Hot Breads Easily Made

Now that the cold days are here we can indulge in hot bread once more. There is no one who knows how to make more kinds of muffins, biscuits, waffles and hot cakes than the southerners, who serve one or two or three of them at every meal. Their spoon bread is very good to serve as a substitute for potatoes. Bring a pint of milk to a boil, and stir in a cup of cornmeal and a teaspoonful of salt. Cook for five minutes, then stir in two tablespoonfuls of butter, a half a cup of cold milk and two well-beaten eggs. Then add a second cup of cold milk, gradually beating all the time, and bake in a well-buttered baking dish. Serve in the same dish.

SALLY LUNN.

Sift two cups of flour, four teaspoonfuls of baking powder, one-half teaspoonful salt and two rounding tablespoonfuls of sugar together. Rub in two rounding tablespoonfuls of shortening, add three-fourths of a cup of milk, and one egg, or two, if you can spare them, without beating it. Beat until you have a good smooth batter. Bake in muffin pans or in a sheet and cut in squares while hot. This is very nice with a cup of blueberries or blackberries well floured, stirred in just before putting into the pan.

CINNAMON BUNS.

Sift two cups of flour with two heaping tablespoonfuls of baking powder and a half a teaspoonful of salt. Rub in two rounding tablespoonfuls of shortening. Beat an egg until light, add half a cup of milk and pour into the flour. Mix to a soft dough. Roll out about one-third of an inch thick, spread with cinnamon and sugar and a few chopped raisins. Roll up like a jelly roll, cut into slices about an inch thick, lay in a well-buttered tin and bake in a quick oven. These are very good with apple sauce for a heavy dessert.

FRIED BREAD.

Beat an egg until light, add half a cup of milk and one and a third cups of flour, a third of a cup of sugar, two and a half teaspoonfuls of baking powder and a fourth of a spoonful of salt, sifted together. Then add a teaspoonful of melted shortening. Drop by the spoonful into a kettle of hot fat and try a golden brown. Send to the table at once and eat while hot.

TEA MUFFINS.

Delicious tea muffins can be made by using one's favorite recipe for muffins and adding chopped nuts, Canton ginger or chopped dates. Little hot biscuits to serve with salad are made of baking powder biscuit batter, rolling thinner than usual, cutting out in tiny circles, putting a thin slice of cheese on ice, covering it with a second circle, and baking in a hot oven.

Costiveness and Its Cure.—When the excretory organs refuse to perform their functions properly the intestines become clogged. This is known as costiveness and if neglected gives rise to dangerous complications. Parlee's Vegetable Pills will effect a speedy cure. At the first intimation of this ailment the sufferer should procure a packet of the pills and put himself under a course of treatment. The good effects of the pills will be almost immediately evident.

COUNTING HEADS.

First Census by Moses in the Wilderness.

There is a record of a census in China as far back as the year 2042 B. C. and of one in Japan in the last century before Christ. Under the constitution of Solon the citizens of Athens were divided and registered in four classes, according to the amount of their taxable property or income. The Roman census was burdened with more statistics than any of these, however. It had its origin under Servius Tullius, sixth king of Rome, and was an affair of much solemnity. Every citizen had to appear upon the Campus Martius and declare upon oath his name and dwelling and the value of his property under the penalty of having his goods confiscated.

The most ancient statistical record of a census is found in the Bible. The census was taken by Moses in the wilderness, and, as shown by the first chapter of Numbers, the enumeration

must have been very simple. "Take ye," said this account, "the sum of all the congregations of the children of Israel, after their fathers, with the number of their names, every male by their polls; from twenty years old and upward, all that are able to go forth to war in Israel: thou and Aaron shall number them by their armies." This number was an affair that must have been soon over, lasting no longer than a day, being merely a counting of the heads of the fighting men. The women and children and cripples and the old men were not included; "neither were the Levites numbered among them." Those who did stand up to be numbered totaled 603,550.

Relieves Asthma at Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

TRAINED BULLFINCHES.

Singing "God Bless the Prince of Wales."

