The Jubilee

as various articles, by reason of wear and tear, became useless; microscope and surgical instruments also have been received, and through the indefatigable efforts of Mrs. H. Dallas Helmcken the hospital has been supplied with an X. rays apparatus. The ambulance has been thoroughly overhauled, fitted with rubber tires and in every way possible put in the best condition to meet the comfort and necessities of those requiring it. The electric light, installed by the Agenorian Society, has proved very satisfactory, although more costly than the by the Agenorian Society, has proved very satisfactory, although more costly than the previous coal oil lamp system of lighting. The recovery rooms built and furnished by these same ladies have been a great convenience in many operation cases. Year by year the spacious grounds which surround the hospital become more beautiful, and will be a lasting memorial of the forethought and liberality of the donors of many shade and ornamental trees and shrubs. The fruit trees also are coming along very well, and about an acre of land is now being prepared for a vegetable garden.

FURTHER IMPROVEMENTS SUG-GESTED.

GESTED.

It must not be thought from the foregoing that the hospital is now all that can be desired. On the contrary, its efficiency can be greatly increased by the erection of additional private rooms, as at times the applications of pay patients have had to be refused. A children's ward and a maternity ward are also needed, but before these additions can be effected the nurses' accommodation must be increased. During this month two nurses were employed on special cases who could not be accommodated on the premises. These and other important matters are fully set forth in the report of a special committee on n the report of a special committee on ways and means, which is appended hereto. ways and means, which is appended nereto. It is therefore unnecessary to do more than acknowledge with thanks the excellent work done by the Ladies' Auxiliary and the women's working committee in raising the sum of \$2.500 during the past year towards the children's ward fund. The directors also desire to thank the "bachelor" who agreed with them upon the necessity of moviding a maternity ward and nnonymously donated the sum of \$100 to-wards that object.

COUNTESS OF ABERDEEN. On Monday, July 25 last, the directors were honored by the visit of the Countess of Aberdeen, who delivered an address upon the Victorian Order of Nurses, with the object of removing certain misappre-TRAINING SCHOOL

TRAINING SCHOOL.

The hospital training school for nurses is prospering satisfactorily so far as the means are at disposal. A very thorough training in medical and surgical cases is now possible, and advantage was taken of the visit of Miss Livingstone for a course of invalid cooking instruction, which was given on the premises. The directors would be glad to see their way to establish a diet kitchen, and hope the time is not far distant when the nurses' training at this hospital will include children, maternity and infectious cases.

MATRON PESIGNED MATRON RESIGNED.

On March 31 last the hospital lost On March 31 last the hospital lost a valuable officer by the resignation of Miss M. Macmillan, who for more than six years had very ably filled the position of matron. Miss Macmillan left with the directors' best wishes for happiness in her new sphere of life. The vacancy was filled by the promotion of Miss J. M. Grady, who after graduating at the Provincial Royal Jubilee, hospital held the position of head nurse for two years. Miss Elsie Gordon who recently completed her course of training at this hospital, now occupies the position of head nurse.

CHANGES IN THE DIRECTORATE. CHANGES IN THE DIRECTORATE.
Mr. John Braden, one of the directors appointed by the government, resigned in April last, and the vacancy was filled by the appointment of Mr. R. L. Drury. The government also appointed Mr. C. A. Holland to fill the vacancy caused by the decease of the late George Byrnes.

The amended "Jubilee Hospital act" provides "that no member of the council of the corporation of the city of Victoria shall be capable of being elected or appointed a director of the said hospital." In consequence of the foregoing we regret that Alderman Hayward, the present homorary treasurer of the hospital, who was one of the original directors, has served as president, and been continuously a member of the board since its inception, is not now by reason of his being an alderman eligible for either appointment or election to the directorate. We hope, however, that in by reason of his being an alderman eligible for either appointment or election to the directorate. We hope, however, that in an unofficial way he will continue to give the hospital the advantage of his experienced, active, intelligent interest in promoting its future prosperity and well being.

VISITING MEDICAL AND SURGICAL

the Colonist, Times and Globe newspapers their services and the large amount of To Present their time devoted to the patients in the

The directors of the Provincial Boyal Jubilee hospital have recently sustained a serious loss by the death of their colleague, the late George Byrnes. The deceased served on the board continuously from June, 1891, to March this year, during which time he evinced a uniform and deep interest in all matters pertaining to the welfare of the institution.

REPAIRS AND IMPROVEMENTS.

During the past twelve months the affairs of the nospital have progressed smoothly and nothing unusual has transpired. The repairs and improvements mentioned in the previous report have been completed and necessary refurnishing has been done, as various articles, by reason of wear and tear, became useless; microscope and surgical instruments also have been received, and through the indefatigable efforts of Mrs. H Dallas Helmoken to heavistal have propressed smoothly in the report of the indefatigable efforts of Mrs. H Dallas Helmoken the hospital has been done, and through the indefatigable efforts of Mrs. H Dallas Helmoken the hospital insurance, taxes, etc., \$25.50.

MEDICAL OFFICER. May 31, 1899. May 31, 1899.

The President and Members of the Board of Directors Provincial Royal Jubilee Hospital:
Gentlemen,—I have the honor to submit report for the year ending May 31, 1800.

