Morgan Buys Bonds.

NEW YORK, March 27.—The United States Steel Corporation announced today that it had sold to J. P. Morgan & Co. an issue of \$30,500,000 in bonds bearing interest at the rate of 5 per cent. This is the first time in years that the corporation has issued bonds, its surplus earnings heretofore having been used in the construction of new properties. The announcement was made by Judge E. H. Gary, chairman of the board, who, in a statement, said: "As there must be expended during the year about \$20,000,000 bended during the year about \$20,000,000

pended during the year about \$20,000,000 for extensions of properties generally as heretofore authorized, and as about \$17,00,0000 additional working capital is needed, in consequence of increased business of the companies, particularly in the ore department, it has been thought advisable to secure the sum named by sale of bonds in order to kep the amount of cash on hand up to the sum shown at the beginhand up to the sum shown at the beginning of the calendar year."
