The baking company had entered action against Ald. Bridge for \$34,239.49, the total of amounts said to have been owing by the plaintiff to the defendant, and money said to have been taken as profits from flour which Bridge was alleged to have purchased in the company's name and resold to them at prices higher than the purchase price. Business Enterprise of Toronto Men Worried Residents of Boston.

Toronto, June 21.-Misery Island. off Marble Head in the Atlantic, near Bos ton, has a mystery of an empty house with which are linked the names of well-known Toronto men as the owners—A. E. Osler, Gordon Taylor and Joseph Kil

According to the story from Boston, representatives of a Toronto banking house appeared at the island some years ago and tried to buy up the whole island. They succeeded in purchasing 70 of its 80 acres. Some of those having summer homes there refused to sell.

It was completed in six months. It was
of the finest and most up-to-date construction. It contains 25 two-room
apartments, each with bath. The heating and all the other equipment was of
the most improved type. The big building was finished. The workmen left.
From that day, so far as residents of
the island have been able to ascertain,
no one interested with "the big and

island. At the office of A. E. Osler &

building itself. The building was built
as an investment by Messrs. Osler, Taylor and Kilgour, but the war interfered
with their plans for renting the place or
disposing of the property.
