LONDON, April 16.—In the House of Commons to-night, in accordance with previous notice, Mr. Gladstone moved to go into committee on the bill for the disestablishment of the Church. Mr. Newgate, a Conservative member from North Warwickshire, moved an amendment that the House go into committee on the bill six months from the present date, which was equivalent to postponement. A lively debate ensued, during which Mr. Aytoun, Liberal member from Kirkaly, who voted with the majority when the bill passed a second reading, created a sensation by stating his objections to the clause in the bill providing for the support of Maynooth College. A scene of great excitement followed; when it subsided the discussion was renewed and lasted for six hours. At the conclusion of the debate the House divided on Mr. Gladstone's motion resulting in 355 for, to 229 against, when the House formally went into a committee on the bill and then adjourned.

The Newmarket Beneficial Stake was won by Bluegown, who was the victor in last year's race.

LONDON, April 17.—The debate in the House of Commons on the Church Bill was resumed last evening, when Disraeli moved to omit the following clauses from the bill: On and after the 1st January, 1871, said union created by the Parliament between the Church of England and Ireland shall be dissolved, and shall cease to be established by law. Disraeli supported his proposition at length, and contended that the above clause destroyed the supremacy of the Crown, and placed the Church at disadvantage. Sir Robert Collier and Sir Roundell Palmer spoke in opposition to the amendment. Mr. Gladstone also spoke against it, criticising the statements made by Disraeli. He thought notwithstanding this clause the supremacy of the crown would continue to exist, but in an altered form. If this amendment was successful it would absolutely destroy the bill, and the union of the Churches would continue, but that union must be enforced by Parliamentary bonds.

Disraeli replied, and admitted that his intention was to strike a mortal blow at the bill; but if the motion was accepted the government could still continue their disengagement policy.

The vote on the motion was—221 for and 334 against, and was received with tremendous cheers by the Liberals.

WALTHAM WATCHES.

The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches, COMBINING THE BEST AND LATEST IMPROVEMENT, and at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

For sale by all dealers.

Coughs, Colds, Rheumatism, Diarrhœa, Dysentery, and Fever.

THE "TIMES," OF INDIA, STATES "that the discovery of Dr. J. COLLIS BROWNE'S CHLORODYNE is a greater blessing to the human race than even the discovery of Vaccination." This remedy is invaluable in the above diseases, and is indispensable to Emigrants, Travellers, and Families, a few doses being generally sufficient.

DR. J. COLLIS BROWNE'S CHLORODYNE.—The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See "Lancet," December 31, 1864.

DR. J. COLLIS BROWNE'S CHLORODYNE.—Extract from "Medical Times," January 12, 1866.—"Is prescribed by scores of orthodox medical practitioners. Of course it would not be thus singularly popular did it not 'supply a want and fill a place.'"

DR. J. COLLIS BROWNE'S CHLORODYNE is the best and most certain remedy in Coughs, Colds, Asthma, Consumption, Neuralgia, Rheumatism, etc.

From A. Montgomery, Esq., late inspector of Hospitals, Bombay: "Chlorodyne is a most valuable remedy in Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when all other medicines had failed."

It is necessary to warn the public against spurious imitations, which only bear the pirated name, and are deficient of the true properties of the only genuine, viz.: DR. J. COLLIS BROWNE'S, as was proved before Vice-Chancellor Sir W. P. Wood, in the Court of Chancery, in case Browne vs. Freeman, when the Vice-Chancellor stated that the story of Freeman being the inventor was DELIBERATELY UNTRUE.