British dealers complain that the supply of piping bullfinches—birds that can whistle a tune, or some bars of a tune—has been entirely cut off. The demand for these songsters came almost exclusively from Britain, and before the war they were "made in Germany" in large numbers and imported into this country. Tailors, cobblers and others who sit for long hours at their work, in the villages of Bavaria and the Harz Mountains, are the chief instructors.

The birds are taken from the nest when quite young—before they are fully fledged—and are carefully reared by hand. The tune desired must be whistled over and over again, till the bird, one may suppose, in sheer desperation, sets up a rival piping.

"God Save the King," and "God Bless the Prince of Wales," were as tunes most generally taught, and as much as £7 is paid for a really accomplished bullfinch for the British market.

OF INTEREST TO WOMEN

GOLD NUGGETS

DR. MARC AURELE'S SUPPOSITORIES AND SUPPORTERS

The most scientific and successful Home Treatment ever offered SUFFERING WOMEN. Quick relief from inflammation, bearing down sensations, falling of the uterus, displacement of internal organs, backache, extreme nervousness and such FEMALE TROUBLES, in the privacy of your home. Dr. Marc Aurele's book on Women's ailments sent FREE, enclose three stamps for postage.

HOME TREATMENT REMEDY CO., Box 125 H, Windsor, Ont.

ODD POULTRY RUN.

On Roof Within 300 Yards of Big Ben.

Within 300 yards of Big Ben, London, is a thriving poultry farm. It occupies no ground space which might be used either for public recreation or for housing, for it is situated on the roof of the large premises of the Institute of Civil Engineers. It comprises 35 fowls of various breeds—as well as 200 odd rabbits—and its owner, Mr. A. W. Thomson, claims that it is one of the best possible investments as well as a source of never-ending pleasure.

The fowls are housed in three spacious coops, sheltered from bleak winds and open to all the sunshine possible, but during the greater part of the day the birds are allowed to roam about the roof at will. Although the coping is low—not more than 18 in. at most—none of the fowls has yet attempted to go over the top. The boldest of the hens contents herself with balancing precariously on the edge during a high wind and calmly viewing the "roof" drop below.

The egg-laying activity of the fowls is remarkable, for since the farm was established a year ago, with a considerably smaller number of birds, an average throughout the year of 60 eggs per week has been maintained, rising in the season to well over 100 per week. The air of Westminster seems to suit the hens, for they all work exceedingly hard in egg-laying.

Health cannot be looked for in the child that is subjected to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Fire Clay Substitute.

The great resistance to heat of ordinary coal ash has suggested the use of this material for fire bricks in place of fire clay. It is claimed that a suitable binder has been provided in a new process, and several thousand experimental bricks already made are being tested, both as a fireproof building material and as a furnace lining.

"I Hope Every City and District Will Win My Flag"

When Edward, Prince of Wales—eager, bright-eyed, smiling and sincere—arrived in Canada in August, and when he voiced his great admiration of the wonderful achievements of Canadians, on the fields of battle and at home, once again we were thrilled with joyous pride.

He asked concerning Canada's reconstruction programme, and when he was told of the Victory Loan 1919, he graciously consented to the use of his Coat of Arms on a flag, which is to be the prize of honour for districts achieving their quota in the loan.

In dedicating "The Prince's Flag" at Ottawa on Labor Day, His Royal Highness said in part:—

"It is a great joy to me to be associated with the loan, which is the bridge between war and peace, and which is finishing off the job."

"I hope every city and district will win my flag."

Striking, and beautiful in design, this flag will form not only an unique memento of Victory Year, but a lasting and outstanding souvenir of the visit of His Royal Highness—a visit which will remain as one of the most memorable events in Canada's history.

The reproduction above shows the design of the flag. The body is white, the edge red; in the upper left hand corner is the Union Jack, and in the lower right hand corner the Prince of Wales' Coat of Arms.

The flag is made in two sizes, 4 feet 6 inches by 9 feet for small cities, towns and villages, and 7 feet by 13 feet 6 inches for cities of over 10,000 population.

