A Stormy Night.

The storm which began about 8 o'clock last evening was a severe one and raged until a late hour this morning.

The Appointment of Magistrate Fitzgerald.

Space did not permit of our dealing with all the points of Sir Robert Bond's speech in Supply on Wednesday. The Right Hon. gentleman strongly protested against the vote of \$875 for Magistrate Fitzgerald at Grand Falls, because he considered it a disgraceful condition of affairs that there should be two men drawing salaries as Stipendiary Magistrate for that place.

The Minister of Justice (Mr. Morison) said that Mr. Burt of Botwood is a very sick man to-day. Sir Robert replied that if he were sick to-day he was not sick when Mr. Fitzgerald was appointed Stipendiary Magistrate.

The Minister of Justice said that the Grand Falls was a very important place and that was the reason Mr. Fitzgerald had been appointed. Sir Robert replied that unquestionably Grand Falls was an important place, and that was another reason why Mr. Fitzgerald should not have been appointed there.

The Minister of Justice turned to Sir Edward Morris and then repeated what Sir Edward told him, that it was by the authority that had existed for two hundred years, the authority of the representative of the Crown in this Colony.

Sir Robert Bond replied that the representative of the Crown, in his opinion, has not, and never had, any such authority and challenged the Minister of Justice to produce it.

The Minister of Justice said the matter had never occurred to him; he had never heard of the question being raised before, but it was a most important question and he would look into it.

To Adjust Insurance.

Mr. F. W. Knight, Insurance Agent, went out by train to Norris Arm last evening to adjust the fire losses in connection with the recent fire that burnt down the buildings of the Central Forest Co. His own company, the Norwich Union, carries \$3,000, and the Phoenix, W. & G. Rendell, \$7,000.

Will Select Team.

To-morrow evening the Hockey Team of St. John's to compete with the Winsorites will be selected. The local 14 had another good practice last evening and our boys will make a good showing.

May Have Typhus.

Mr. R. Rankin was yesterday brought to the hospital from his home, No. 26 Haggerty's Lane, as it was feared that he was developing fever. The man's wife and two men named Crewe were taken from the same residence suffering from the disease, and no doubt this man is affected also with the malady.

The Trinity Spur Line.

Mr. Grant, one of the members for Trinity District, presented a petition to the House of Assembly yesterday from Joseph Norris, Arthur E. White and other inhabitants of Trinity in relation to the construction of the Trinity Spur Line, which he strongly supported.

Sir Robert Bond said he had very much pleasure in supporting the prayer of the petition presented by Mr. Grant, which asked the House to take no heed of petitions that might reach the House adverse to the construction of the said Spur Line.

Steamers in Storm.

If they did not harbor on the Southern Shore last night, the steamers Viking, Kite and Southern Cross must have had a hard time of it in the storm. The wind blew a gale on the land in going up, but it is more than likely the ships gave the shore a wide berth, or seeing the storm approaching made port. The ships were deeply laden with coal on deck, but all are in excellent condition and were perfectly fitted to cope with even worse conditions.

Coopers' Union.

Last evening the Quarterly meeting of the Journeymen Coopers Union was held in the British Hall. There was a large attendance of members. After payment of due the meeting adjourned. Some questions of a private nature were discussed.

Sealers Notice.

All men who intend leaving for the sealfishery should take with them one or more bottles of "Stafford's Lintiment," the Queen of Lintiments (at 11 cents a bottle).

When Sleep Fails You

DR. CHASE'S NERVE FOOD will bring rest, comfort and vitality by building up the nerves. Mr. Jas. Wesley Weaver, a veteran of the Fenian Raid, Port Dalhousie, Ont., writes: "For years I was afflicted with nervousness and dreaded insomnia, so that I never knew for three years what a full hour's sleep was, never more than dozing for a few minutes at a time. Heart pain and headaches almost drove me wild. I had spells of weakness and cramps in stomach and limbs."

