## AIR SURVEY OF B.C. TIMBER

Aeroplane service for forestry  
work is proving a continued success  
in British Columbia—which province  
has the credit of making the initial  
experiments in the use of air ma-  
chines for that work. The Dominion  
Government Forestry Branch has  
just completed a topographical re-  
connaissance of the Kamloops and  
Shuswap Lake area of the Railway  
Belt, in which they own the timber.  
The work was carried out under the  
supervision of Mr. Roy Cameron,  
district representative for the Do-  
minion Forest Service at Kamloops,  
and the Vancouver air station of the  
Dominion Air Service supplied the  
flying machine, an H.S.2L plane  
Major McLaurin, superintendent of  
the Vancouver air station, was the  
pilot who conducted the work. This  
may be looked on as the first real  
attempt at air survey of forestry in  
British Columbia, and the results  
from both forest service and air ser-  
vice were eminently satisfactory.

In all more than 1800 miles of  
flying was done, and Major McLau-  
rin, in discussing the reconnaissance  
said that the work would have been  
continued longer only that those  
lakes over 3000 feet altitude were  
beginning to freeze and as the ma-  
chine was not equipped with skids  
for landing on ice, the operations had  
to be suspended for the season.  
Aside from that no difficulties were  
experienced at all. Major McLaurin  
said: "The country around Kamloops  
and the Shuswap Lakes is admirably  
suited for seaplane work. Landings  
are easily made on the large number  
of lakes that are found throughout  
the district." He expressed himself  
as greatly pleased with the survey,  
which had demonstrated in the most  
practical manner the value of flying  
to the government in mapping out  
in a mountainous or heavily wooded  
area. Work was thus accomplished  
that would otherwise take much time  
to complete.

Mr. Cameron, Dominion Forest  
Branch representative, who was with  
Major McLaurin during the progress  
of the air survey, was also much  
pleased with what had been done.  
He has been able, as a result of the  
flights, to make reports that would  
have taken months of time and a  
large expenditure of money to gather  
such an amount of information by  
any other method. And no other  
method could have been so complete.  
From the nature of the photographs  
and other data secured, the depart-  
ment is now in possession of detail-  
ed, definite information respecting  
locations for trails, large areas of  
timber hitherto unknown, burnt-over  
areas, and watersheds, which it had  
not before. Regarding burnt areas,  
all that had previously been known  
in some cases was that fires had done  
a good deal of damage. But the exact  
location and size of the areas dam-  
aged had been unrecorded. Exact in-  
formation has been obtained which  
should be of great value in handling  
future fire-fighting campaigns.

After the reconnaissance work was  
concluded the big seaplane was dis-  
mantled at Sicamous and shipped to  
Vancouver, to be stored at the Jeri-  
cho Beach station, in readiness for  
duty on any coast service during the  
winter.—Lumberman.

## THE BONE DRY VOTE

Brantford Expositor: Ontario will  
vote on the "bone dry" proposition  
on April 12 and if strict prohibition  
carries, as is expected, the new order  
of things will go into force in July.  
This certainly is a long time to wait  
before an end can be put to the free  
importations of liquor which are now  
being made. Nor would the present  
loose state of things have arisen had  
the Dominion government put an end  
to the importations of liquor in Pro-  
vinces which had already enacted  
prohibition without making it neces-  
sary to have provincial plebiscites  
with all the accompanying delays.

## KAISER BRONCHITIS IN EXILE Thousands Liberated

What! have you not heard the joy-  
ful tidings? Bronchitis has been ex-  
iled—kicked right out of society—  
and 100,000 Canadians liberated from  
the bondage of this disease. Every  
trace of bronchial trouble is blown to  
atoms by the world's most effective  
disease-destroyer, Buckley's Bron-  
chitis Mixture. No wonder people are  
rejoicing! No longer do they dread  
the effects of coughs, colds, asthma,  
etc., and so anxious are they that  
others should benefit also, hundreds  
of letters have been written proclaim-  
ing the merits of this wonderful mir-  
aculous remedy. Here is one letter—  
To Whom it may Concern: "This is  
to certify that I had been suffering  
for over three weeks with bronchitis  
and was advised to try Buckley's  
Bronchitis Mixture. I purchased a  
bottle and after the third dose I re-  
ceived relief, and before the bottle  
was finished, I was perfectly well.  
In making the above assertion I have  
no hesitation in saying it is the best  
remedy I ever came in contact with  
for heavy colds and bronchitis."  
(Signed), Mrs. M. Harding, c/o Dust-  
less Brush Co., Toronto. The original  
of this testimonial may be seen at  
W. K. Buckley, Limited, 142 Mutual  
St., Toronto. This mixture, proven in  
thousands of Canadian households,  
will give you sure relief. It cannot  
fail. Seventy-five cents is the price  
that stands between you and the road  
to health. Take no substitute—insist  
on the bottle with the "Satisfaction  
guaranteed, or money refunded."
