SPECTACLE and EYEGLASS

fitting is not perfect unless the frames or mountings are properly ad-
justed, and that requires the expert hand. The beneficial effect of a
correct glass may be upset by an ill fitting frame. It has been my
special work for over twenty years to correct troubles emanating from
eyestrain, and placing the proper lenses in the most suitable and be-
coming frame or mountings. All my work is guaranteed.

LADIES!

What about the replacement
of lost hair?

When the hair has fallen out the
follicle is not necessarily de-
stroyed, and prompt, unremit-
ting attention, such as described
below, will tone the hair, mak-
ing machinery and stimulate the
vessels and tissues to action.

Hair health depends upon a
clean, sound scalp, the pores of
which are open, the glands
active and the blood circulation
in correct condition. It stands
to reason that if the scalp
(which contains the hair-pro-
ducing machinery) is in perfect
order, the hair will be good.
