ADDRESSES ENGLISH-SPEAKING MONTREAL CITIZENS.

Montreal, Oct. 22.-Sir Wilfrid Laurier and his colleagues addressed meeting in Windsor Hall tonight in support of the candidates in the English-speaking division of the city. The monster demonstration at Sohmer Park a few weeks ago was naturally, as a mass meeting, largely French, but Sir Wilfrid felt it was a duty he owed to the English electors to address them in their own language. Although there was no organization and little advertising, the hall was packed to the doors and the utmost enthusiasm prevailed. While waiting the opening of the meeting a body of McGill students, mindful of the fact that Sir Wilfrid is a graduate of McGill, shouted: "What's the matter with Laurier? He's all right!' Hon. W. S. Fielding made a very important speech. Something after the Scotch fashion, the finance minister was "heckled," but his replies were happy, prompt and to the point. It so happened that the questions asked were of the greatest interest, and his replies were of corresponding value. It has been his privilege to announce the British preference, the admission of Canadian bonds to trustee securities in England, and other notable achieve-MONTREAL, Oct. 22 .- Cheese, 10c to ments of the Laurier government, and tonight he added the establishment of a Canadian mint as a branch of the royal institution. Mayor Prefontaine, who presided, and is himself the Liberal candidate in Maisonneuve, on behalf of the city of Montreal tendered a welcome to Sir Wilfrid Laurier, and briefly introduced the city candidates. Mr. Tarte was not on the programme, but the people in-sisted on hearing him and he made a brief, pointed speech.

WELL. Winnipeg, Man., Oct. 23. - In an interview in regard to the threshing results, Mr. F. W. Thompson, general manager of the Ogilvie Milling Company, said: "Reports all continue very satisfactory, indeed, fully confirming my late estimate. The new wheat has shown to be excellent in quality as a whole. The yield in most localities is far beyond earlier expectations, and I now give it as my undoubted opinion that the yield of the province and Territories will not be less than 25,000,000 bushels, and that over 95 per cent of this quantity will be good milling wheat. I regard the present position of Manitoba as exceptionally favorable. and in my opinion there will be about as much realized to the farmers on this year's crop as was netted on that of last year, so that all fear as to a possible stringency is removed.

MR. PETER RYAN

Makes a Plain Statement-Had No Idea of Contesting North York-Wishes the Laurier Government Success.

The Toronto, Evening News of Monday night had the following reference to Mr. Peter Ryan:
"In North York there is heard one clear call for Peter Ryan, but not from Wm. Mulock."

This is one of many similar references to Mr. Ryan that have recently appeared in the local Conservative papers, and in order to put a stop to this unauthorized and objectionable use of his name Mr. Ryan has addressed the following letter to the editor of the

Evening News:

sert this and oblige yours, "Oct. 22, 1900. PETER RYAN." Dr. Dewart's Address.

Rev. Dr. Dewart, one of Toronto's grand old men, who for many years wielded a vigorous pen as editor of the Christian Guardian, made a stirring address at a recent meeting of the Reforms of East Toronto. He said: They must reach out among the

desperate attempt was being made to mislead them by the Conservatives. He had been blamed as a minister of religion because he had taken an active part in politics, but he had always since a boy taken a deep interest in the affairs and welfare of his country, and he saw nothing derogatory to him as a minister in discussing what he believed was healthful to the country, or what would promote its best interests. He believed that if the facts were placed before the public, if the disgraceful tactics of the opposition were exposed, if the electors of East Toronto were fully informed of the rue position of affairs, many Conservatives would rise above partisanship. would find patriotism stronger than party, and persons would vote Reform who had never done so before. He advocated a campaign of instruction, and contrasted the position of the two parties, showing what a splendid record the Liberal government had made during their four years of office, how the country had prospered to a wonderful degree under their sway, and on the other hand pointed to the mischievous policy of the Conservatives in misrepresenting facts persistently, and in stirring up prejudice. The most striking instance of their deliberate and wilful perversion of the truth was cited in the case of the preferential tariff, in relation to which they continued, in spite of repeated denials, to state that Sir Wilfrid Laurier had refused trade concessions offered by England. He showed how ridiculous it was to think that the British Government or the British people ever thought of reversing their policy of having the food of the masses untaxed. There would be a great strug-gle, he concluded, at the elections, and a great crisis was upon them, but he thought that the country would safely pass through it if the but he Liberal party proved but, true to itself and alive to its responsibilitrue

FIVE CHILDREN

Suffocated as the Result of a Fire in Montreal.

Montreal, Oct. 22 .- A fire which broke out in a small tenement house on Archambault Lane at 1:30 this morning resulted in the death by suffocation of five children. The father, Arthur Leblane, a shoemaker, was badly burned, but will live. The mother was only slightly injured. The children were in an upper room, and were dead before the firemen could get near them.

