## FIGURES DO LIE.

Prices are only Relative

REGAL ENGINES are the highest priced engines, yet they are the cheapest.

They are the highest priced engines because they cost more to build.

They are the cheapest engines, because they will last twice as long as any other engine.

They are also the cheapest engines because they save your time, and "Time is money."

If you shut your eyes to this bargain in engines, you will be the sorriest fisherman who ever signed an order.

You will lose more money than you can afford to lose, and your outfit will be twice as large.

REGAL ENGINES use less oil than any other engine on the market, and give more genuine satisfaction.

We are, in the near future, going to ask all cash for REGAL ENGINES, so buy one before we make this change, as we intend to make the "Hall Mark" engines of New England.

We ship REGAL ENGINES complete with full book of instructions, and when once installed in your boat, my child can run one.

REGAL ENGINES are higher priced than other engines, but are the cheapest in the long run, because they run the longest.