Gentlemen, 1 and 1 1897-1898.....

The total number of patients treated this was: In patients, 688; out patients, or an increase of 53 patients in the The total days stay of patients year. The total days stay of patie 15.705 days, as against 14,043 last year. The comparative cost per diem under he following heads for the past four years was as follows: 22 418 45 150 0 22 42 25 25 25 0

Mr. Davies—That is for a wooden building.

Mr. Helmcken suggested that the directors and the ladies hold a joint meeting and decide upon a plan of action for that is floating about in the steamer's hold, and they will remain here until they learn to what extent they are losers.

Touching first at Mary Island, since makes Ketchikan, Fort Wrangel, Juneau, Treadwell mine, Douglas City, Skagway, Dyea, Glacier bay, Muir Gland they will remain here until they learn to what extent they are losers. Votes of thanks having been tendered

the medical staff, resident medical officer and staff, President Wilson, Hon. Treas-urer Hayward and Vice President Helmcken and suitable replies having been made, the board adjourned.

Temporarily Repaired.

Steamer Danube Will Be Floated To-night to Discharge Cargo.

of surgical cases, as have stimulants from the same cause.

The electric light has proved much more expensive than oil lamps, but it is incomparably more convenient. My hope that the price would have failen with the installation of the new power from Gold-stream has not been realized.

The washing per month has increased, partly owing to increased work and also to an increase in wages.

The fuel item is larger, owing to the unusually long cold season, and to the continuous use of the operating and recovery rooms. Representatives of the underwriters were busy appraising the cargo of the steamer Danube yesterday. This was not all left in the vessel, as stated in yesterday's Colonist, some little of it having been taken out and forwarded to Victoria on the Selkirk. All the mail but one sack was removed, and this exception.

Dick Crane, the owner of a large saloon and general store at Dawson, with his partners, E. F. McConnell, of Painesville, Ohlo, and C. A. Sullivan, of Geneva, in the same state, are guests at the Queen's, en route to the Klondike capital. Mr. Crane has been purchasing his season's stock, taking in with him upwards of twenty tons of goods bought in Victoria alone.

H. J. Russell, of San Francisco, whose firm is prominent in textile manufacture, Goodwin, a Salt Lake newspaper man; been taken out and forwarded to victoria on the Selkirk. All the mail but one sack was removed, and this exception, a part of a batch being forwarded to Dawson and Atlin, is supposed to be to Dawson and Atlin, is supposed to be to Dawson and Atlin, is supposed to be to Dawson and Atlin, is find the ship's hold.

H. J. Russell, of San Francisco, whose firm is prominent in textile manufacture, is at the Hotel Victoria, his business being for the purpose of establishing a British columbia agency here. He regards it as goods merchant of Oakland. The passenger list contains many names of people of wealth and culture, and not a few decreased salaries now paid to the nurses.

The days stay of patients for the past four years arranged for comparison is as follows: 1896-97 . 7,125 " 2,875 " 3,716 " 1897-98 . 6,678 " 3,843 " 3,512 " 1888-99 . 7,901 " 4,151 " 3,653 " 1 The number of surgical operations has very largely increased, the number this year being 380, as against 291 for 1897-1898. I would draw attention to the urgent need there is for affording increased accommodation for the nursing staff. I have had this year three cases of sickness among the nurses owing to the extra work entailed on them by the increased number of serious eases. has thrown it into such a mess as to make it difficult to approximate its value. Ther are 7,000 cases of salmon boxes and tins that were consigned to the Good Hope cannery at Rivers Inlet, from the Automatic can works, Westminster, in the forward hold, which it is said cannot be used. The oats and chop feed must allowed to the control of the control tailed on them by the increased number of serious cases.

If a properly equipped sterilizing room were built adjoining the operating room the room now used for the purpose of preparing dressings might be utilized for an extra patient and an increased amount of labor and time saved to the nurses in charge of the operating room, and a considerable revenue accrue to the hospital from the use of the room for private patients.

There is also urgent need of a diet kitchen for the preparation of food for the patients, and for the instruction of pupil nurses in sick cookers.

I recommend these three needs most humbly to your earnest consideration durthe forward hold, which it is said cannot be used. The oats and chop feed must also be damaged, but the lumber and sash and doors are thought to be in fair shape. The damage to the hull includes besides the holes some broken frames, which to the casual observer are not apparent, and to the mechanic to be got at only when the cargo has been removed. At present a patch of sheet iron eight or nine feet long is being temporarily bolted over the largest hole in order to allow of the steamer being floated this evening, to come around to the outer wharf to discharge cargo.

Standard many friends in British Columbia, acquired during a previous visit.

Dr. M. K. Watlin, of New York City, a lady who has achieved considerable fame in her chosen profession, has arrived at the Driand to Join a party of friends who have been devoting some weeks to seeing the sights of Canada's westernmost province.

F. M. Studley, the Seattle agent of the Nippon Yusen Kaisha line, and Capt. David Gilmore, the company's Puget Sound pilot, are at the Hotel Victoria. They are here to meet the incoming Idzumi-Maru.

J. P. Bignell, from old Quebec, is a guest at the Dominion. He is on his way to the Klondike, and outfitting in Victoria.

VISITING MEDICAL AND SURGICAL