Massachusetts Young Women Organ

ize to Foil Unprincipled Men. "Oh, for a man! any kind of a man!" is not the heart cry of all young wo-men. There are some of the sex who much as they desire to "settle down in life," have too much good sense to jump at the first man who offers himself in marriage, irrespective of his guine. moral character or financial standing. Among these are a considerable number of the leading society girls of Plymouth, Mass., who have organized themselves into a society for mutual protection against worthles members

of the opposite sex.

The organization was prompted by became engaged to one of the pretty little Puritans there and their marriage was thought to be one of the future's surest premises. But to the utter amazement and great shock of the good townspeople, a dark beauty turned up one day, claimed the prospective bride-groom as her husband, and took him away with her.

The shocked young woman who had

thought herself soon to be married collapsed at the revelation and was very ill for a long time. She had friends in town and about the countryside, and some of them, remembering for their part the evanescent character of the wooing of summer men, quietly banded together for mutual protection. No member will tell who another member is; no one will hardly admit that she is a member, but still the society does exist and no one can say how many have been the unhappy marriariages which it has prevented. To be a member of the society one must be between 17 and 30 of age. It is during this period of life, say the young ladies, that one is most apt to be sought by swains, sincere or otherwise, and so needs protection. Meetings are held at stated intervals, people and give them the actual facts of the political situation, because a or a member can call a special meeting if she wishes that the others may

The vice-president, and the young woman who will, says Miss Cor-ley, be made president next, is Miss Alice Pierce. Under Miss Corley's leadership, the association has grown to a strength of nearly half a hundred, and it is said that almost every young woman who has been approached and

asked to join has done so. The method of looking into the character of a young man is simple. LAMBETH Dedication of the New Metho Church A Handson's Structure Paid For

Lambeth, Oct. 23.—Sunday, Oct. 21, was a memorable day in the history of Methodism in the village of Lambeth, being the dedication of their beautiful new church. The church is a square brick structure, trimmed with stone.
It contains a beautiful auditorium, inished in black ash. The celling is a handsome metallic one, painted a blue gray, while the walls are tinted a Pale pink. There are five fine memorial windows, placed in position as follows: By Mrs. J. Routledge, in memory of her husband and son; by Miss Ray Moore, in memory of her mother; by Mrs. D. Lown, in memory of Mr. and Mrs. D. Lown, in memory of their daughter Alma; by Mr. J. Thomicroft, in memory of his wife, and by the Workmen and Foresters. The cr-

The basement is complete in all details, containing six class rooms, a kitchen and two pantries, besides the lecture room. In the tower a sweet-toned bell, the sift of the Woman's and the court of the woman's countries. Auxiliary, peals out the hour of wor-ship. The whole church is lighted by acetylene gas. In fact, the church is probably the finest country church in Western Ontario, and the people of Lambeth have every reason to be proud of their new edifice. It reflects credit on the architect, Mr. Matthews, of London; the contractors, Messrs. Woodhull, of Lambeth, and Gordier, of London; the painter, Mr. Clark, of Lambeth, and especially on the zeal and energy displayed throughout by the building committee, composed of the pastor, Rev. J. S. Fisher, and Messrs. W. B. Woodhull, R. M. Piper, A. Jones and W. Tye, in pushing the enterprise to a successful issue.

The first service of the day was opened by Dr. Carman, separal support

opened by Dr. Carman, general super-intendent of the Methodist Church. This grand old veteran of Methodism preached an impressive and powerful sermon, taking for his text I. Timothy, iii., 14 and 15. Dr. Williamson, of E lin, preached an able and eloquent sermon in the afternoon, taking his text from Exodus xiv., 15. Dr. Carn in preached again in the evening on "1 New Birth, or Regeneration," his text from Ephesians iv., 21, 22, 23. The subject was handled in an exhaustive manner by the reverend gentleman and was thoroughly appreciated by the large and intelligent audience. Dr. Carman is one of whom we can say that though ripe in years his natural force is not abated. Subscriptions and offerings were received at the close of

The church, which cost nearly \$10,-000, was \$3,300 in debt at the begin-ning of the services, was formally presented for dedication at the close of the evening service by the trustees represented by Mr. W. B. Woodhul entirely free of debt, and with a surplus of \$1,000. The people of the church had great expectations, but the result of the opening services far exceeded the expectations of even the most san The church was commenced with fearful hearts on the part of a great many, but they obeyed the voice of the Lord to go forward, and he has been with them and prospered them. The edifice was filled to overflowing at every service, owing in a great

measure to the courtesy of the people of the Anglican Church, the Westminster and the Taibotville circuits, who kindly withdrew the services in their charches for the entire day.
