

Settlers and Contented

Men in North in Connection of What Has With Country.

Two points, I was not prepared to reach the extent of which it is. We were informed that the fall was equally satisfactory. The Spirit River I heard of difficulty in procuring water. This is to hinder settlement in the future, but I do not think it is irreparable and much of land appeared good. Grande Prairie is entirely filled and the extension is a charming land. The fifty undulating hills and valleys. Contentment among settlers with the conditions of these seems quite general. A neighborhood of Beaver Lodge and Willow River, the distant of the Rocky Mountains, is a fine, snow covered there, and what appeared to be a stream in the distance. The Edmonton Trail Unsettled, did not hear in any place favorable of the Edmonton trail. On the contrary, I heard much of difficulty, loss and serious difficulty which had been encountered by who attempted to enter the country by that route.

It is no longer necessary for settlers to return from Grande Prairie to Ground in order to transact business of filling-on, as a fine road has been built about 15 miles from that point. It is hoped that no time will be lost in connecting that distant part of the world by a road.

Women in Grande Prairie, purpose in making this trip to view the country. They are very much interested in the necessity of putting forth endeavor to accomplish this. This is a very interesting trip.

ATTENDANCE AT THE DOMINION FAIR

20,000 Pass Through Gates on Saturday at Regina—Big Feature Was Daring Flight of Aviator St. Henry.

Regina, Aug. 9.—Friday's attendance at the Dominion Fair was put to rest on Saturday "Drummers" when the total passed through the gates at the Exhibition has reached the record figure of over 20,000. This parade of commercial travellers was one of the big features of the fair and started at the city hall at one o'clock. Over five hundred travellers in the parade carrying small bills a dozen or more symbols which were handed out freely throughout the procession to the interest and the variety of the official faces of the day. The parade was on a special program more or less eccentric stunts were witnessed by an immense crowd.

Big event of the day which will be remembered by the thousands who witnessed it was the flying of St. Henry. Punctually at 7:30 a. m. a start was made for the air. This was followed in quick succession by two further flights, both in the way. The whole performance was a perfect success. The aviator, who is in his flight St. Henry performed no daring dips and aerial evolutions in his third try. The preceding day he had first the race course and altogether eight miles in ten minutes.

SECRETARY FOR WAR.

Edward Ward, is Here From London, Unofficially.

London, Ont., Aug. 9.—To all appearances the visit of Sir Edward Ward, under secretary of war, for Britain, who is in Montreal at present, is entirely unofficial. No has been received by the department, and officially in connection with his visit to Canada. Unofficially, however, it is believed that his visit may be to an extent with a view to a personal inspection of the Canadian army.

Des Moines Strike Over.

Des Moines, Aug. 9.—Promptly at 10:30 a. m. a general strike was called in Des Moines and a four-hour strike which began at 1:30 p. m. yesterday when the strike was terminated.

THE FINANCIAL AND COMMERCIAL MARKETS

EDMONTON MARKETS
Edmonton, Aug. 9.—Potatoes have been pulled up and a few have probably reached somewhat approaching their normal price. While retailers still sell at about three cents a pound, the price on the Rice street market was \$1 per bushel yesterday, while some were disposed of at 60c. Continued frequent arrivals are responsible for the low price.

The produce market is reported firmer with very little change in price. Creamery butter has advanced one cent to 22c. Dairy also showing a slight rise. Eggs seem to be getting scarcer every day but so far the change has been slight in price quoted. Rice street continues to dispense them at 22c.

In spite of frequent receipts of new hay, there has been no material reduction in price. The hay still shows a large proportion of bleached loads and the owner attempts to stand the price in spite of assertions that it is better than it looks. The depreciation in value in such cases is from one to two cents.

WINNIPEG GRAIN MARKETS
Winnipeg, Aug. 9.—The weather man attracted a good deal of attention on the floor today. The general opinion was that it was about as bad as it could be. Rain had been general over the entire West and the temperatures were still low. About 7c. was the average high point for the day, and the mean in several cases in Saskatchewan and Manitoba was no more than 36 or 37. At these temperatures the attack of frost is imminent, and during the day the weather favors the rust. Today, however, the prophet said temperatures would be higher. It was a peculiar market today, the news distinctly bullish and there was some anxiety regarding the United States report, which was expected to be bullish. The market, however, was still when the day started and the hours got busy. October opened very strong at 92 1/2 and rose 1 1/2. The bears got busy and about 11 o'clock a break to 91 1/2 took place, but at the close the price was 93 1/2 split. December also behaved in the same manner and closed at 99, or 1 1/2 split lower. May closed 3 1/2 lower. Oats were strong, October closing 1 1/2 split and December 1 1/4 split higher. In the American markets Chicago

LITTLE BOY DROWNED IN RIVER WHILE BATHING

At Foot of Cameron Street Was Swept Out Into River—Was Twelve Years Old—His Parents Live on Government Avenue.

