THURSDAY'S GRAIN MARKETS.
Winnipeg, May 17.—Market was dull but strong on narrow fluctuations. Chicago market closed unchanged for May, 1/2 higher for July and 1/2 for September. Minneapolis was practically the same. Winnipeg was mainly dull with occasional signs of bidding and closed with May unchanged, July 1/2 higher and October lower. Commission men reported active demand for cash wheat with small offers. FRIDAY'S GRAIN MARKETS.
Winnipeg, May 17.—All markets higher on cables, and on advance in United States markets, business at opening being fairly brisk. When close came, with a few bullish, but with a tendency to go still higher. Government crop report was sole reason for advance in prices. It was anticipated that when it would arrive it would be found to be bearish, but instead it was bullish. Figuring on new basis, indicates yield of winter wheat of 428,414,000 against 409,422,000 bushels harvested last season. Government report suggests higher wheat harvest than last year. May let was 88 per cent. of normal, as compared with 81.2 on April 1st, 89.2 on May 1st, 1927, and 82.2 on May 1st, 1928. Average past ten years, 81.2 per cent. of normal. Average condition of rye May 1 was 90.3 per cent. of normal, as compared with 82.1 on April 1, 88 on May 1, 1927, and 82.5 on May 1, 1928. Government report suggests 172,000,000 bushels wheat, or 17 1/2 bushels per acre. Broomhall estimates world's shipments of wheat on Monday, exclusive of North American, 4,400,000, of which amount Europe will take 3,540,000. Cargo of wheat has been said to laggeep at price equal to 99 1/2 per bushel American currency. No cash prices given today, being bank holidays, but option market was sensational—May open 1.12 1/2, close 1.16 1/2; July opened 1.15, closed 1.17 1/2; October opened 82 1/2, closed 84 1/2; May open 86, close 87 1/2; July open 83 1/2, close 85 1/2; September open 81 1/2, close 83 1/2.

SATURDAY'S GRAIN MARKETS.
Winnipeg, May 17.—The wheat market had a sensational bulge yesterday, closing 1/2 to 1/4 higher than the previous close. Liverpool started the advance by coming 1/2 to 1/4 higher, and about the middle of the session the United States government crop report came out on the condition of the winter wheat. It gave the condition on May 1st as being 89 and the average a million and a half less than reported sown in the fall. This was a sharp point for wheat was expected and started short covering, which advanced prices rapidly today, however, the American markets have closed about a cent lower, likely due to profit-taking. The situation is just as bullish, and many reports have been coming that the harvest is beginning to do damage in Kansas. Liverpool closed today 1/2 to 1/4 higher. Winnipeg market yesterday was only a curb market on account of

SOUTHERN ALBERTA IS VERY HOPEFUL

Conditions Are Decidedly Encouraging.
Winnipeg, May 17.—The crop situation in southern Alberta, as reflected in the information which reaches this city, is most encouraging, and men who are acquainted with prevailing conditions say that the outlook at present is that the harvest will be a very good one. The outlook is, of course, a prominent topic of discussion in this district, and it has come along in a way that indicates a big harvest later on. The weather in December, January and February was decidedly favorable, with very little snow, and the ground was kept open for the plant. Spring was not particularly early, but the cold weather of March did not do much to retard the start for this season, and it is now "hammering along." The fields are green, and the crops are showing good growth, with indications of good roots.

Good Weather For Seeding.
With respect to spring wheat, the outlook is much the same as in other parts of the west. The weather has been warm and dry, and plenty of opportunity to work on the land was afforded for the seeding of winter wheat. The progress, but the extent of the gain is as yet a matter of estimate only. This is because the weather has been so good, and the farmers are so busy with the crops that they have not had time to do much of the work. The weather is so good, and the crops are so good, that the farmers are so busy with the crops that they have not had time to do much of the work.

TRADERS GO NORTH TO COLLECT FUR CATCH

Colin Fraser, Hudson's Bay Company's and Hlop & Nagle's Parties Have Left Athabasca Landing for Their Summer Work.
(From Saturday's Bulletin.)
The various fur trading parties that every year out of Edmonton and go north to purchase the fur supply gathered during the winter, have left the city for their summer's work. The majority of the parties are proceeding from Athabasca Landing in boats and will not return until the fall. On account of the scarcity in the fur supply in the north last winter, the parties going north this year are not so large as usual, and it is expected that the quantity of fur brought down to the city in the fall will be considerably below the average.

Fast Time for Regina.
Regina, Sask., May 16.—It is likely that before the summer is out the citizens of Regina will rise and receive according to the hours of the "fast time," and the hands of the clocks in Regina will be set up an hour or each, with Winnipeg and other places. This movement for the fast time has now become general, and it is not without the range of possibility that the whole of Saskatchewan should adopt the central standard. The movement is gradually spreading west, and if the board of trade of this city takes it up, as is expected, the adoption of the new time in Regina is practically assured.

DOG AIDED SUICIDE.
Bull Terrier Helped His Master to Drown.
Harrington, Pa., May 7.—After making two unsuccessful attempts, Henry P. Turpin, aged 22 years, succeeded in drowning Royal Bull in the Pennsylvania Canal at Steelton, near here. The bull, which would be returning to Turpin did his best to prevent rescuers from pulling the would-be suicide from the water. Turpin spent the night drinking and eating in the morning, accompanied by his bull terrier, which the man plunged headlong into the stream, which is very deep at that place. Edward McCord and Frank Magradia saw Turpin in the water and made an attempt to reach him, but the dog sprang at them, biting a piece of him from the wrist of Magradia. The dog was thrown aside and held by another man who appeared on the scene, while McCord and Magradia dragged him to shore. Turpin appeared very angry because the man would not permit him to commit suicide.
Shortly after 5 o'clock he returned to the canal and jumped in. Another attempt was made, but the dog made by the two men but the dog attacked them and bit McCord on the neck. One more Turpin was rescued and the man telephoned for a policeman.
Before the police arrived, however, Turpin, with the assistance of his faithful dog, got away from his rescuers and made a third and successful attempt to end his life. The man followed him, but the dog was so vicious that even chased them from the edge of the water. When the dog finally frightened off Turpin was found to be dead.

A Race For a Derelict.
Vancouver, May 7.—A telegram from Claypoint in the west coast of Vancouver Island reports the steamer Otter, of the C.P.R., to be derelict, with a broken tall shaft. She is off the west coast with a cargo of wheat. The C.P.R. steamer Tees left at eight o'clock and the B.C. Salvage Company is sending its tug William Joffie, its fastest salvage steamer. An exciting race is likely, as the C.P.R. steamer is being forced in an endeavor to prevent the salvage boat securing the derelict, thus costing the company many thousands.
