

## A Ready Help For The Girl Who Needs Blood

**D**URING the critical period between twelve and seventeen there is a special strain on the young girl's system which often leaves her in a weak run-down condition.

She becomes anaemic or bloodless. The gums and eyelids as well as the complexion generally become very pale and there is weakness and lassitude.

Indigestion and constipation are usual. There is shortness of breath, palpitation of the heart, headaches and irregularities of the vital organs.

These symptoms are also common to chlorosis in which case the complexion assumes a greenish tinge.

More blood is needed—rich, red, invigorating blood.

Since Dr. Chase's Nerve Food is the greatest of blood builders this is the treatment indicated.

The restorative qualities of Dr. Chase's Nerve Food have never been more certainly proven than in the treatment of young girls for anaemia, chlorosis and such ailments which arise from a debilitated condition of the blood.

Since young girls seldom understand themselves at this age the responsibility rests with the mother.

The whole future health and happiness of your daughter may depend on getting through this critical period in good physical condition.

There is no question of Dr. Chase's Nerve Food being the most effective means of overcoming the anaemic condition.

It is only necessary to have a little patience and keep up the use of the Nerve Food regularly until the growing body is supplied with an abundance of rich, red, life-sustaining blood.

You will notice that while the price of Dr. Chase's Nerve Food has been increased to 60c. the box now contains 60 pills instead of 50 as formerly.

Likewise Dr. Chase's Kidney-Liver Pills are 35c. a box of 35 pills, instead of 25c. for 25 pills. Edmansson, Bates & Co., Ltd., Toronto.

## WILL BE EYE WITNESSES AT THE ELECTIONS

At the invitation of the Italian Government Prime Minister MacDowald is sending two British representatives to Italy to watch the approaching elections. One of the observers Harry Snell a Labor member of Parliament already has been chosen. The second will be selected from the Trade Union Congress.

Premier Mussolini is anxious in view of frequent criticisms of the manner in which elections are conducted under the Fascist regime to have British representatives see for themselves that the Italian electorate is permitted the fullest freedom, the widest latitude in the choice of candidates regardless of political affiliations.

## ABOLISHMENT OF DEATH SENTENCE

"So far as my long parliamentary experience goes there is little evidence of any general public desire to abolish the death sentence" declared Arthur Henderson home secretary to a deputation that waited on him and urged the abolition of capital punishment.

The deputation was composed of members of societies which frequently have promoted petitions for the reprieve of condemned persons.

Home Secretary Henderson's dictum came as a surprise to the deputation which had felt encouraged to approach him with an appeal to do away with the death sentence by the fact that in his short term of office he has exercised his prerogative of clemency in more than one case.

### COURAGE

Where is your record of yesterday? Is it near the top or low? Well, what does it matter anyway? If you've watched the score and know

The biggest men in the world today began—and some jobs were meant they won because they were willing to play. The game out fair and clean.

They cared not a whit that the odds were long. For their faith in themselves was fine.

They faced the mark with a courage strong. And headed straight for the line.

It's playing the big game right that pays. It's not what you win but how; So forget to regret the wasted days.

right before March. The proper time is indicated by the condition of the weather—warm sunny days with frosty nights being favorable to a copious flow. It is advisable to have everything in readiness before hand including the sugar making utensils and a generous supply of dry mixed wood ready to use. Bulletin No. 30 of the Dominion Department of Agriculture. "The Maple Sugar Industry" recommends tapping with a three eighth seventh-sixteenth; or one-half inch bit. The hole is bored in a slightly upward direction about one and one-half inches deep in a medium sized tree and two inches deep in an older one. The point of tapping recommended is about thirty inches from the ground where the bark has a healthy look and some distance from an old tapping hole. This bulletin which is available at the Publications Branch of the Department of Agriculture Ottawa shows types of spouts and buckets to be used as well as designs and plans of a modern sugar house.

## This charm you can keep

Youthful radiance of complexion! Millions of women have learned this simple way.

The fresh softness, the radiance of youthful skin need not be lost as the years accumulate. Clever women guard this charm—keep it!—today.

This simple method does that for millions of women. Now you may use it—and keep that school-girl complexion.

You need only do this

Cleanse the skin regularly, authorities say, to keep your complexion lovely, radiant, youthful.

But beware of harsh cleansing methods. They injure skin.

Wash thoroughly with Palmolive Soap—each night before retiring. Rub the creamy, foamy lather well into the tiny pores. Rinse—and repeat the washing. Then rinse again.

Then—if skin is dry—apply a little cold cream. That is all. Skin so cared for is not injured by cosmetics, by wind and sun, or by dirt.

The simple, correct way

You cannot find a more effective beauty treatment. Because Palmolive Soap is blended of rare palm and olive oils—famous for mild but thorough cleansing qualities since the days of Cleopatra. And it is inexpensive.

Be sure you get Palmolive—which is never sold unwrapped. All dealers have it. For just one week try this simple method and watch results. You will be astonished, delighted!

Use Palmolive for the bath, too. Thousands do—it is so economical.