White swimming with some companions in the river near the foot of Cameron street in the Fraser Flats about five o'clock yesterday afternoon, a boy named Dickhaut, was swept beyond his depth by the current and drowned before help could be given. The river is particularly swift at this point and with the high water of the past few weeks is doubly treacherous and once caught in the current, return to shore is almost impossible except to the most experienced swimmer.

The boy is said to have been about twelve years of age and the son of parents living at 440 Government avenue. The mounted police will probably watch for the body lower down the river.

TO HAVE MANHOOD SUFFRAGE

Ottawa, Aug. 8.—It has been ascertained by the census takers in June last that the towns of Brockville, Sarnia, Owen Sound and Sudbury have more than 2,000 population, and in order in council has been passed ordering the holding of registration courts for manhood suffrage in these four towns.

This is done in accordance with the provision of section one of the Manhood Suffrage Act of the Legislature of Ontario, which stipulates that such registration should be made in cities and towns where the population exceeds 2,000 as taken at the last Dominion census. This year's census having shown the population of these four towns to exceed 2,000, the government in order to obey the provincial law had to order registration. It will be the first time in which such registration has taken place in the towns.

HARVESTERS COME TOO EARLY

Winnipeg, Aug. 7.—Over ten thousand harvesters from eastern Canada have arrived prematurely in Winnipeg, while cutting has commenced in several districts in Manitoba. It is not yet general and in Saskatchewan and Alberta it will be two weeks before the men are required in large numbers. Crop reports gathered from a few cars seem to indicate conditions which are generally good. From a great many there are signs for warmth and sunshine but the past week has done much to ripen the grain which was already mild.

HON. FRANK OLIVER IS FOR LOW TARIFF

(Continued from Page 1)

The circumstance that the resolution of the investigating committee of the House of Commons had to enquire into the insinuation made against him by the Toronto World and Toronto Telegram from proceeding.

He reiterates his declaration of yesterday with some additions. "No one regrets more than I do that the investigation was postponed owing to the necessity of proceeding with the public business of the country. But I recognize that that delay is the principal business now before the country and that everything else has to give way.

"If there has been a postponement of the other business which was before Parliament, the fault lay with the Opposition, which so obstructed business that it was impossible to make any progress at all.

"There were many important matters which were thus shelved. My case is important in my own eyes, of course—and I wish you to state now and as often as is necessary that no one regrets the postponement of the investigation more than I do—but there were equally important matters, such as the terminal elevator bill and other subjects of great public importance which have had to go over until the electors decide that business must proceed.

"Tory Attacks Answer Themselves. "I do not intend to pay much attention to the attacks and misrepresentations of the Conservative press. They will answer themselves. The statement that there was a difference of opinion between myself and my colleagues as to the decision which was reached is as untrue as the other story, which was false on its face, and which was killed before it had travelled very far, that there had been a quarrel between myself and the Minister of Finance.

"Much has been made of the circumstances that the speaker of the House of Commons adjourned to meet today, and of the statement by a member of the committee that the House would still be in session today, but all reference has been omitted to the fact that when the committee was discussing its programme last Tuesday, I, being personally present in the committee, urged that the witness then in town, such as the newspaper was over-ruled, but that was not my fault.

"And I might add that if the Conservative party was so anxious for an investigation, it might have proceeded before the adjournment. I placed all the books of the department in charge of that branch which deals with land grants were all available, but they only heard one, Mr. Young, and after they had heard his evidence they came to the conclusion that they had had enough. They knew then that their case had collapsed, or they would have proceeded to go further into the matter.

"I am not afraid to meet this issue anywhere or at any time. My record is too well known in the West for dirt-slinging to have any effect against me among those who know me best."

RIOTS IN DES MOINES OVER RAILWAY STRIKE

Five Men Injured in Fighting in Down Town Districts—Manager of Street Railway Burned in Effigy—Demonstrations Against Strike Breakers.

Des Moines, Iowa, Aug. 6.—Rioting in down town streets, the burning in effigy of Street Railway Manager J. R. Hartman, demonstrations against strike breakers, and Louis J. Christensen, of Chicago, their leader, attended the inauguration of Des Moines city railway early this morning. Five men, including city detectives and police officers sustained injury during the riots. Traffic has been suspended on every line in the city, not a single car having moved since 1:15 o'clock this morning, when the union men walked out.