Canada has been divided into canvassing districts by the Victory Loan Organization. Each city forms one district. Other districts have been determined according to population.

Each of these canvassing districts has been allotted a certain amount in Victory Bonds to sell. To win the Prince's Flag, therefore, a district has to sell its allotment. That is the one and simple condition.

Anticipating that many districts will buy far beyond their allotment, the organization decided that for each twenty-five per cent. excess of the quota one Prince of Wales' Crest be awarded. Thus the workers in a district doubling its quota will be the proud winners of four small crests for their Honour Flag. These crests will be sewn to the flag. The Prince's Crest—

the three ostrich plumes—is shown at the top of the coat of arms.

To every organization with fifty or more employees, where seventy-five per cent. of the enrollment invests a total of ten per cent. of the annual payroll in Victory Bonds, a supplementary Prince of Wales Flag in smaller form—48 inches by 34 inches—will be awarded.

The allotment for each district has been carefully considered, and is based on a conservative estimate of the purchasing power of the district.

Your district can sell its allotment and thus win the Prince's Flag, provided each person does his or her share.

You will gladly do your part and encourage your neighbour to do his.

Remember YOUR purchase may be the one that decides whether or not your district is to be the proud possessor of the Prince's Flag.

The Prince's Motto is "I Serve"
Will You also Serve?

Victory Loan 1919

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.

GERMANY PLOTS FOR A NEW WAR

View in London of Campaign in Russia.

Seen as Test Case for Nations League.

London cable: The coincidence of the League of Nations Union holding a meeting in London at the same time the Berlin Government was holding another meeting to consider a statement from the Supreme Council regarding the steps to be taken if General von Goltz did not withdraw his army from the Baltic Provinces, is giving rise to considerable irony in the British press, which declares it is a test case for the League of Nations, the only foundation for which is the good will and confidence of the people of the world.

Both London and Provincial papers declare that Germany's only hope of regaining sufficient strength for a future war of revenge lies in the exploitation of northern Russia. If Germany succeeds in her plan, she will gain in the east more than she has lost in the west. By dominating the Baltic reach of all

the Provinces she will have Poland at her mercy, with access to unlimited supplies of raw material.

As the problem is viewed here, it is not even a matter for speculation as to whether Germany intends to prepare for another war, but only as to how long it will take her to regain her strength. Supporters of the League of Nations accept this as a truism, but use it as an argument to justify a strong League of Nations.

There is even a note of regret heard over the final withdrawal of the last of the British forces from Archangel who left Murmansk Sunday, because those who advocated the support of the anti-German forces in Russia foresaw just such a move as Von der Goltz attempted. A man who has just left Germany after making a close study of the German Government, declared today that the great majority of the German people earnestly desire the rehabilitation of the Kaiser.

For Asthma and Catarrh.—It is one of the chief recommendations of Dr. Thomas' Electric Oil that it can be used internally with as much success as it can outwardly. Sufferers from asthma and catarrh will find that the Oil when used according to directions will give immediate relief. Many sufferers from these ailments have found relief in the Oil and have sent testimonials.

Corns cripple the feet and make walking a torture, yet sure relief is at hand in the shape of Holloway's Corn Cure. By dominating the Baltic reach of all

Chemistry.

The interest in chemistry and chemical products has greatly increased in Canada owing to the fact that this country had been forced by the war to depend upon its own resources in this direction. The following uses are described to these chemical products: In making soap and paper pulp, mercerizing cotton and purifying mineral oils, caustic soda is used; soda ash is necessary in the manufacture of soap and glass; silicate of soda (better known as water glass) is utilized in the manufacture of soap and in dyeing and printing calico, finishing cotton goods.

Dr. Martell's Female Pills For Women's Ailments

A scientifically prepared remedy of proven worth, recommended by physicians. Sold for twenty-five cents in a box of ten. Sold for one dollar in a box of thirty. Sold for three dollars in a box of ninety. Sold for six dollars in a box of one hundred and eighty. Sold for twelve dollars in a box of three hundred and sixty.
