Springbank Will Be Popular on the Day Specially Set Aside for Working Men and Women.

Monday, Labor Day, will be the last holiday of the season. By this thought one is reminded that the summer is fast approaching a close, and the pleasures C. McBride, Dr. Balfour, Fred Beltz, and Ed. Burke was appointed to inbe over for this year. However, the street railway company expect a grand climax on Monday, and it is probable that the crowds at the park on that day will be a record-breaker. At no time of the year is the excursion along the river, nor the outing at the park, mor enjoyable. Added to these pleasure will be band concerts in the afternoon and evening by the Musical Society Band. This talented organization w present the choicest selections from their extensive repertoire. Another spe cial attraction of great importance, but ne for which no one can claim credit will be the moonlight in the evening.
