayer Cross" on the tablets, you are not getting Aspirin—only an acid imitation.
The "Bayer Cross" is your only way of knowing that you are getting genuine Aspirin, prescribed by physicians for over nineteen years and proved safe by millions for Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis, and Pain generally. Made in Canada.
Handy tin boxes of 12 tablets—also larger sized "Bayer" packages can be had at drug stores.
Aspirin is the trade mark (registered in Canada), of Bayer Manufacture of Monoaceticacidester of Salicylicacid.
While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company, Ltd., will be stamped with their general trade mark, the "Bayer Cross."

November 11 to Be Urged As Thanksgiving Day

Winnipeg, Feb. 25—The Dominion Government will be asked to set a side November 11 of each year as a holiday to be known and observed as a national Thanksgiving Day in accordance with a resolution passed by the Manitoba Trustees Association at today's session of their annual convention.

DELICACIES FOR B. C. LUMBER CAMPS

Victoria, B. C., Feb. 23—In addition to high rates of pay and three square meals a day, Vancouver Island logging camps are serving their employees with doughnuts and coffee in the middle of the morning, and about 3.30 o'clock with afternoon tea, cakes and pastry delicacies, in an effort to retain the services of the men. Employers state that development work is being impeded by the difficulty in getting men and it is necessary to make many concessions if a sufficient number are to be held to keep up with the work.

Dye That Skirt, Coat or Blouse

"Diamond Dyes" Make Old, Shabby, Faded Apparel Just Like New.

I don't worry about perfect results. Use "Diamond Dyes," guaranteed to give a rich, fadeless color to any fabric, whether wool, silk, linen, cotton or mixed silks, dresses, blouses, stockings, skirts, children's coats, draperies—everything! A Direction Book is in package. To match any material, have dealer show you "Diamond Dye" Color Card.

Come in and See Our Display of

Steamers,
Cake Boxes,
Cake Pans,
Aluminum Cooking Utensils,
Covered Roasters, etc.

Everything to enable you to do your
Cooking Satisfactorily.

HEATING STOVES

We have a large range of HEATING STOVES which we are selling lower than they can be purchased elsewhere. These are a necessity for the cold weather which is in store for us.

B. F. MALTBY,

Newcastle, N. B.
Phone : 121

DURING LENT

Make y SH wants known to us and we will supply ou with the best on the market.

WE CARRY A FULL LINE OF

Fresh, Salt and Smoked FISH

always in stock and at lowest prices—Call or phone you wants.