THE NEW INTERNATIONAL ENCYCLOPEDIA SAYS

Cod Liver Oil is one of the most valuable therapeutic agents, that the benefit derived from it in diseases associated with loss of flesh cannot be over-estimated. It is given in TUBERCULOSIS, IN RICKETS, IN CHRONIC ECZEMA, in many NERVOUS DISEASES and in GENERAL FEEBLENESS. Scott's Emulsion is the world's standard preparation of Cod Liver Oil; it contains no alcohol, no drug, or harmful ingredient whatever. It is the original and only preparation of Cod Liver Oil recommended by physicians the world over.

Another Bubble Burst.

Sir Robert Bond asked the Premier if anything had been done during the past year in connection with the West Coast Coal areas.

The Premier replied that nothing had been done, as the Company with which the Government had made an agreement had failed to perform their contract.

Sir Robert Bond asked the Premier if there was any truth in the report that had been put in circulation that a valuable deposit of Anthracite Coal had been discovered on the Labrador.

The Premier—The Government have never heard of such a deposit of coal having been found on the Labrador.

Pilgrim Steamer Burned.

And Not One of Passengers and Crew Escape—Train Plunges Into Ravine and 50 Killed and Injured—Covered Passageway Falls and 6 Killed—15 officers Entombed.

Constantinople, Feb. 24.—A local newspaper reports that the Turkish steamer Harriet, filled with Moslem pilgrims, was burned at sea. Not one of the passengers and crew escaped death. Official confirmation of the report is lacking.

Valparaiso, Chile, Feb. 24.—A railway train jumped the track on the bridge near the American Braden Copper Mines to-day and plunged into the ravine below. Fifty persons were killed or injured.

Chicago, Feb. 24.—Henry Divolet was killed and five others perhaps fatally injured when a covered passageway between a new building and an old one at State Madison streets collapsed early to-day. The collapse came without warning, plunging the men fifty feet to the valley below.

Tonopah, Nevada, Feb. 24.—Fire has been raging for more than 24 hours in the Belmont Silver Mine—the largest in the country—and from twelve to fifteen miners are believed to be dead. Eight men were injured, being overcome by gas while working with a rescue party.

Offered Backing for Any Amount by London Nobility to Meet Johnson.

London, Feb. 24.—That Sam Langford, the husky Nova Scotian fighter, is willing to do almost anything to get champion Jack Johnson into the ring with him, is evinced by the statement of Hugh McIntosh last night. He said: My representative in San Francisco is negotiating with Jack Johnson to fight Sam Langford. The champion need not have anything to fear about Sam being willing to bet. He will do anything to make a match with Johnson.

Mr. Woodman, Langford's manager, says: We have been chasing Johnson for three years. Langford is ready at any time to fight him and will give him a side bet of any fair amount.

There are two London clubs that are willing to give him a big purse and Langford will fight him here or anywhere else on any fair proposition.

After Langford's showing against Bill Lang, two members of the nobility and several substantial sportsmen have intimated that they are willing to furnish all the money needed for a bet on Langford.

Sealers Notice.

All men who intend leaving for the sealfishery should take with them one or more bottles of "Stafford's Lintiment," the Queen of Lintiments (at 11 cents a bottle).

You will be surprised with its marvellous results. When rubbed to the wrists and arms, ankles and legs, it will not only enable you to travel on the ice faster, yes, faster even than the seals themselves, but it will remove the tired muscular fatigue of the limbs, the result of incessant walking. On handling once you have applied it to your wrists and ankles you will never again think of proceeding to the fishery without a good supply. It is worth its weight in gold. It should always be in every household as it is also one of the best preparations for the following diseases:—Zarache, Headache, Footache, Faceache, Neuralgia, Wounds, all Skin Diseases, as Itch, Acne, Ringworm, Barber's Itch, Eczema, Hay Fever, Burns, Scalds, Excessive Sweating on body or feet, Diphtheria, Croup, Catarrh, Sore Throat, Laryngitis, Hoarseness, Quinsy, Mumps, Bronchitis, Pleurisy, Pneumonia, Asthma, Whooping Cough, Colic, Cramps, Wind, Diarrhoea, Fistula, Piles, Rheumatism, Lumbago, Sciatica, Strains, Bruises, Sprains, Corns, Warts, Tender Feet, Chilblains, Bites of Animals, Stings of Insects, Chapped Skin, Worms, Poisoned Wounds, Carbuncle, Swollen Muscles.
