CLUB CIRCLE GOSSIP. LONDON, March 10.-In club circles there has been much comment on the sensation caused first by the blackballing of the Hon. Cecil Rhodes, Premier of Cape Colony, at the Travelers' Club, and second at the fact that the Prince of Wales, the Duke of Fife, his son-in-law, and Earl Grey have resigned their membership of that club ed their membership of that club, thereby giving a damaging blow to its prestige. The black-balling of Mr. Rhodes, following closely upon the refusal of the Marlborough Club to elect Mr. Reit, the South African million Mr. Beit, the South African millionaire, and a partner of Mr. Rhodes in the De Beers diamond mines, is giving club men a lot to talk about. The Marlborough is the favorite club of the Prince of Wales, and nobody is proposed for membership there until his name has first been submitted to the Prince. To make matters uglier, Mr. Brince. To make matters ugher, Mr. Beit, it will be remembered, was proposed by the Duke of Fife. THE GRIP IN LONDON. LONDON, March 10.—The weather and epidemic of influenza have been moderating recently, although thousands of houses are still without water as a result of frozen pipes, and many thousands of people are suffering from the prevailing malady. The present epidemic of influenza has been more severely felt in London than in any other part of the country, and the death rate has risen during the past week from 21 per 1,000, the normal rate, week from 21 per 1,000, the normal rate, to 38.5 per 1,000, a remarkaby high record. GEN. BOOTH'S CANADIAN TOUR. Harold Frederick cables from London to the New York Times: Gen. Booth has returned, filled with enthusiastic confidence in the future of the Salvation Army and of its industrial projects in Canada. He seems to have more doubts about the United States. He ceptionally large number of professing Christians or regular church-goers to the population, but he owns to some misgivings as to how much real separation from the world all this signifies. About the Dominion, though, he has no reservations. He believes that he is going to astonish the globe by the magnitude of his achievements there, and apparently his plans are arranged for beginning an exodus of emigrants from this side which will be one of the most remarkable of our time. He is very sanguine, too, about keeping these 10,-000 colonists in Canada after he has got them there. CHINESE COMPLETELY ROUTED.

LONDON, March 10.-The Central News correspondent in Tokio quotes this dispatch, which was sent from Yin Kao, or New Chwang, on March 7: The forts south and west of Yin Kao on the left bank of the river have been taken to the last ditch and redoubt. Yesterday Gen. Nodzu reported that his army, with the aid of the first division, had attacked the Chinese at Tenchantai that morning. The Japanese advanced from three directions. A hot artillery fire was opened at 7 a.m., and under its cover the three bodies of troops stormed the town shortly before 10:30. The Chinese numbered 10,-000 or more. At first they fought stubbornly, but eventually they broke and ran, throwing their arms down and making no effort to save standards or haking no enort to save standards or baggage. Most of the Chinese fled to the northwest. Although the Japanese loss was but 100 killed, the Chinese left more than 2,000 dying and dead around the town. All the enemy's war material was captured. The town caught fire during the fight, and before night was burned to the ground.

The Central News correspondent in Shanghai says that the Chinese are making great preparations to defend Formosa against the expected landing of the Chinese.

It is not thought likely that Judge McHugh will resign from the bench to accept, and hundreds of Conservatives say they will either vote for McGregor or stay away from the polls.
