**SIR H. THORNTON  
MAKES A DATE**

To Meet Maritime Province Men

Sir Henry Thornton, president of the C.N.R., has informed F. E. Dennison, president of the Moncton Board of Trade, that it will be satisfactory for him to receive the delegation from the Maritime Provinces on April 19th, when transportation matters will be discussed.

It had been announced that Sir Henry would receive the delegation during the week beginning April 9th, but the change was made in response to a suggestion from the Moncton Board of Trade that the conference be held during the following week. Premier Veniot, it is expected, will be able to accompany the delegation to Montreal on April 19th.

**HOW AND WHEN  
TO DESTROY WEEDS**

The best time to destroy weeds is within two or three days after the first pair of leaves has formed on the seedling plant, says the Dominion Seed Commissioner in his bulletin on "Weeds and Weed Seeds". In friable soils the "weeder" is a useful implement for that purpose. The "tilling" harrow is also satisfactory for comparatively loose soils and is preferred as a weed destroyer on firm or clayey land. Weeds are irregular in time of germination; consequently it is necessary to apply the weeder or harrow frequently throughout the growing season. Potatoes or fields of corn and cereal grains when sown with a drill, may advantageously be cultivated with such implement once or twice before the crop distinctly shows above the ground, and again, with corn and ordinary grain crops, when the plants are three to six inches high. Even relatively heavy harrows ordinarily in use will do little damage to the potatoes, corn or grain plants if the land is not wet, while the loosening of the surface soil benefits the crop in addition to the destruction of the weeds.

For perennial weeds, or seedlings that have become well rooted, a cultivator having diamond-shaped or other relatively broad shares is needed for hoed crops. The disc is a favoured implement for destroying weeds in a summer fallow or in preparing seed bed. When, however,

So Says Mrs. MacPherson of  
Lydia E. Pinkham's Vegetable Compound

Brantford, Ontario.—"I was always tired and the least exertion would put me out for a day or two. I had a pressing pain on the top of my head, pain in the nape of my neck, and when I stooped over I could not get up without help, because of pain in my back. I did not sleep well and was nervous at the least noise. I keep house, but I was such a wreck that I could not sweep the floor nor wash the dishes without lying down afterwards. A friend living near me told me what Lydia E. Pinkham's Vegetable Compound had done for her so I began to take it. With the first bottle I felt brighter and got so I could wash dishes and sweep without having to lie down. Later I became regular again in my monthly terms. I have taken ten bottles all told and am now all better. I can truly say that your wonderful medicine cannot be beaten for putting health and vim into a woman."—Mrs. JAMES H. MACPHERSON, 309 Greenwich St., Brantford, Ont.

**SCRATCH**  
THAT COST  
HIM 6 MONTHS PAY

—Also a Heavy Doctor's Bill.

"Four years back," writes Mr. R. Howard, of Bracebridge, Ont., "a scratch on my leg turned to an awful ulcer. It took six months of doctor's treatment to cure me, and all the while I was laid up never earning a cent.

"Recently, a similar injury started inflammation and ulceration on the other leg. Knowing about Zam-Buk, however, this time I acted very differently and without delay. I used Zam-Buk alone, and not only was the ulcer speedily and thoroughly healed, but I didn't lose a day's work while the treatment was in progress."

During a trip across Canada last summer, members of the Montreal Board of Trade gained many new and striking impressions of their own country. They expressed varying views on these; discussed, criticized, or commended them. These exchanges began to crystallize into a dominant but unspoken thought in every heart. Finally it was given voice in the words: "There is no East, and no West: THERE IS JUST CANADA."

It is not merely a bit of fine phrasing. The sentiment has an appeal to every one who has caught a vision of what Canada is to be. Before the splendor of that vision selfish local interests wither and die and provincialism fades into nothingness. What is of benefit to the farmer of the West or the fisherman on the Atlantic coast, should be a matter of concern to every citizen of the Dominion. "There is no East, and no West: THERE IS JUST CANADA."

In the roll of centuries since the world began, the history of Canada occupies but a modest measure. Within the memory of people still in the vigor of life, new areas of this country have been opened to settlement, as large as some countries in Europe; vast resources of timber and mineral lands have been revealed, and great water powers have been harnessed to do the will of man. The once unexplored and the long unknown have been linked, until this Empire within an Empire begins to know itself as a land of possibilities beyond the dreams of all the pioneers who laid its foundation in faith and hope. "There is no East, and no West: THERE IS JUST CANADA."

Most potent of all the factors in awakening Canadians to the truth about their own country has been the railway. Its slender ropes of steel are everywhere harbingers of still greater days to come. Crossing the wide-sung prairies, spanning rivers, passing by means of tunnels, through the mountains that barred the progress of man in days gone by, or wandering through the meadows and orchards of the earlier settled portions of the country, they are a visible embodiment of the sentiment, "There is no East, and no West: THERE IS JUST CANADA."

The railway has made it possible for increasing thousands of Canadians to widen their education by travel in their own country. And their own Canadian National Railways has played an amazing part in this education of its owners. Since its humble beginnings in Confederation days, it has expanded into the greatest railway system on this continent. Its contribution to the development of Canada in the past was incalculable; its part in the progress of the future cannot be measured by the mind of man. More than anything else in the Dominion to-day it emphasizes the truth of the words "There is no East, and no West: THERE IS JUST CANADA."

it is desired to unearth and remove the rootstocks of perennial weeds, such as couch grass, a narrow-toothed cultivator that will loosen the soil and bring the underground vegetation to the surface, is preferred to an implement that will cut the rootstocks, the small cuttings of which may be exceedingly persistent in growth.

Allowed To Go**

On Her Own Recognizance Of  
\$5,000; to Appear if Wanted

St. John, March 27.—The March session of the Circuit Court opened this morning with Chief Justice McKeown presiding. There was a very lengthy civil docket, but not much for the grand jury in the way of criminal matters. Mrs. Bessie Parker whose trial on a charge of murder in connection with an alleged illegal operation took place at the last sitting, was allowed to go on her own recognizance of \$5,000 to appear if wanted.

**Good Old Summer Time**

When summer fair, with sweltering air and heat makes us perspire, the winter cold we would behold, and zero climate desire. "Give me," you say, 'old winter, gay with frost to make me tingle; its snow and ice would sure be nice; I long with them to mingle.'" But when at last the summer's past, and old Jack Frost gets busy your late fuel bill near turns you ill; its worse than gas for Lizzie. You say, Oh, dear, how chill and drear! This cold my blood's congealing; the mercury at 93 would be a lovely feeling." And thus it goes; I don't suppose that we are ever suited. The thing we've not we prize a lot—it can't be substituted. Behold, forsooth, the nimble youth with health and vigor glowing; he longs for age and wisdom sage and beard that's white and flowing. But time fits by, and soon he'll sigh for youth so heavy-hearted; to boyhood's days he'll turn his gaze and long for what's departed. Oh, that we could with present good, just make our selves contented; how we should bless with happiness each hour as it's presented.
